CONSTITUTION OF NORTH CAROLINA

PREAMBLE

We, the people of the State of North Carolina, grateful to Almighty God, the Sovereign Ruler of Nations, for the preservation of the American Union and the existence of our civil, political and religious liberties, and acknowledging our dependence upon Him for the continuance of those blessings to us and our posterity, do, for the more certain security thereof and for the better government of this State, ordain and establish this Constitution.

ARTICLE I DECLARATION OF RIGHTS

That the great, general, and essential principles of liberty and free government may be recognized and established, and that the relations of this State to the Union and government of the United States and those of the people of this State to the rest of the American people may be defined and affirmed, we do declare that:

Section 1. The equality and rights of persons.

We hold it to be self-evident that all persons are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, the enjoyment of the fruits of their own labor, and the pursuit of happiness.

Sec. 2. Sovereignty of the people.

All political power is vested in and derived from the people; all government of right originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.

Sec. 3. Internal government of the State.

The people of this State have the inherent, sole, and exclusive right of regulating the internal government and police thereof, and of altering or abolishing their Constitution and form of government whenever it may be necessary to their safety and happiness; but every such right shall be exercised in pursuance of law and consistently with the Constitution of the United States.

Sec. 4. Secession prohibited.

This State shall ever remain a member of the American Union; the people thereof are part of the American nation; there is no right on the part of this State to secede; and all attempts, from whatever source or upon whatever pretext, to dissolve this Union or to sever this Nation, shall be resisted with the whole power of the State.

Sec. 5. Allegiance to the United States.

Every citizen of this State owes paramount allegiance to the Constitution and government of the United States, and no law or ordinance of the State in contravention or subversion thereof can have any binding force.

Sec. 6. Separation of powers.

The legislative, executive, and supreme judicial powers of the State government shall be forever separate and distinct from each other.

Sec. 7. Suspending laws.

All power of suspending laws or the execution of laws by any authority, without the consent of the representatives of the people, is injurious to their rights and shall not be exercised.

Sec. 8. Representation and taxation.

The people of this State shall not be taxed or made subject to the payment of any impost or duty without the consent of themselves or their representatives in the General Assembly, freely given.

Sec. 9. Frequent elections.

For redress of grievances and for amending and strengthening the laws, elections shall be often held.

Sec. 10. Free elections.

All elections shall be free.

Sec. 11. Property qualifications.

As political rights and privileges are not dependent upon or modified by property, no property qualification shall affect the right to vote or hold office.

Sec. 12. Right of assembly and petition.

The people have a right to assemble together to consult for their common good, to instruct their representatives, and to apply to the General Assembly for redress of grievances; but secret political societies are dangerous to the liberties of a free people and shall not be tolerated.

Sec. 13. Religious liberty.

All persons have a natural and inalienable right to worship Almighty God according to the dictates of their own consciences, and no human authority shall, in any case whatever, control or interfere with the rights of conscience.

Sec. 14. Freedom of speech and press.

Freedom of speech and of the press are two of the great bulwarks of liberty and therefore shall never be restrained, but every person shall be held responsible for their abuse.

Sec. 15. Education.

The people have a right to the privilege of education, and it is the duty of the State to guard and maintain that right.

Sec. 16. Ex post facto laws.

Retrospective laws, punishing acts committed before the existence of such laws and by them only declared criminal, are oppressive, unjust, and incompatible with liberty, and therefore no ex post facto law shall be enacted. No law taxing retrospectively sales, purchases, or other acts previously done shall be enacted.

Sec. 17. Slavery and involuntary servitude.

Slavery is forever prohibited. Involuntary servitude, except as a punishment for crime whereof the parties have been adjudged guilty, is forever prohibited.

Sec. 18. Court shall be open.

All courts shall be open; every person for an injury done him in his lands, goods, person, or reputation shall have remedy by due course of law; and right and justice shall be administered without favor, denial, or delay.

Sec. 19. Law of the land; equal protection of the laws.

No person shall be taken, imprisoned, or disseized of his freehold, liberties, or privileges, or outlawed, or exiled, or in any manner deprived of his life, liberty, or property, but by the law of the land. No person shall be denied the equal protection of the laws; nor shall any person be subjected to discrimination by the State because of race, color, religion, or national origin.

Sec. 20. General warrants.

General warrants, whereby any officer or other person may be commanded to search suspected places without evidence of the act committed, or to seize any person or persons not named, whose offense is not particularly described and supported by evidence, are dangerous to liberty and shall not be granted.

Sec. 21. Inquiry into restraints on liberty.

Every person restrained of his liberty is entitled to a remedy to inquire into the lawfulness thereof, and to remove the restraint if unlawful, and that remedy shall not be denied or delayed. The privilege of the writ of habeas corpus shall not be suspended.

Sec. 22. Modes of prosecution.

Except in misdemeanor cases initiated in the District Court Division, no person shall be put to answer any criminal charge but by indictment, presentment, or impeachment. But any person, when represented by counsel, may, under such regulations as the General Assembly shall prescribe, waive indictment in noncapital cases.

Sec. 23. Rights of accused.

In all criminal prosecutions, every person charged with crime has the right to be informed of the accusation and to confront the accusers and witnesses with other testimony, and to have counsel for defense, and not be compelled to give self-incriminating evidence, or to pay costs, jail fees, or necessary witness fees of the defense, unless found guilty.

Sec. 24. Right of jury trial in criminal cases.

No person shall be convicted of any crime but by the unanimous verdict of a jury in open court. The General Assembly may, however, provide for other means of trial for misdemeanors, with the right of appeal for trial de novo.

Sec. 25. Right of jury trial in civil cases.

In all controversies at law respecting property, the ancient mode of trial by jury is one of the best securities of the rights of the people, and shall remain sacred and inviolable.

Sec. 26. Jury service.

No person shall be excluded from jury service on account of sex, race, color, religion, or national origin.

Sec. 27. Bail, fines, and punishments.

Excessive bail shall not be required, nor excessive fines imposed, nor cruel or unusual punishments inflicted.

Sec. 28. Imprisonment for debt.

There shall be no imprisonment for debt in this State, except in cases of fraud.

Sec. 29. Treason against the State.

Treason against the State shall consist only of levying war against it or adhering to its enemies by giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court. No conviction of treason or attainder shall work corruption of blood or forfeiture.

Sec. 30. Militia and the right to bear arms.

A well regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed; and, as standing armies in time of peace are dangerous to liberty, they shall not be maintained, and the military shall be kept under strict subordination to, and governed by, the civil power. Nothing herein shall justify the practice of carrying concealed weapons, or prevent the General Assembly from enacting penal statutes against that practice.

Sec. 31. Quartering of soldiers.

No soldier shall in time of peace be quartered in any house without the consent of the owner, nor in time of war but in a manner prescribed by law.

Sec. 32. Exclusive emoluments.

No person or set of persons is entitled to exclusive or separate emoluments or privileges from the community but in consideration of public services.

Sec. 33. Hereditary emoluments and honors.

No hereditary emoluments, privileges, or honors shall be granted or conferred in this State.

Sec. 34. Perpetuities and monopolies.

Perpetuities and monopolies are contrary to the genius of a free state and shall not be allowed.

Sec. 35. Recurrence to fundamental principles.

A frequent recurrence to fundamental principles is absolutely necessary to preserve the blessings of liberty.

Sec. 36. Other rights of the people.

The enumeration of rights in this Article shall not be construed to impair or deny others retained by the people.

Sec. 37. Rights of victims of crime.

(1) Basic rights. Victims of crime, as prescribed by law, shall be entitled to the following basic rights:

- (a) The right as prescribed by law to be informed of and to be present at court proceedings of the accused.
- (b) The right to be heard at sentencing of the accused in a manner prescribed by law, and at other times as prescribed by law or deemed appropriate by the court.
- (c) The right as prescribed by law to receive restitution.
- (d) The right as prescribed by law to be given information about the crime, how the criminal justice system works, the rights of victims, and the availability of services for victims.
- (e) The right as prescribed by law to receive information about the conviction or final disposition and sentence of the accused.
- (f) The right as prescribed by law to receive notification of escape, release, proposed parole or pardon of the accused, or notice of a reprieve or commutation of the accused's sentence.
- (g) The right as prescribed by law to present their views and concerns to the Governor or agency considering any action that could result in the release of the accused, prior to such action becoming effective.
- (h) The right as prescribed by law to confer with the prosecution.

(2) No money damages; other enforcement. Nothing in this section shall be construed as creating a claim for money damages against the State, a county, a municipality, or any of the agencies, instrumentalities, or employees thereof. The General Assembly may provide for other remedies to ensure adequate enforcement of this section.

(3) No ground for relief in criminal case. The failure or inability of any person to provide a right or service provided under this section may not be used by a defendant in a criminal case, an inmate, or any other accused as a ground for relief in any trial, appeal, postconviction litigation, habeas corpus, civil action, or any similar criminal or civil proceeding. (1995, c. 438, s. 1.)

**ARTICLE II
LEGISLATIVE**

Section 1. Legislative power.

The legislative power of the State shall be vested in the General Assembly, which shall consist of a Senate and a House of Representatives.

Sec. 2. Number of Senators.

The Senate shall be composed of 50 Senators, biennially chosen by ballot.

Sec. 3. Senate districts; apportionment of Senators.

The Senators shall be elected from districts. The General Assembly, at the first regular session convening after the return of every decennial census of population taken by order of Congress, shall revise the senate districts and the apportionment of Senators among those districts, subject to the following requirements:

CONSTITUTION OF NORTH CAROLINA

(1) Each Senator shall represent, as nearly as may be, an equal number of inhabitants, the number of inhabitants that each Senator represents being determined for this purpose by dividing the population of the district that he represents by the number of Senators apportioned to that district;

(2) Each senate district shall at all times consist of contiguous territory;

(3) No county shall be divided in the formation of a senate district;

(4) When established, the senate districts and the apportionment of Senators shall remain unaltered until the return of another decennial census of population taken by order of Congress.

Sec. 4. Number of Representatives.

The House of Representatives shall be composed of 120 Representatives, biennially chosen by ballot.

Sec. 5. Representative districts; apportionment of Representatives.

The Representatives shall be elected from districts. The General Assembly, at the first regular session convening after the return of every decennial census of population taken by order of Congress, shall revise the representative districts and the apportionment of Representatives among those districts, subject to the following requirements:

(1) Each Representative shall represent, as nearly as may be, an equal number of inhabitants, the number of inhabitants that each Representative represents being determined for this purpose by dividing the population of the district that he represents by the number of Representatives apportioned to that district;

(2) Each representative district shall at all times consist of contiguous territory;

(3) No county shall be divided in the formation of a representative district;

(2) Extra sessions on legislative call. The President of the Senate and the Speaker of the House of Representatives shall convene the General Assembly in extra session by their joint proclamation upon receipt by the President of the Senate of written requests therefor signed by three-fifths of all the members of the Senate and upon receipt by the Speaker of the House of Representatives of written requests therefor signed by three-fifths of all the members of the House of Representatives.

Sec. 12. Oath of members.

Each member of the General Assembly, before taking his seat, shall take an oath or affirmation that he will support the Constitution and laws of the United States and the Constitution of the State of North Carolina, and will faithfully discharge his duty as a member of the Senate or House of Representatives.

Sec. 13. President of the Senate.

The Lieutenant Governor shall be President of the Senate and shall preside over the Senate, but shall have no vote unless the Senate is equally divided.

Sec. 14. Other officers of the Senate.

(1) President Pro Tempore - succession to presidency. The Senate shall elect from its membership a President Pro Tempore, who shall become President of the Senate upon the failure of the Lieutenant Governor-elect to qualify, or upon succession by the Lieutenant Governor to the office of Governor, or upon the death, resignation, or removal from office of the President of the Senate, and who shall serve until the expiration of his term of office as Senator.

(2) President Pro Tempore - temporary succession. During the physical or mental incapacity of the President of the Senate to perform the duties of his office, or during the absence of the President of the Senate, the President Pro Tempore shall preside over the Senate.

The two houses may jointly adjourn to any future day or other place. Either house may, of its own motion, adjourn for a period not in excess of three days.

Sec. 21. Style of the acts.

The style of the acts shall be: "The General Assembly of North Carolina enacts:".

Sec. 22. Action on bills.

(1) Bills subject to veto by Governor; override of veto. Except as provided by subsections (2) through (6) of this section, all bills shall be read three times in each house and shall be signed by the presiding officer of each house before being presented to the Governor. If the Governor approves, the Governor shall sign it and it shall become a law; but if not, the Governor shall return it with objections, together with a veto message stating the reasons for such objections, to that house in which it shall have originated, which shall enter the objections and veto message at large on its journal, and proceed to reconsider it. If after such reconsideration three-fifths of the members of that house present and voting shall agree to pass the bill, it shall be sent, together with the objections and veto message, to the other house, by which it shall likewise be reconsidered; and if approved by three-fifths of the members of that house present and voting, it shall become a law notwithstanding the objections of the Governor. In all such cases the votes of both houses shall be determined by yeas and nays, and the names of the members voting shall be entered on the journal of each house respectively.

(2) Amendments to Constitution of North Carolina. Every bill proposing a new or revised Constitution or an amendment or amendments to this Constitution or calling a convention of the people of this State, and containing no other matter, shall be submitted to the qualified voters of this State after it shall have been read three times in each house and signed by the presiding officers of both houses.

(3) Amendments to Constitution of the United States. Every bill approving an amendment to the Constitution of the United States, or applying for a convention to propose amendments to the Constitution of the United States, and containing no other matter, shall be read three times in each house before it becomes law, and shall be signed by the presiding officers of both houses.

CONSTITUTION OF NORTH CAROLINA

(4) Joint resolutions. Every joint resolution shall be read three times in each house before it becomes effective and shall be signed by the presiding officers of both houses.

(5) Other exceptions. Every bill:

- (a) In which the General Assembly makes an appointment or appointments to public office and which contains no other matter;
- (b) Revising the senate districts and the apportionment of Senators among those districts and containing no other matter;
- (c) Revising the representative districts and the apportionment of Representatives among those districts and containing no other matter; or
- (d) Revising the districts for the election of members of the House of Representatives of the Congress of the United States and the apportionment of Representatives among those districts and containing no other matter,

shall be read three times in each house before it becomes law and shall be signed by the presiding officers of both houses.

(6) Local bills. Every bill that applies in fewer than 15 counties shall be read three times in each house before it becomes law and shall be signed by the presiding officers of both houses. The exemption from veto by the Governor provided in this subsection does not apply if the bill, at the time it is signed by the presiding officers:

- (a) Would extend the application of a law signed by the presiding officers during that two year term of the General Assembly so that the law would apply in more than half the counties in the State, or
- (b) Would enact a law identical in effect to another law or laws signed by the presiding officers during that two year term of the General Assembly that the result of those laws taken together would be a law applying in more than half the counties in the State.

Notwithstanding any other language in this subsection, the exemption from veto provided by this subsection does not apply to any bill to enact a general law classified by population or other criteria, or to any bill that contains an appropriation from the State treasury.

(7) Time for action by Governor; reconvening of session. If any bill shall not be returned by the Governor within 10 days after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the General Assembly shall have adjourned:

- (a) For more than 30 days jointly as provided under Section 20 of Article II of this Constitution; or
- (b) Sine die

in which case it shall become a law unless, within 30 days after such adjournment, it is returned by the Governor with objections and veto message to that house in which it shall have originated. When the General Assembly has adjourned sine die or for more than 30 days jointly as provided under Section 20 of Article II of this Constitution, the Governor shall reconvene that session as provided by Section 5(11) of Article III of this Constitution for reconsideration of the bill, and if the Governor does not reconvene the session, the bill shall become law on the fortieth day after such adjournment. Notwithstanding the previous sentence, if the Governor prior to reconvening the session receives written requests dated no earlier than 30 days after such adjournment, signed by a majority of the members of each house that a reconvened session to reconsider

vetoed legislation is unnecessary, the Governor shall not reconvene the session for that purpose and any legislation vetoed in accordance with this section after adjournment shall not become law.

(8) Return of bills after adjournment. For purposes of return of bills not approved by the Governor, each house shall designate an officer to receive returned bills during its adjournment. (1995, c. 5, s. 1.)

Sec. 23. Revenue bills.

No law shall be enacted to raise money on the credit of the State, or to pledge the faith of the State directly or indirectly for the payment of any debt, or to impose any tax upon the people of the State, or to allow the counties, cities, or towns to do so, unless the bill for the purpose shall have been read three several times in each house of the General Assembly and passed three several readings, which readings shall have been on three different days, and shall have been agreed to by each house respectively, and unless the yeas and nays on the second and third readings of the bill shall have been entered on the journal.

Sec. 24. Limitations on local, private, and special legislation.

(1) Prohibited subjects. The General Assembly shall not enact any local, private, or special act or resolution:

- (a) Relating to health, sanitation, and the abatement of nuisances;
- (b) Changing the names of cities, towns, and townships;
- (c) Authorizing the laying out, opening, altering, maintaining, or discontinuing of highways, streets, or alleys;

- (f) Relating to cemeteries;
- (g) Relating to the pay of jurors;
- (h) Erecting new townships, or changing township lines, or establishing or changing the lines of school districts;
- (i) Remitting fines, penalties, and forfeitures, or refunding moneys legally paid into the public treasury;
- (j) Regulating labor, trade, mining, or manufacturing;
- (k) Extending the time for the levy or collection of taxes or otherwise relieving any collector of taxes from the due performance of his official duties or his sureties from liability;
- (l) Giving effect to informal wills and deeds;
- (m) Granting a divorce or securing alimony in any individual case;
- (n) Altering the name of any person, or legitimating any person not born in lawful wedlock, or restoring to the rights of citizenship any person convicted of a felony.

(2) Repeals. Nor shall the General Assembly enact any such local, private, or special act by the partial repeal of a general law; but the General Assembly may at any time repeal local, private, or special laws enacted by it.

(3) Prohibited acts void. Any local, private, or special act or resolution enacted in violation of the provisions of this Section shall be void.

(4) General laws. The General Assembly may enact general laws regulating the matters set out in this Section.

**ARTICLE III
EXECUTIVE**

Section 1. Executive power.

The executive power of the State shall be vested in the Governor.

Sec. 2. Governor and Lieutenant Governor: election, term, and qualifications.

(1) Election and term. The Governor and Lieutenant Governor shall be elected by the qualified voters of the State in 1972 and every four years thereafter, at the same time and places as members of the General Assembly are elected. Their term of office shall be four years and shall commence on the first day of January next after their election and continue until their successors are elected and qualified.

(2) Qualifications. No person shall be eligible for election to the office of Governor or Lieutenant Governor unless, at the time of his election, he shall have attained the age of 30 years and shall have been a citizen of the United States for five years and a resident of this State for two years immediately preceding his election. No person elected to the office of Governor or Lieutenant Governor shall be eligible for election to more than two consecutive terms of the same office.

Sec. 3. Succession to office of Governor.

(1) Succession as Governor. The Lieutenant Governor-elect shall become Governor upon the failure of the Governor-elect to qualify. The Lieutenant Governor shall become Governor upon the death, resignation, or removal from office of the Governor. The further order of succession to the office of Governor shall be prescribed by law. A successor shall serve for the remainder of the term of the Governor whom he succeeds and until a new Governor is elected and qualified.

(2) Succession as Acting Governor. During the absence of the Governor from the State, or during the physical or mental incapacity of the Governor to perform the duties of his office, the Lieutenant Governor shall be Acting Governor. The further order of succession as Acting Governor shall be prescribed by law.

(3) Physical incapacity. The Governor may, by a written statement filed with the Attorney General, declare that he is physically incapable of performing the duties of his office, and may thereafter in the same manner declare that he is physically capable of performing the duties of his office.

(4) Mental incapacity. The mental incapacity of the Governor to perform the duties of his office shall be determined only by joint resolution adopted by a vote of two-thirds of all the members of each house of the General Assembly. Thereafter, the mental capacity of the Governor to perform the duties of his office shall be determined only by joint resolution adopted by a vote of a majority of all the members of each house of the General Assembly. In all cases, the General Assembly shall give the Governor such notice as it may deem proper and shall allow him an opportunity to be heard before a joint session of the General Assembly before it takes final action. When the General Assembly is not in session, the Council of State, a majority of its members concurring, may convene it in extra session for the purpose of proceeding under this paragraph.

(5) Impeachment. Removal of the Governor from office for any other cause shall be by impeachment.

Sec. 4. Oath of office for Governor.

The Governor, before entering upon the duties of his office, shall, before any Justice of the Supreme Court, take an oath or affirmation that he will support the Constitution and laws of the United States and of the State of North Carolina, and that he will faithfully perform the duties pertaining to the office of governor.

Sec. 5. Duties of Governor.

(1) Residence. The Governor shall reside at the seat of government of this State.

(2) Information to General Assembly. The Governor shall from time to time give the General Assembly information of the affairs of the State and recommend to their consideration such measures as he shall deem expedient.

(3) Budget. The Governor shall prepare and recommend to the General Assembly a comprehensive budget of the anticipated revenue and proposed expenditures of the State for the ensuing fiscal period. The budget as enacted by the General Assembly shall be administered by the Governor.

The total expenditures of the State for the fiscal period covered by the budget shall not exceed the total of receipts during that fiscal period and the surplus remaining in the State Treasury at the beginning of the period. To insure that the State does not incur a deficit for any fiscal period, the Governor shall continually survey the collection of the revenue and shall effect the necessary economies in State expenditures, after first making adequate provision for the prompt payment of the principal of and interest on bonds and notes of the State according to their terms, whenever he determines that receipts during the fiscal period, when added to any surplus remaining in the State Treasury at the beginning of the period, will not be sufficient to meet budgeted expenditures. This section shall not be construed to impair the power of the State to issue its bonds and notes within the limitations imposed in Article V of this Constitution, nor to impair the obligation of bonds and notes of the State now outstanding or issued hereafter.

(4) Execution of laws. The Governor shall take care that the laws be faithfully executed.

(5) Commander in Chief. The Governor shall be Commander in Chief of the military forces of the State except when they shall be called into the service of the United States.

(6) Clemency. The Governor may grant reprieves, commutations, and pardons, after conviction, for all offenses (except in cases of impeachment), upon such conditions as he may think proper, subject to regulations prescribed by law relative to the manner of applying for pardons. The terms reprieves, commutations, and pardons shall not include paroles.

(7) Extra sessions. The Governor may, on extraordinary occasions, by and with the advice of the Council of State, convene the General Assembly in extra session by his proclamation, stating therein the purpose or purposes for which they are thus convened.

(8) Appointments. The Governor shall nominate and by and with the advice and consent of a majority of the Senators appoint all officers whose appointments are not otherwise provided for.

(9) Information. The Governor may at any time require information in writing from the head of any administrative department or agency upon any subject relating to the duties of his office.

(10) Administrative reorganization. The General Assembly shall prescribe the functions, powers, and duties of the administrative departments and agencies of the

CONSTITUTION OF NORTH CAROLINA

State and may alter them from time to time, but the Governor may make such changes in the allocation of offices and agencies and in the allocation of those functions, powers, and duties as he considers necessary for efficient administration. If those changes affect existing law, they shall be set forth in executive orders, which shall be submitted to the General Assembly not later than the sixtieth calendar day of its session, and shall become effective and shall have the force of law upon adjournment sine die of the session, unless specifically disapproved by resolution of either house of the General Assembly or specifically modified by joint resolution of both houses of the General Assembly.

(11) Reconvened sessions. The Governor shall, when required by Section 22 of Article II of this Constitution, reconvene a session of the General Assembly. At such reconvened session, the General Assembly may only consider such bills as were returned by the Governor to that reconvened session for reconsideration. Such reconvened session shall begin on a date set by the Governor, but no later than 40 days after the General Assembly adjourned:

- (a) For more than 30 days jointly as provided under Section 20 of Article II of this Constitution; or
- (b) Sine die. If the date of reconvening the session occurs after the expiration of the terms of office of the members of the General Assembly, then the members serving for the reconvened session shall be the members for the succeeding term. (1969, c. 932, s. 1; 1977, c. 690, s. 1; 1995, c. 5, s. 2.)

Sec. 6. Duties of the Lieutenant Governor.

The Lieutenant Governor shall be President of the Senate, but shall have no vote unless the Senate is equally divided. He shall perform such additional duties as the General Assembly or the Governor may assign to him. He shall receive the compensation and allowances prescribed by law.

Sec. 7. Other elective officers.

(1) Officers. A Secretary of State, an Auditor, a Treasurer, a Superintendent of Public Instruction, an Attorney General, a Commissioner of Agriculture, a Commissioner of Labor, and a Commissioner of Insurance shall be elected by the qualified voters of the State in 1972 and every four years thereafter, at the same time and places as members of the General Assembly are elected. Their term of office shall be four years and shall commence on the first day of January next after their election and continue until their successors are elected and qualified.

(2) Duties. Their respective duties shall be prescribed by law.

(3) Vacancies. If the office of any of these officers is vacated by death, resignation, or otherwise, it shall be the duty of the Governor to appoint another to serve until his successor is elected and qualified. Every such vacancy shall be filled by election at the first election for members of the General Assembly that occurs more than 60 days after the vacancy has taken place, and the person chosen shall hold the office for the remainder of the unexpired term fixed in this Section. When a vacancy occurs in the office of any of the officers named in this Section and the term expires on the first day of January succeeding the next election for members of the General Assembly, the Governor shall appoint to fill the vacancy for the unexpired term of the office.

(4) Interim officers. Upon the occurrence of a vacancy in the office of any one of these officers for any of the causes stated in the preceding paragraph, the Governor may

CONSTITUTION OF NORTH CAROLINA

appoint an interim officer to perform the duties of that office until a person is appointed or elected pursuant to this Section to fill the vacancy and is qualified.

(5) Acting officers. During the physical or mental incapacity of any one of these officers to perform the duties of his office, as determined pursuant to this Section, the duties of his office shall be performed by an acting officer who shall be appointed by the Governor.

(6) Determination of incapacity. The General Assembly shall by law prescribe with respect to those officers, other than the Governor, whose offices are created by this Article, procedures for determining the physical or mental incapacity of any officer to perform the duties of his office, and for determining whether an officer who has been temporarily incapacitated has sufficiently recovered his physical or mental capacity to perform the duties of his office. Removal of those officers from office for any other cause shall be by impeachment.

(7) Special Qualifications for Attorney General. Only persons duly authorized to practice law in the courts of this State shall be eligible for appointment or election as Attorney General.

Sec. 8. Council of State.

The Council of State shall consist of the officers whose offices are established by this Article.

Sec. 9. Compensation and allowances.

The officers whose offices are established by this Article shall at stated periods receive the compensation and allowances prescribed by law, which shall not be diminished during the time for which they have been chosen.

Sec. 10. Seal of State.

There shall be a seal of the State, which shall be kept by the Governor and used by him as occasion may require, and shall be called "The Great Seal of the State of North Carolina". All grants or commissions shall be issued in the name and by the authority of the State of North Carolina, sealed with "The Great Seal of the State of North Carolina", and signed by the Governor.

Sec. 11. Administrative departments.

Not later than July 1, 1975, all administrative departments, agencies, and offices of the State and their respective functions, powers, and duties shall be allocated by law among and within not more than 25 principal administrative departments so as to group them as far as practicable according to major purposes. Regulatory, quasi-judicial, and temporary agencies may, but need not, be allocated within a principal department.

ARTICLE IV JUDICIAL

Section 1. Judicial power.

The judicial power of the State shall, except as provided in Section 3 of this Article, be vested in a Court for the Trial of Impeachments and in a General Court of Justice. The General Assembly shall have no power to deprive the judicial department of any power or jurisdiction that rightfully pertains to it as a co-ordinate department of the

government, nor shall it establish or authorize any courts other than as permitted by this Article.

Sec. 2. General Court of Justice.

The General Court of Justice shall constitute a unified judicial system for purposes of jurisdiction, operation, and administration, and shall consist of an Appellate Division, a Superior Court Division, and a District Court Division.

Sec. 3. Judicial powers of administrative agencies.

The General Assembly may vest in administrative agencies established pursuant to law such judicial powers as may be reasonably necessary as an incident to the accomplishment of the purposes for which the agencies were created. Appeals from administrative agencies shall be to the General Court of Justice.

Sec. 4. Court for the Trial of Impeachments.

The House of Representatives solely shall have the power of impeaching. The Court for the Trial of Impeachments shall be the Senate. When the Governor or Lieutenant Governor is impeached, the Chief Justice shall preside over the Court. A majority of the members shall be necessary to a quorum, and no person shall be convicted without the concurrence of two-thirds of the Senators present. Judgment upon conviction shall not extend beyond removal from and disqualification to hold office in this State, but the party shall be liable to indictment and punishment according to law.

Sec. 5. Appellate division.

The Appellate Division of the General Court of Justice shall consist of the Supreme Court and the Court of Appeals.

Sec. 6. Supreme Court.

(1) Membership. The Supreme Court shall consist of a Chief Justice and six Associate Justices, but the General Assembly may increase the number of Associate Justices to not more than eight. In the event the Chief Justice is unable, on account of absence or temporary incapacity, to perform any of the duties placed upon him, the senior Associate Justice available may discharge those duties.

(2) Sessions of the Supreme Court. The sessions of the Supreme Court shall be held in the City of Raleigh unless otherwise provided by the General Assembly.

Sec. 7. Court of Appeals.

The structure, organization, and composition of the Court of Appeals shall be determined by the General Assembly. The Court shall have not less than five members, and may be authorized to sit in divisions, or other than en banc. Sessions of the Court shall be held at such times and places as the General Assembly may prescribe.

Sec. 8. Retirement of Justices and Judges.

The General Assembly shall provide by general law for the retirement of Justices and Judges of the General Court of Justice, and may provide for the temporary recall of any retired Justice or Judge to serve on the court or courts of the division from which he was retired. The General Assembly shall also prescribe maximum age limits for service as a Justice or Judge.

Sec. 9. Superior Courts.

(1) Superior Court districts. The General Assembly shall, from time to time, divide the State into a convenient number of Superior Court judicial districts and shall provide for the election of one or more Superior Court Judges for each district. Each regular Superior Court Judge shall reside in the district for which he is elected. The General Assembly may provide by general law for the selection or appointment of special or emergency Superior Court Judges not selected for a particular judicial district.

(2) Open at all times; sessions for trial of cases. The Superior Courts shall be open at all times for the transaction of all business except the trial of issues of fact requiring a jury. Regular trial sessions of the Superior Court shall be held at times fixed pursuant to a calendar of courts promulgated by the Supreme Court. At least two sessions for the trial of jury cases shall be held annually in each county.

(3) Clerks. A Clerk of the Superior Court for each county shall be elected for a term of four years by the qualified voters thereof, at the same time and places as members of the General Assembly are elected. If the office of Clerk of the Superior Court becomes vacant otherwise than by the expiration of the term, or if the people fail to elect, the senior regular resident Judge of the Superior Court serving the county shall appoint to fill the vacancy until an election can be regularly held.

Sec. 10. District Courts.

The General Assembly shall, from time to time, divide the State into a convenient number of local court districts and shall prescribe where the District Courts shall sit, but a District Court must sit in at least one place in each county. District Judges shall be elected for each district for a term of four years, in a manner prescribed by law. When more than one District Judge is authorized and elected for a district, the Chief Justice of the Supreme Court shall designate one of the judges as Chief District Judge. Every District Judge shall reside in the district for which he is elected. For each county, the senior regular resident Judge of the Superior Court serving the county shall appoint from nominations submitted by the Clerk of the Superior Court of the county, one or more Magistrates who shall be officers of the District Court. The initial term of appointment for a magistrate shall be for two years and subsequent terms shall be for four years. The number of District Judges and Magistrates shall, from time to time, be determined by the General Assembly. Vacancies in the office of District Judge shall be filled for the unexpired term in a manner prescribed by law. Vacancies in the office of Magistrate shall be filled for the unexpired term in the manner provided for original appointment to the office, unless otherwise provided by the General Assembly. (2004-128, s. 16.)

Sec. 11. Assignment of Judges.

The Chief Justice of the Supreme Court, acting in accordance with rules of the Supreme Court, shall make assignments of Judges of the Superior Court and may transfer District Judges from one district to another for temporary or specialized duty. The principle of rotating Superior Court Judges among the various districts of a division is a salutary one and shall be observed. For this purpose the General Assembly may divide the State into a number of judicial divisions. Subject to the general supervision of the Chief Justice of the Supreme Court, assignment of District Judges within each local court district shall be made by the Chief District Judge.

Sec. 12. Jurisdiction of the General Court of Justice.

(1) Supreme Court. The Supreme Court shall have jurisdiction to review upon appeal any decision of the courts below, upon any matter of law or legal inference. The jurisdiction of the Supreme Court over "issues of fact" and "questions of fact" shall be the same exercised by it prior to the adoption of this Article, and the Court may issue any remedial writs necessary to give it general supervision and control over the proceedings of the other courts. The Supreme Court also has jurisdiction to review, when authorized by law, direct appeals from a final order or decision of the North Carolina Utilities Commission.

(2) Court of Appeals. The Court of Appeals shall have such appellate jurisdiction as the General Assembly may prescribe.

(3) Superior Court. Except as otherwise provided by the General Assembly, the Superior Court shall have original general jurisdiction throughout the State. The Clerks of the Superior Court shall have such jurisdiction and powers as the General Assembly shall prescribe by general law uniformly applicable in every county of the State.

(4) District Courts; Magistrates. The General Assembly shall, by general law uniformly applicable in every local court district of the State, prescribe the jurisdiction and powers of the District Courts and Magistrates.

(5) Waiver. The General Assembly may by general law provide that the jurisdictional limits may be waived in civil cases.

(6) Appeals. The General Assembly shall by general law provide a proper system of appeals. Appeals from Magistrates shall be heard de novo, with the right of trial by jury as defined in this Constitution and the laws of this State.

Sec. 13. Forms of action; rules of procedure.

(1) Forms of action. There shall be in this State but one form of action for the enforcement or protection of private rights or the redress of private wrongs, which shall be denominated a civil action, and in which there shall be a right to have issues of fact tried before a jury. Every action prosecuted by the people of the State as a party against a person charged with a public offense, for the punishment thereof, shall be termed a criminal action.

(2) Rules of procedure. The Supreme Court shall have exclusive authority to make rules of procedure and practice for the Appellate Division. The General Assembly may make rules of procedure and practice for the Superior Court and District Court Divisions, and the General Assembly may delegate this authority to the Supreme Court. No rule of procedure or practice shall abridge substantive rights or abrogate or limit the right of trial by jury. If the General Assembly should delegate to the Supreme Court the rule-making power, the General Assembly may, nevertheless, alter, amend, or repeal any rule of procedure or practice adopted by the Supreme Court for the Superior Court or District Court Divisions.

Sec. 14. Waiver of jury trial.

In all issues of fact joined in any court, the parties in any civil case may waive the right to have the issues determined by a jury, in which case the finding of the judge upon the facts shall have the force and effect of a verdict by a jury.

Sec. 15. Administration.

The General Assembly shall provide for an administrative office of the courts to carry out the provisions of this Article.

Sec. 16. Terms of office and election of Justices of the Supreme Court, Judges of the Court of Appeals, and Judges of the Superior Court.

Justices of the Supreme Court, Judges of the Court of Appeals, and regular Judges of the Superior Court shall be elected by the qualified voters and shall hold office for terms of eight years and until their successors are elected and qualified. Justices of the Supreme Court and Judges of the Court of Appeals shall be elected by the qualified voters of the State. Regular Judges of the Superior Court may be elected by the qualified voters of the State or by the voters of their respective districts, as the General Assembly may prescribe.

Sec. 17. Removal of Judges, Magistrates and Clerks.

(1) Removal of Judges by the General Assembly. Any Justice or Judge of the General Court of Justice may be removed from office for mental or physical incapacity by joint resolution of two-thirds of all the members of each house of the General Assembly. Any Justice or Judge against whom the General Assembly may be about to proceed shall receive notice thereof, accompanied by a copy of the causes alleged for his removal, at least 20 days before the day on which either house of the General Assembly shall act thereon. Removal from office by the General Assembly for any other cause shall be by impeachment.

(2) Additional method of removal of Judges. The General Assembly shall prescribe a procedure, in addition to impeachment and address set forth in this Section, for the removal of a Justice or Judge of the General Court of Justice for mental or physical incapacity interfering with the performance of his duties which is, or is likely to become, permanent, and for the censure and removal of a Justice or Judge of the General Court of Justice for wilful misconduct in office, wilful and persistent failure to perform his duties, habitual intemperance, conviction of a crime involving moral turpitude, or conduct prejudicial to the administration of justice that brings the judicial office into disrepute.

(3) Removal of Magistrates. The General Assembly shall provide by general law for the removal of Magistrates for misconduct or mental or physical incapacity.

(4) Removal of Clerks. Any Clerk of the Superior Court may be removed from office for misconduct or mental or physical incapacity by the senior regular resident Superior Court Judge serving the county. CONSTITUTION OF NORTH CAROLINA

(2) Classification. Only the General Assembly shall have the power to classify property for taxation, which power shall be exercised only on a State-wide basis and shall not be delegated. No class of property shall be taxed except by uniform rule, and every classification shall be made by general law uniformly applicable in every county, city and town, and other unit of local government.

(3) Exemptions. Property belonging to the State, counties, and municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries and property held for educational, scientific, literary, cultural, charitable, or religious purposes, and, to a value not exceeding \$300, any personal property. Every exemption shall be on a State-wide basis and shall be made by general law uniformly applicable in every county, city and town, and other unit of local government. No taxing authority other than the General Assembly may grant exemptions, and the General Assembly shall not delegate the powers accorded to it by this subsection.

(4) Special tax areas. Subject to the limitations imposed by Section 4, the General Assembly may enact general laws authorizing the governing body of any county, city, or town to define territorial areas and to levy taxes within those areas, in addition to those levied throughout the county, city, or town, in order to finance, provide, or maintain services, facilities, and functions in addition to or to a greater extent than those financed, provided, or maintained for the entire county, city, or town.

(5) Purposes of property tax. CONSTITUTION OF NORTH CAROLINA

(2) Gift or loan of credit regulated. The General Assembly shall have no power to give or lend the credit of the State in aid of any person, association, or corporation, except a corporation in which the State has a controlling interest, unless the subject is submitted to a direct vote of the people of the State, and is approved by a majority of the qualified voters who vote thereon.

(5) Outstanding debt. Except as provided in subsection (4), nothing in this Section shall be construed to invalidate or impair the obligation of any bond, note, or other evidence of indebtedness outstanding or authorized for issue as of July 1, 1973.

Sec. 4. Limitations upon the increase of local government debt.

(1) Regulation of borrowing and debt. The General Assembly shall enact general laws relating to the borrowing of money secured by a pledge of the faith and credit and the contracting of other debts by counties, cities and towns, special districts, and other units, authorities, and agencies of local government.

(2) Authorized purposes; two-thirds limitation. The General Assembly shall have no power to authorize any county, city or town, special district, or other unit of local government to contract debts secured by a pledge of its faith and credit unless approved by a majority of the qualified voters of the unit who vote thereon, except for the following purposes:

A pledge of faith and credit within the meaning of this Section is a pledge of the taxing power. A loan of credit within the meaning of this Section occurs when a county, city or town, special district, or other unit, authority, or agency of local government exchanges its obligations with or in any way guarantees the debts of an individual, association, or private corporation.

(6) Outstanding debt. Except as provided in subsection (4), nothing in this Section shall be construed to invalidate or impair the obligation of any bond, note, or other evidence of indebtedness outstanding or authorized for issue as of July 1, 1973.

Sec. 5. Acts levying taxes to state objects.

Every act of the General Assembly levying a tax shall state the special object to which it is to be applied, and it shall be applied to no other purpose.

Sec. 6. Inviolability of sinking funds and retirement funds.

(1) Sinking funds. The General Assembly shall not use or authorize to be used any part of the amount of any sinking fund for any purpose other than the retirement of the bonds for which the sinking fund has been created, except that these funds may be invested as authorized by law.

(2) Retirement funds. Neither the General Assembly nor any public officer, employee, or agency shall use or authorize to be used any part of the funds of the Teachers' and State Employees' Retirement System or the Local Governmental Employees' Retirement System for any purpose other than retirement system benefits and purposes, administrative expenses, and refunds; except that retirement system funds may be invested as authorized by law, subject to the investment limitation that the funds of the Teachers' and State Employees' Retirement System and the Local Governmental Employees' Retirement System shall not be applied, diverted, loaned to, or used by the State, any State agency, State officer, public officer, or public employee.

Sec. 7. Drawing public money.

(2) Local treasury. No money shall be drawn from the treasury of any county, city or town, or other unit of local government except by authority of law.

Sec. 8. Health care facilities.

Notwithstanding any other provisions of this Constitution, the General Assembly may enact general laws to authorize the State, counties, cities or towns, and other State and local governmental entities to issue revenue bonds to finance or refinance for any such governmental entity or any nonprofit private corporation, regardless of any church or religious relationship, the cost of acquiring, constructing, and financing health care facility projects to be operated to serve and benefit the public; provided, no cost

incurred earlier than two years prior to the effective date of this section shall be refinanced. Such bonds shall be payable from the revenues, gross or net, of any such projects and any other health care facilities of any such governmental entity or nonprofit private corporation pledged therefor; shall not be secured by a pledge of the full faith and credit, or deemed to create an indebtedness requiring voter approval of any governmental entity; and may be secured by an agreement which may provide for the conveyance of title of, with or without consideration, any such project or facilities to the governmental entity or nonprofit private corporation. The power of eminent domain shall not be used pursuant hereto for nonprofit private corporations.

Sec. 9. Capital projects for industry.

Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to authorize counties to create authorities to issue revenue bonds to finance, but not to refinance, the cost of capital projects consisting of industrial, manufacturing and pollution control facilities for industry and pollution control facilities for public utilities, and to refund such bonds.

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. All such capital projects and all transactions therefor shall be subject to taxation to the extent such projects and transactions would be subject to taxation if no public body were involved therewith; provided, however, that the General Assembly may provide that the interest on such revenue bonds shall be exempt from income taxes within the State.

The power of eminent domain shall not be exercised to provide any property for any such capital project.

Sec. 10. Joint ownership of generation and transmission facilities.

In addition to other powers conferred upon them by law, municipalities owning or operating facilities for the generation, transmission or distribution of electric power and energy and joint agencies formed by such municipalities for the purpose of owning or operating facilities for the generation and transmission of electric power and energy (each, respectively, "a unit of municipal government") may jointly or severally own, operate and maintain works, plants and facilities, within or without the State, for the generation and transmission of electric power and energy, or both, with any person, firm, association or corporation, public or private, engaged in the generation, transmission or distribution of electric power and energy for resale (each, respectively, "a co-owner") within this State or any state contiguous to this State, and may enter into and carry out agreements with respect to such jointly owned facilities. For the purpose of financing its share of the cost of any such jointly owned electric generation or transmission facilities, a unit of municipal government may issue its revenue bonds in the manner prescribed by the General Assembly, payable as to both principal and interest solely from and secured by a lien and charge on all or any part of the revenue derived, or to be derived, by such unit of municipal government from the ownership and operation of its electric facilities; provided, however, that no unit of municipal government shall be liable, either jointly or severally, for any acts, omissions or obligations of any co-owner, nor shall any money or property of any unit of municipal government be credited or otherwise applied to the account of any co-owner or be charged with any debt, lien or mortgage as a result of any debt or obligation of any co-owner.

Sec. 11. Capital projects for agriculture.

Notwithstanding any other provision of the Constitution the General Assembly may enact general laws to authorize the creation of an agency to issue revenue bonds to finance the cost of capital projects consisting of agricultural facilities, and to refund such bonds.

In no event shall such revenue bonds be secured by or payable from any public moneys whatsoever, but such revenue bonds shall be secured by and payable only from revenues or property derived from private parties. All such capital projects and all transactions therefor shall be subject to taxation to the extent such projects and transactions would be subject to taxation if no public body were involved therewith; provided, however, that the General Assembly may provide that the interest on such revenue bonds shall be exempt from income taxes within the State.

The power of eminent domain shall not be exercised to provide any property for any such capital project.

Sec. 12. Higher education facilities.

Notwithstanding any other provisions of this Constitution, the General Assembly may enact general laws to authorize the State or any State entity to issue revenue bonds to finance and refinance the cost of acquiring, constructing, and financing higher education facilities to be operated to serve and benefit the public for any nonprofit private corporation, regardless of any church or religious relationship provided no cost incurred earlier than five years prior to the effective date of this section shall be refinanced. Such bonds shall be payable from any revenues or assets of any such nonprofit private corporation pledged therefor, shall not be secured by a pledge of the full faith and credit of the State or such State entity or deemed to create an indebtedness requiring voter approval of the State or such entity, and, where the title to such facilities is vested in the State or any State entity, may be secured by an agreement which may provide for the conveyance of title to, with or without consideration, such facilities to the nonprofit private corporation. The power of eminent domain shall not be used pursuant hereto.

Sec. 13. Seaport and airport facilities.

(1) Notwithstanding any other provision of this Constitution, the General Assembly may enact general laws to grant to the State, counties, municipalities, and other State and local governmental entities all powers useful in connection with the development of new and existing seaports and airports, and to authorize such public bodies:

- (a) to acquire, construct, own, own jointly with public and private parties, lease as lessee, mortgage, sell, lease as lessor, or otherwise dispose of lands and facilities and improvements, including undivided interest therein;
- (b) to finance and refinance for public and private parties seaport and airport facilities and improvements which relate to, develop or further waterborne or airborne commerce and cargo and passenger traffic, including commercial, industrial, manufacturing, processing, mining, transportation, distribution, storage, marine, aviation and environmental facilities and improvements; and

- (c) to secure any such financing or refinancing by all or any portion of their revenues, income or assets or other available monies associated with any of their seaport or airport facilities and with the facilities and improvements to be financed or refinanced, and by foreclosable liens on all or any part of their properties associated with any of their seaport or airport facilities and with the facilities and improvements to be financed or refinanced, but in no event to create a debt secured by a pledge of the faith and credit of the State or any other public body in the State.

Sec. 14. Project development financing.

Notwithstanding Section 4 of this Article, the General Assembly may enact general laws authorizing any county, city, or town to define territorial areas in the county, city, or town and borrow money to be used to finance public improvements associated with private development projects within the territorial areas, as provided in this section. The General Assembly shall set forth by statute the method for determining the size of the territorial area and the issuing unit. This method is conclusive. When a territorial area is defined pursuant to this section, the county shall determine the current assessed value of taxable real and personal property in the territorial area. Thereafter, property in the territorial area continues to be subject to taxation to the same extent and in like manner as property not in the territorial area, but the net proceeds of taxes levied on the excess, if any, of the assessed value of taxable real and personal property in the territorial area at the time the taxes are levied over the assessed value of taxable real and personal property in the territorial area at the time the territorial area was defined may be set aside. The instruments of indebtedness authorized by this section shall be secured by these set-aside proceeds. The General Assembly may authorize a county, city, or town issuing these instruments of indebtedness to pledge, as additional security, revenues available to the issuing unit from sources other than the issuing unit's exercise of its taxing power. As long as no revenues are pledged other than the set-aside proceeds authorized by this section and the revenues authorized in the preceding sentence, these instruments of indebtedness may be issued without approval by referendum. The county, city, or town may not pledge as security for these instruments of indebtedness any property tax revenues other than the set-aside proceeds authorized in this section, or in any other manner pledge its full faith and credit as security for these instruments of indebtedness unless a vote of the people is held as required by and in compliance with the requirements of Section 4 of this Article.

Notwithstanding the provisions of Section 2 of this Article, the General Assembly may enact general laws authorizing a county, city, or town that has defined a territorial area pursuant to this section to assess property within the territorial area at a minimum value if agreed to by the owner of the property, which agreed minimum value shall be binding on the current owner and any future owners as long as the defined territorial area is in effect.

Every person born in the United States and every person who has been naturalized, 18 years of age, and possessing the qualifications set out in this Article, shall be entitled to vote at any election by the people of the State, except as herein otherwise provided.

(2) Residence period for presidential elections. The General Assembly may reduce the time of residence for persons voting in presidential elections. A person made eligible by reason of a reduction in time of residence shall possess the other qualifications set out in this Article, shall only be entitled to vote for President and Vice President of the United States or for electors for President and Vice President, and shall not thereby become eligible to hold office in this State.

(3) Disqualification of felon. No person adjudged guilty of a felony against this State or the United States, or adjudged guilty of a felony in another state that also would be a felony if it had been committed in this State, shall be permitted to vote unless that person shall be first restored to the rights of citizenship in the manner prescribed by law.

Sec. 7. Oath.

Before entering upon the duties of an office, a person elected or appointed to the office shall take and subscribe the following oath:

CONSTITUTION OF NORTH CAROLINA

"I, _____, do solemnly swear (or affirm) that I will support and maintain the Constitution and laws of the United States, and the Constitution and laws of North Carolina not inconsistent therewith, and that I will faithfully discharge the duties of my office as _____, so help me God."

Sec. 9. Dual office holding.

(1) Prohibitions. It is salutary that the responsibilities of self-government be widely shared among the citizens of the State and that the potential abuse of authority inherent in the holding of multiple offices by an individual be avoided. Therefore, no person who holds any office or place of trust or profit under the United States or any department thereof, or under any other state or government, shall be eligible to hold any office in this State that is filled by election by the people. No person shall hold concurrently any two offices in this State that are filled by election of the people. No person shall hold concurrently any two or more appointive offices or places of trust or profit, or any combination of elective and appointive offices or places of trust or profit, except as the General Assembly shall provide by general law.

(2) Exceptions. The provisions of this Section shall not prohibit any officer of the military forces of the State or of the United States not on active duty for an extensive period of time, any notary public, or any delegate to a Convention of the People from holding concurrently another office or place of trust or profit under this State or the United States or any department thereof.

Sec. 10. Continuation in office.

In the absence of any contrary provision, all officers in this State, whether appointed or elected, shall hold their positions until other appointments are made or, if the offices are elective, until their successors are chosen and qualified.

ARTICLE VII LOCAL GOVERNMENT

Section 1. General Assembly to provide for local government.

The General Assembly shall provide for the organization and government and the fixing of boundaries of counties, cities and towns, and other governmental subdivisions, and, except as otherwise prohibited by this Constitution, may give such powers and duties to counties, cities and towns, and other governmental subdivisions as it may deem advisable.

CONSTITUTION OF NORTH CAROLINA

Sec. 3. Merged or consolidated counties.

Any unit of local government formed by the merger or consolidation of a county or counties and the cities and towns therein shall be deemed both a county and a city for the purposes of this Constitution, and may exercise any authority conferred by law on counties, or on cities and towns, or both, as the General Assembly may provide.

(b) In addition to complying with the duty of loyalty imposed by law other than this Chapter, each person responsible for managing and investing an institutional fund shall manage and invest the fund in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances.

(c) In managing and investing an institutional fund, an institution:

- (1) May incur only costs that are appropriate and reasonable in relation to the assets, the purposes of the institution, and the skills available to the institution; and
- (2) Shall make a reasonable effort to verify facts relevant to the management and investment of the fund.

(d) An institution may pool two or more institutional funds for purposes of management and investment.

(e) Except as otherwise provided by a gift instrument, the following rules apply:

property or to rebalance a portfolio in order to bring the institutional fund into compliance with the purposes, terms, and distribution requirements of the institution as necessary to meet other circumstances of the institution and the requirements of this Chapter.

"§ 36E-4. Appropriation for expenditure or accumulation of endowment fund; rules of construction.

(a) Subject to the intent of a donor expressed in the gift instrument, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. Unless stated otherwise in the gift instrument, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. In making a determination to appropriate or accumulate, the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, and shall consider, if relevant, the following factors:

- (1) The duration and preservation of the endowment fund;
- (2) The purposes of the institution and the endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation or deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the institution; and

State in all proceedings arising from or related to the delegation or the performance of the delegated function.

(e) An institution may delegate management and investment functions to its committees, officers, or employees as authorized by law of this State other than this Chapter.

"§ 36E-6. Release or modification of restrictions on management, investment, or purpose.

(a) If the donor consents in a record, an institution may release or modify, in whole or in part, a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund. A release or modification may not allow a fund to be used for a purpose other than a charitable purpose of the institution.

(b) The superior court, upon application of an institution, may modify a restriction contained in a gift instrument regarding the management or investment of an institutional fund if the restriction has become impracticable or wasteful, if it impairs the management or investment of the fund, or if, because of circumstances not anticipated by the donor, a modification of the restriction will further the purposes of the fund. The institution shall notify the Attorney General of the application, and the Attorney General must be given an opportunity to be heard. To the extent practicable, any modification must be made in accordance with the donor's probable intention.

(c) If a particular charitable purpose or restriction contained in a gift instrument on the use of an institutional fund becomes unlawful, impracticable, impossible to achieve, or wasteful, the superior court, upon application of an institution, may modify the purpose of the fund or the restriction on the use of the fund in a manner consistent with the charitable purposes expressed in the gift instrument. The institution shall notify the Attorney General of the application, and the Attorney General must be given an opportunity to be heard.

(d) If an institution determines that a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund is unlawful, impracticable, impossible to achieve, or wasteful, the institution may release or modify the restriction, in whole or part, if:

- (1) The institutional fund subject to the restriction has a total value of less than one hundred thousand dollars (\$100,000);
- (2) More than 10 years have elapsed since the fund was established; and
- (3) The institution uses the property in a manner consistent with the charitable purposes expressed in the gift instrument.

The institution must provide written notice of the proposed release or modification of the restriction to the Attorney General not less than 60 days before releasing or modifying the restriction. The Attorney General may make application to the superior court to contest the institution's determination that the restriction should be released or modified within 60 days of receipt of the institution's written notice.

"§ 36E-7. Reviewing compliance.

Compliance with this Chapter is determined in light of the facts and circumstances existing at the time a decision is made or action is taken, and not by hindsight.

"§ 36E-8. Application to existing institutional funds.

This Chapter applies to institutional funds existing on or established after the effective date of this act. As applied to institutional funds existing on the effective date of this act, this Chapter governs only decisions made or actions taken on or after that date.

"§ 36E-9. Relation to Electronic Signatures in Global and National Commerce Act.

S.B. 287

AN ACT TO APPROPRIATE FUNDS FOR THE STATE HEALTH PLAN FOR TEACHERS AND STATE EMPLOYEES AND TO MAKE OTHER CHANGES RELATED TO THE STATE HEALTH PLAN.

Whereas, the General Assembly must act quickly and prudently to maintain a financially stable State Health Plan to ensure that all members of the Plan have affordable access to medically necessary health benefits and services within available resources; and

Whereas, in order to meet current fiscal obligations, the General Assembly must appropriate \$250,000,000 for the 2008-2009 fiscal year to cover the current year shortfall in funds; and

Whereas, estimates indicate that a substantially larger appropriation will be necessary to maintain the fiscal integrity of the Plan in the next and ensuing fiscal periods; and

Whereas, in order to ensure continued access to medically necessary health care to Plan members, the Plan must implement measures to contain costs through premium increases, benefit changes, and healthy lifestyle programs that not only reduce costs but improve member health; and

Whereas, the Plan estimates that over 70,000 Plan members use tobacco, resulting in a cost to the Plan of \$2,000 per member per year more than the cost of providing coverage for nonusers of tobacco; and

Whereas, cessation of tobacco use has been demonstrated to result in improved member health and substantial savings in health care costs making it fiscally prudent to

implement smoking cessation incentives and initiatives with mechanisms to verify member compliance with smoking cessation requirements; and

Whereas, over 60% of North Carolina adults are obese or overweight; and

Whereas, obesity is linked to an over 37% increase in health care spending at a cost of \$2,445 per member per year; and

Whereas, weight management and cessation of tobacco use have been demonstrated to result in improved member health and substantial savings in health care costs making it fiscally prudent to implement smoking cessation and weight management incentives and initiatives with mechanisms to verify member compliance with smoking cessation and weight management requirements; Now, therefore,

H.B. 63

AN ACT TO MODIFY THE OPTIONS FOR DISTRIBUTION OF THE LOCAL SALES TAXES IN ONSLOW COUNTY.

The General Assembly of North Carolina enacts:

SECTION 1. This act applies to Onslow County only.

SECTION 2. G.S. 105-472(b) reads as rewritten:

"(b) **Distribution Between Counties and Cities.** – The Secretary shall divide the amount allocated to each taxing county among the county and its municipalities in accordance with the method determined by the county. The board of county commissioners shall, by resolution, choose one of the following methods of distribution:

- (1) **Per Capita Method.** – The net proceeds of the tax collected in a taxing county shall be distributed to that county and to the municipalities in the county on a per capita basis according to the total population of the taxing county, plus the total population of the municipalities in the county. In the case of a municipality located in more than one county, only that part of its population living in the taxing county is considered its "total population". In order to make the distribution, the Secretary shall determine a per capita figure by dividing the amount allocated to each taxing county by the total population of that county plus the total population of all municipalities in the county. The Secretary shall then multiply this per capita figure by the population of the taxing county and by the population of each municipality in the county; each respective product shall be the amount to be distributed to the county and to each municipality in the county. To determine the population of each county and each municipality, the Secretary shall use the most recent annual estimate of population certified by the State Budget Officer.
- (2) **Ad Valorem Method.** – The net proceeds of the tax collected in a taxing county shall be distributed to that county and the municipalities in the county in proportion to the total amount of ad valorem taxes levied by each on property having a tax situs in the taxing county during the fiscal year next preceding the distribution. For purposes of this section, the amount of the ad valorem taxes levied by a county or municipality includes ad valorem taxes levied by the county or municipality in behalf of a taxing district and collected by the county or municipality. In addition, the amount of taxes levied by a county includes ad valorem taxes levied by a merged school administrative unit described in G.S. 115C-513 in the part of the unit located in the county. In computing the amount of tax proceeds to be distributed to each county and municipality, the amount of any ad valorem taxes levied but not substantially collected shall be ignored. Each county and municipality receiving a distribution of the proceeds of the tax levied under this Article shall in turn immediately share the proceeds with each district in behalf of which the county or municipality levied ad valorem taxes in the proportion that the district levy bears to the total levy of the county or municipality. Any county or municipality that fails to provide the Department of Revenue with information concerning ad valorem taxes levied by it adequate to permit a timely determination of its appropriate share of tax proceeds collected under this Article may be excluded by the Secretary from each monthly distribution with respect to which the information was not provided in a timely manner, and those tax proceeds shall then be distributed only to the remaining counties or municipalities, as appropriate. For the purpose of computing the distribution of the tax under this subsection to any county and

the municipalities located in the county for any month with respect to which the property valuation of a public service company is the subject of an appeal and the Department of Revenue is restrained by law from certifying the valuation to the county and the municipalities in the county, the Department shall use the last property valuation of the public service company that has been certified.

- (3) Combined Method. – The net proceeds of the tax collected in a taxing county shall be distributed to that county and to the municipalities in the county by using both the per capita and the ad valorem methods with neither method being used to distribute less than forty percent (40%) of the net proceeds of the tax.

The board of county commissioners in each taxing county shall, by resolution adopted during the month of April of each year, determine which of the ~~two~~ foregoing methods of distribution shall be in effect in the county during the next succeeding fiscal ~~year-year~~, including the percentage of each method to be used to distribute the net proceeds of the tax if the combined method is chosen. In order for the resolution to be effective, a certified copy of it must be delivered to the Secretary in Raleigh within 15 calendar days after its adoption. If the board fails to adopt a resolution choosing a method of distribution not then in effect in the county, or if a certified copy of the resolution is not timely delivered to the Secretary, the method of distribution then in effect in the county shall continue in effect for the following fiscal year. The method of distribution in effect on the first of July of each fiscal ~~year-year~~, and the percentage of each method if the combined method is chosen, shall apply to every distribution made during that fiscal year."

SECTION 3. This act is effective when it becomes law.

SECTION 2. This act is effective when it becomes law. A municipality may adopt an ordinance under G.S. 160A-200 when this act becomes law, but the ordinances may not become effective prior to October 1, 2009. The repeal herein of any local act does not affect the

rights or liabilities of a municipality that arose during the time the act was in effect, or under an ordinance adopted under such an act. AN ACT TO MAKE THE EFFECT OF EXECUTIVE ORDER NUMBER ELEVEN APPLICABLE TO THE LEGISLATIVE AND JUDICIAL BRANCHES AND TO PROTECT STATE EMPLOYEES UNDER THAT ORDER.

The General Assembly of North Carolina enacts:

SECTION 1.(a) Findings. – The General Assembly finds that:

- (1) North Carolina's citizens and businesses are suffering from the effects of a significant national financial crisis.
- (2) The financial crisis has resulted in large reductions in revenues projected to be available to fund the State's budget for the 2008-2009 fiscal year.
- (3) The Department of Revenue has calculated the revenues that will be available to the State for the remainder of the 2008-2009 fiscal year from the taxes paid by citizens and businesses through April 15, 2009, and the Department of Revenue and the Office of State Budget and Management have determined that expenditures for the 2008-2009 fiscal year will exceed revenues unless additional actions are taken.
- (4) Under the State Constitution, it is the duty of the Governor to ensure that the State's budget for the 2008-2009 fiscal year is balanced in a manner that carefully balances the rights of citizens and businesses to government services and the interests of State employees who provide those services.
- (5) The Governor has issued Executive Order No. 11 reducing pay and compensating employees with flexible leave.
- (6) The implementation of temporary nondisciplinary reductions in pay and flexible leave was and is necessary to balance the State's budget for the 2008-2009 fiscal year.
- (7) Many legislators and judges have voluntarily waived a portion of their pay in advance of the passage of legislation implementing Executive Order No. 11.

SECTION 1.(b) Definitions. – The following definitions apply in this act:

S.B. 381

AN ACT ESTABLISHING A DOMESTIC VIOLENCE FATALITY PREVENTION AND PROTECTION REVIEW TEAM.

Whereas, the General Assembly finds that it is the public policy of this State to prevent domestic violence fatalities; and

Whereas, the General Assembly further finds that the prevention of these fatalities is a community responsibility, and professionals from disparate disciplines have expertise that can promote the safety and well-being of victims of domestic violence; and

Whereas, multidisciplinary reviews of these deaths can lead to a greater understanding of the causes and methods of preventing these deaths; and

Whereas, according to the North Carolina Coalition Against Domestic Violence, there were 81 domestic violence-related homicides in the State in 2008; and

Whereas, according to the Charlotte Mecklenburg Police Department, there were 11 domestic violence-related homicides in Charlotte, North Carolina, in 2008; and

Whereas, the Charlotte Mecklenburg area is a leader throughout the State with its innovative domestic violence programming and services, yet there remains a disconnect when it comes to the rate of domestic violence-related homicides; and

Whereas, there is a need to increase safety of citizens with one strategy mitigating the effect of abuse by increasing the safety of victims of domestic violence, exploring circumstances from a strengths perspective to allow professionals to gain clarity in the continued needs of the community; and

Whereas, precedence has been established in this area as similar statutes are already in existence, such as the North Carolina Child Fatality Prevention System, which outlines the course of action for a statewide disciplinary team to review child fatalities; and

Whereas, establishing a Domestic Violence Fatality Prevention and Protection Review Team will be modeled after the North Carolina Child Fatality Prevention Team, with potential members representing a cross section of community service providers, including

health, mental health, social services, law enforcement, courts, school professionals, and other domestic violence service providers; and

Whereas, by creating legislation that protects professionals from confidentiality violations in specific cases where domestic violence-related homicides have occurred, the effectiveness of this project will be increased; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1.(a) Domestic Violence Fatality Prevention and Protection Review Team. – A county may establish a multidisciplinary Domestic Violence Fatality Prevention and Protection Review Team to identify and review domestic violence-related deaths, including homicides and suicides, and facilitate communication among the various agencies and organizations involved in domestic violence cases to prevent future fatalities.

SECTION 1.(a) G.S. 135-18.7(d) reads as rewritten:

"(d) This subsection applies to distributions made on or after January 1, 1993. Notwithstanding any other provision of the Plan to the contrary that would otherwise limit a distributee's election under this Article, a distributee may elect, at the time and in the manner

prescribed by the Plan administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. Provided, an eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more; any distribution to the extent such distribution is required under section 401(a)(9) of the Code; and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net realized appreciation with respect to employer securities). Effective as of January 1, 2002, and notwithstanding the preceding sentence, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in Section 408(a) or (b) of the Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible. Provided, an eligible retirement plan is an individual retirement account described in section 408(a) of the Code, an individual retirement annuity described in section 408(b) of the Code, an annuity plan described in section 403(a) of the Code, or a qualified trust described in section 401(a) of the Code, that accepts the distributee's eligible rollover distribution. Effective on and after January 1, 2002, an eligible retirement plan shall also mean an annuity contract described in Section 403(b) of the Code and an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan shall also apply in the case of a distribution to surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code, or a court-ordered equitable distribution of marital property, as provided under G.S. 50-30. Provided, a distributee includes an employee or former employee. Provided further, a direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee. Effective on and after January 1, 2007, notwithstanding any other provision of this subsection, a nonspouse beneficiary of a deceased member may elect, at the time and in the manner prescribed by the administrator of the Board of Trustees of this Retirement System, to directly roll over any portion of the beneficiary's distribution from the Retirement System; however, such rollover shall conform with the provisions of section 402(c)(11) of the Code."

SECTION 4.(b) G.S. 135-10.1 reads as rewritten:

SECTION 5.(a) G.S. 135-5(g) reads as rewritten:

"(g) Election of Optional Allowance. – With the provision that until the first payment on account of any benefit becomes normally due, or his first retirement check has been cashed, any member may elect to receive his benefits in a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent of such retirement allowance, including any special retirement allowance, in a reduced allowance payable throughout life under the provisions of one of the options set forth below. The election of Option 2 or Option 3 or nomination of the person thereunder shall be revoked if such person nominated dies prior to the date the first payment becomes normally due or until the first retirement check has been cashed. Such election may be revoked by the member prior to the date the first payment becomes normally due or until his first retirement check has been cashed. Provided, however, in the event a member has elected Option 2 or Option 3 and nominated his or her spouse to receive a retirement allowance upon the member's death, and the spouse predeceases the member after the first payment becomes normally due or the first retirement check has been cashed, if the member remarries he or she may request to nominate a new spouse to receive the retirement allowance under the previously elected option, within 90 days of the remarriage, and may nominate a new spouse to receive the retirement allowance under the previously elected option by written designation duly acknowledged and filed with the Board of Trustees within 120 days of the remarriage. The new nomination shall be effective on the first day of the month in which it is made and shall provide for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new nomination. Any member having elected Options 2, 3, or 6 and nominated his or her spouse to receive a retirement allowance upon the member's death may, after divorce from his or her spouse, revoke the nomination and elect a new option, effective on the first day of the month in which the new option is elected, providing for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new option.

Option 1.(a) In the Case of a Member Who Retires prior to July 1, 1963. – If he dies before he has received in annuity payments the present value of his annuity as it was at the time of his retirement, the balance shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees.

- (b) In the Case of a Member Who Retires on or after July 1, 1963, but prior to July 1, 1993. – If he dies within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less 1/120 thereof for each month for which he has received a retirement allowance payment, shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees; or

Option 2. Upon his death his reduced retirement allowance shall be continued throughout the life of and paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement, provided that if the person selected is other than his spouse the reduced retirement allowance payable to the member shall not be less than one half of the retirement allowance without optional modification which would otherwise be payable to him; or

Option 3. Upon his death, one half of his reduced retirement allowance shall be continued throughout the life of, and paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement; or

Option 4. Option 5. For Members Retiring Prior to July 1, 1993. – The member may elect to receive a reduced retirement allowance under the conditions of Option 2 or Option 3, as provided for above, with the modification that if both he and the person nominated die within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less 1/120 thereof for each month for which a retirement allowance has been paid, shall be paid to his legal representatives or to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees.

Option 6. A member may elect either Option 2 or Option 3 with the added provision that in the event the designated beneficiary predeceases the member, the retirement allowance payable to the member after the designated beneficiary's death shall be equal to the retirement allowance which would have been payable had the member not elected the option.

Upon the death of a member after the effective date of a retirement for which the member has been approved and following receipt by the Board of Trustees of an election of benefits but prior to the cashing of the first benefit check, the retirement benefit shall be payable as provided by the member's election of benefits under this subsection.

Upon the death of a member after the effective date of a retirement for which the member has been approved but prior to the receipt by the Board of Trustees of an election of benefits (Form 6-E or Form 7-E), properly acknowledged and filed by the member, the member's designated beneficiary for a return of accumulated contributions may elect to receive the benefit, if only one beneficiary is named for the return of accumulated contributions. If more than one beneficiary is named for the return of accumulated contributions, the administrator or executor of the member's estate will select an option and name the beneficiary or beneficiaries."

SECTION 5.(b) G.S. 135-5(g1) reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. For purposes of this paragraph, the term

"accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 135-4, there shall be paid to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate."

SECTION 5.(c) G.S. 135-5(m) reads as rewritten:

"(m) Survivor's Alternate Benefit. – Upon the death of a member in service, the principal beneficiary designated to receive a return of accumulated contributions shall have the right to elect to receive in lieu thereof the reduced retirement allowance provided by Option 2 of

subsection (g) above computed by assuming that the member had retired on the first day of the month following the date of his death, provided that the following conditions apply:

- (1)
 - a. The member had attained such age and/or creditable service to be eligible to commence retirement with an early or service retirement allowance,
 - b. The member had obtained 20 years of creditable service in which case the retirement allowance shall be computed in accordance with G.S. 135-5(b19)(1)b. or G.S. 135-5(b19)(2)c., notwithstanding the requirement of obtaining age 50, or
 - c. The member had not commenced to receive a retirement allowance as provided under this Chapter.
- (2) The member had designated as the principal beneficiary to receive a return of his accumulated contributions one and only one person who was living at the time of his death.
- (3) The member had not instructed the Board of Trustees in writing that he did not wish the provisions of this subsection to apply.

For the purpose of this benefit, a member is considered to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service. The last day of actual service shall be determined as provided in subsection (l) of this section. Upon the death of a member in service, the surviving spouse may make all purchases for creditable service as provided for under this Chapter for which the member had made application in writing prior to the date of death, provided that the date of death occurred prior to or within 60 days after notification of the cost to make the purchase. The term "in service" as used in this subsection includes a member in receipt of a benefit under the Disability Income Plan as provided in Article 6 of this Chapter.

Notwithstanding the foregoing, a member who is in receipt of Workers' Compensation during the period for which the member would have otherwise been eligible to receive short-term benefits, as provided in G.S. 135-105, and who dies on or after 181 days from the last day of the member's actual service but on or before the date the benefits as provided in G.S. 135-105 would have ended, shall be considered in service at the time of the member's death for the purpose of this benefit.

For the purpose of calculating this benefit, any terminal payouts made after the date of death that meet the definition of compensation shall be credited to the month prior to the month of death. These terminal payouts do not include salary or wages paid for work performed during the month of death."

SECTION 5.(d) G.S. 128-27(g) reads as rewritten:

"(g) Election of Optional Allowance. – With the provision that until the first payment on account of any benefit becomes normally due, or his first retirement check has been cashed, any member may elect to receive his benefits in a retirement allowance payable throughout life, or he may elect to receive the actuarial equivalent of such retirement allowance, including any special retirement allowance, in a reduced allowance payable throughout life under the provisions of one of the Options set forth below. The election of Option two or Option three or nomination of the person thereunder shall be revoked if such person nominated dies prior to the date the first payment becomes normally due or the first retirement check has been cashed. Such election may be revoked by the member prior to the date the first payment becomes normally due or his first retirement check has been cashed. Provided, however, in the event a member has elected Option 2 or Option 3 and nominated his or her spouse to receive a retirement allowance upon the member's death, and the spouse predeceases the member after the first payment becomes normally due or the first retirement check has been cashed, if the member remarries he or she may request to nominate a new spouse to receive the retirement allowance under the previously elected option, within 90 days of the remarriage, and may nominate a new spouse to receive the retirement allowance under the previously elected option by written designation duly acknowledged and filed with the Board of Trustees within 120 days

of the remarriage. The new nomination shall be effective on the first day of the month in which it is made and shall provide for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new nomination. Any member having elected Options two, three, or six and nominated his or her spouse to receive a retirement allowance upon the member's death may, after divorce from his or her spouse, revoke the nomination and elect a new option, effective on the first day of the month in which the new option is elected, providing for a retirement allowance computed to be the actuarial equivalent of the retirement allowance in effect immediately prior to the effective date of the new option.

Option one.

- (a) In the Case of a Member Who Retires prior to July 1, 1965. – If he dies before he has received in annuity payments the present value of his annuity as it was at the time of his retirement, the balance shall be paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees or, if none, to his legal representative.
- (b) In the Case of a Member Who Retires on or after July 1, 1965, but prior to July 1, 1993. – If he dies within 10 years from his retirement date, an amount equal to his accumulated contributions at retirement, less one one-hundred-twentieth thereof for each month for which he has received a retirement allowance payment, shall be paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees or, if none, to his legal representative; or

Option two. Upon his death his reduced retirement allowance shall be continued throughout the life of and paid to such person as he shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his retirement, provided that if the person selected is other than his spouse the reduced retirement allowance payable to the member shall not be less than one half of the retirement allowance without optional modification which would otherwise be payable to him; or

Option six. A member may elect either Option two or Option three with the added provision that in the event the designated beneficiary predeceases the member, the retirement allowance payable to the member after the designated beneficiary's death shall be equal to the retirement allowance which would have been payable had the member not elected the option.

Upon the death of a member after the effective date of a retirement for which the member has been approved and following receipt by the Board of Trustees of an election of benefits but

prior to the cashing of the first benefit check, the retirement benefit shall be payable as provided by the member's election of benefits under this subsection.

Upon the death of a member after the effective date of a retirement for which the member has been approved but prior to the receipt by the Board of Trustees of an election of benefits (Form 6-E or Form 7-E), properly acknowledged and filed by the member, the member's designated beneficiary for a return of accumulated contributions may elect to receive the benefit, if only one beneficiary is named for the return of accumulated contributions. For the purpose of this benefit, a member is considered to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service. The last day of actual service shall be determined as provided in subsection (l) of this section. Upon the death of a member in service, the surviving spouse may make all purchases for creditable service as provided for under this Chapter for which the member had made application in writing prior to the date of death, provided that the date of death occurred prior to or within 60 days after notification of the cost to make the purchase.

For the purpose of calculating this benefit, any terminal payouts made after the date of death that meet the definition of compensation shall be credited to the month prior to the month of death. SECTION 6.(a) G.S. 135-5(l) reads as rewritten:

"(l) Death Benefit Plan. – There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he shall have nominated by written designation duly acknowledged and filed with the Board of

- (2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;
- (3), (4) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2.

subject to a minimum of twenty-five thousand dollars (\$25,000) and to a maximum of fifty thousand dollars (\$50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection (l) shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

- (1) After December 31, 1968 and after he has attained age 70; or
- (2) After December 31, 1969 and after he has attained age 69; or
- (3) After December 31, 1970 and after he has attained age 68; or
- (4) After December 31, 1971 and after he has attained age 67; or
- (5) After December 31, 1972 and after he has attained age 66; or

- (7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

- (1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.
- (2) Last day of actual service shall be:

 - c. When a participant's employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, and the participant does not return immediately after that service to employment with a covered employer in this System, the date on which the participant was first eligible to be separated or released from his or her involuntary military service.
- (3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).
 - (4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars (\$25,000) nor to exceed fifty thousand dollars (\$50,000).

SECTION 6.(b) G.S. 128-27(l) reads as rewritten:

"(l) Death Benefit Plan. – The provisions of this subsection shall become effective for any employer only after an agreement to that effect has been executed by the employer and the Director of the Retirement System. There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is

separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he shall have nominated by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit. Such death benefit shall be equal to the greater of:

- (1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or
- (2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;
- (3) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2;

subject to a minimum of twenty-five thousand dollars (\$25,000) and a maximum of fifty thousand dollars (\$50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

- (1) After June 30, 1969 and after he has attained age 70; or
- (2) After December 31, 1969 and after he has attained age 69; or
- (3) After December 31, 1970 and after he has attained age 68; or
- (4) After December 31, 1971 and after he has attained age 67; or
- (5) After December 31, 1972 and after he has attained age 66; or

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained age 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

- (1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months. For all other

- purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.
- (2) Last day of actual service shall be:
 - a. When employment has been terminated, the last day the member actually worked.

 - (3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 128-26(g).
 - (4) A member on leave of absence from his position as a local governmental employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit, if applicable. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a local governmental employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars (\$25,000) nor to exceed fifty thousand dollars (\$50,000).

The provisions of the Retirement System pertaining to administration, G.S. 128-28, and management of funds, G.S. 128-29, are hereby made applicable to the Plan."

"(b2) Retroactive Adjustment in Compensation or an Underreporting of Compensation. – A member or beneficiary who is awarded backpay in cases of a denied promotional opportunity

in which the aggrieved member or beneficiary is granted a promotion retroactively, or in cases in which an employer errs in the reporting of compensation, including the employee and employer contributions, the member or beneficiary and employer may make employee and employer contributions on the retroactive or additional compensation, after submitting clear and convincing evidence of the retroactive promotion or underreporting of compensation, as follows:

- (1) Within 90 days of the denial of the promotion or the error in reporting, by the payment of employee and employer contributions that would have been paid; or
- (2) After 90 days of the denial of the promotion or the error in reporting, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

For members or beneficiaries electing to make the employee contributions on the retroactive adjustment in compensation or on the underreported compensation, the member's or beneficiary's employer, which granted the retroactive promotion or erred in underreporting compensation and contributions, shall make the required employer contributions. Nothing contained in this subsection shall prevent an employer from paying all or a part of the interest assessed on the employee contributions; and to the extent paid by the employer, the interest paid by the employer shall be credited to the pension accumulation fund; provided, however, an employer does not discriminate against any member or beneficiary or group of members or beneficiaries in his employ in paying all or any part of the interest assessed on the employee contributions due.

In the event the retroactive adjustment in compensation or the underreported compensation is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) the compensation the member or beneficiary would have received during the period shall be included in calculating the member's or beneficiary's average final compensation only in the event the appropriate employee and employer contributions are paid on such compensation.

An employer error in underreporting compensation shall not include a retroactive increase in compensation that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5) for reasons other than a wrongfully denied promotional opportunity where the member is promoted retroactively."

SECTION 7.(b) G.S. 128-30(b2) reads as rewritten:

"(b2) Retroactive Adjustment in Compensation or an Underreporting of Compensation. – A member or beneficiary who is awarded backpay in cases of a denied promotional opportunity in which the aggrieved member or beneficiary is granted a promotion retroactively, or in cases in which an employer errs in the reporting of compensation, including the employee and employer contributions, the member or beneficiary and employer may make employee and employer contributions on the retroactive or additional compensation after submitting clear and convincing evidence of the retroactive promotion or underreporting of compensation, as follows:

- (1) Within 90 days of the denial of the promotion or the error in reporting, by the payment of employee and employer contributions that would have been paid; or
- (2) After 90 days of the denial of the promotion or the error in reporting, by the payment of the employee and employer contributions that would have been paid plus interest compounded annually at a rate equal to the greater of the average yield on the pension accumulation fund for the preceding calendar

year or the actuarial investment rate-of-return assumption, as adopted by the Board of Trustees.

For members or beneficiaries electing to make the employee contributions on the retroactive adjustment in compensation or on the underreported compensation, the member's or beneficiary's employer, which granted the retroactive promotion or erred in underreporting compensation and contributions, shall make the required employer contributions. Nothing contained in this subsection shall prevent an employer from paying all or a part of the interest assessed on the employee contributions; and to the extent paid by the employer, the interest paid by the employer shall be credited to the pension accumulation fund; provided, however, an employer does not discriminate against any member or beneficiary or group of members or beneficiaries in his employ in paying all or any part of the interest assessed on the employee contributions due.

In the event the retroactive adjustment in compensation or the underreported compensation is for a period that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5), the compensation the member or beneficiary would have received during the period shall be included in calculating the member's or beneficiary's average final compensation only in the event the appropriate employee and employer contributions are paid on such compensation.

An employer error in underreporting compensation shall not include a retroactive increase in compensation that occurs during the four consecutive calendar years that would have produced the highest average annual compensation pursuant to G.S. 135-1(5), for reasons other than a wrongfully denied promotional opportunity where the member is promoted retroactively."

SECTION 8.(a) G.S. 135-3(8) is amended by adding a new sub-subdivision to read:

"c1. Within 90 days of the end of each month in which a beneficiary is reemployed under the provisions of sub-subdivision c. of this subdivision, each employer shall provide a report for that month on each reemployed beneficiary, including the terms of the reemployment, the date of the reemployment, and the amount of the monthly compensation. If such a report is not received within the required 90 days, the Board shall assess the employer with a penalty of ten percent (10%) of the compensation of the unreported reemployed beneficiaries during the months for which the employer did not report the reemployed beneficiaries, with a minimum penalty of twenty-five dollars (\$25.00)."

SECTION 8.(b) G.S. 128-24(5) is amended by adding a new sub-subdivision to read:

"c1. Within 90 days of the end of each month in which a beneficiary is reemployed under the provisions of sub-subdivision c. of this subdivision, each employer shall provide a report for that month on each reemployed beneficiary, including the terms of the reemployment, the date of the reemployment, and the amount of the monthly compensation. If such a report is not received within the required 90 days, the Board shall assess the employer with a penalty of ten percent (10%) of the compensation of the unreported reemployed beneficiaries during the months for which the employer did not report the reemployed beneficiaries, with a minimum penalty of twenty-five dollars (\$25.00)."

SECTION 9. G.S. 135-5(c), amended by Section 3(d) of this act, reads as rewritten:

"(c) Disability Retirement Benefits of Members Leaving Service Prior to January 1, 1988. – The provisions of this subsection shall not be applicable to members in service on or

after January 1, 1988. Upon the application of a member or of his employer, any member who has had five or more years of creditable service may be retired by the Board of Trustees, on the first day of any calendar month, not less than one day nor more than 120 days next following the date of filing such application, on a disability retirement allowance: Provided, that the medical board, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity was incurred at the time of active employment and has been continuous thereafter, that such incapacity is likely to be permanent, and that such member should be retired; Provided further the medical board shall determine if the member is able to engage in gainful employment and, if so, the member may still be retired and the disability retirement allowance as a result thereof shall be reduced as in subsection (e) below. Provided further, that the medical board shall not certify any member as disabled who:

- (1) Applies for disability retirement based upon a mental or physical incapacity which existed when the member first established membership in the system; or
- (2) Is in receipt of any payments on account of the same disability which existed when the member first established membership in the system.

The Board of Trustees shall require each employee upon enrolling in the retirement system to provide information on the membership application concerning any mental or physical incapacities existing at the time the member enrolls.

Supplemental disability benefits heretofore provided are hereby made a permanent part of disability benefits after age 65, and shall not be discontinued at age 65.

Notwithstanding the requirement of five or more years of creditable service to the contrary, a member who is a law-enforcement officer and who has had one year or more of creditable service and becomes incapacitated for duty as the natural and proximate result of an accident occurring while in the actual performance of duty, and meets all other requirements for disability retirement benefits, may be retired by the Board of Trustees on a disability retirement allowance.

Notwithstanding the foregoing to the contrary, any beneficiary who commenced retirement with an early or service retirement benefit has the right, within three years of his retirement, to convert to an allowance with disability retirement benefits without modification of any election of optional allowance previously made; provided, the beneficiary presents clear and convincing evidence that the beneficiary would have met all applicable requirements for disability retirement benefits while still in service as a member. The allowance on account of disability retirement benefits to the beneficiary shall be retroactive to the effective date of early or service retirement.

Notwithstanding the foregoing, the surviving designated beneficiary of a deceased member who met all other requirements for disability retirement benefits, except whose death occurred before the first day of the calendar month in which the member's disability retirement allowance was to be due and payable, may elect to receive the reduced retirement allowance provided by a ~~fifty percent (50%)~~ one hundred percent (100%) joint and survivor payment option in lieu of a return of accumulated contributions, provided the following conditions apply:

- (1) The member had designated as the principal beneficiary, to receive a return of accumulated contributions at the time of his death, one and only one person, and
- (2) The member had not instructed the Board of Trustees in writing that he did not wish the provision of this subsection to apply."

SECTION 10. G.S. 127A-40(b) reads as rewritten:

"(b) Payment to a retired member of the North Carolina national guard under the provisions of this section will cease at the death of the individual and no payment will be made to beneficiaries or to the decedent's ~~estate.~~ estate, except that the legal representative of a

retired member who dies shall be entitled to a full check for the month in which the death occurred."

SECTION 11.(a) G.S. 135-63(a) reads as rewritten:

"(a) Upon receipt of proof, satisfactory to the Board of Trustees, of the death of a member in service, there shall be paid in a lump sum to such person as the member shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the sum of (i) the member's accumulated contributions, plus (ii) the member's final compensation; provided, however, that if the member has attained his fiftieth birthday with at least five years of membership service at his date of death, and if the designated recipient of the death benefits is the member's spouse who survives him, and if the spouse so elects, then the lump-sum death benefit provided for herein shall consist only of a payment equal to the member's final compensation and there shall be paid to the surviving spouse an annual retirement allowance, payable monthly, which shall commence on the first day of the calendar month coinciding with or next following the death of the member and shall be continued on the first day of each month thereafter until the remarriage or death of the spouse. The amount of any such retirement allowance shall be equal to one half of the amount of the retirement allowance to which the member would have been entitled had he retired under the provisions of G.S. 135-57(a) on the first day of the calendar month coinciding with or next following his date of death, reduced by two percent (2%) thereof for each full year, if any, by which the age of the member at his date of death exceeds that of his spouse. If the retirement allowance to the spouse shall terminate on the remarriage or death of the spouse before the total of the retirement allowance payments made equals the amount of the member's accumulated contributions at date of death, the excess of such accumulated contributions over the total of the retirement allowances paid to the spouse shall be paid in a lump sum to such person as the member shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time such payment falls due, otherwise to the former member's legal representatives."

SECTION 11.(b) G.S. 135-63(c) reads as rewritten:

"(c) Upon receipt of proof, satisfactory to the Board of Trustees, of the death of a member not in service, there shall be paid in a lump sum to such person as the member shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the member's accumulated contributions."

SECTION 11.(c) G.S. 135-64(c) reads as rewritten:

"(c) In the event of the death of a former member while in receipt of a retirement allowance under the provisions of G.S. 135-58, 135-60, or 135-61, if such former member is not survived by a spouse to whom a retirement allowance is payable under the provisions of subsection (a) or subsection (b) above, nor survived by a beneficiary to whom a monthly survivorship benefit is payable under one of the optional modes of payment under G.S. 135-61, there shall be paid to such person as the member shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the member at his date of retirement over the total of the retirement allowances paid to him prior to his death."

SECTION 11.(d) G.S. 135-64(d) reads as rewritten:

"(d) In the event that a retirement allowance becomes payable to the spouse of a former member under the provisions of subsection (a) or subsection (b) above, or to the designated

survivor of a former member under one of the optional modes of payment under G.S. 135-61, and such retirement allowance to the spouse shall terminate on the remarriage or death of the spouse, or on the death of the designated survivor, before the total of the retirement allowances paid to the former member and his spouse or designated survivor combined equals the amount of the member's accumulated contributions at his date of retirement, the excess of such accumulated contributions over the total of the retirement allowances paid to the former member and his spouse or designated survivor combined shall be paid in a lump sum to such person as the member shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time such payment falls due, otherwise to the former member's legal representatives."

SECTION 11.(e) G.S. 135-5(f) reads as rewritten:

"(f) Return of Accumulated Contributions. – Should a member cease to be a teacher or State employee except by death or retirement under the provisions of this Chapter, he shall upon submission of an application be paid, not earlier than 60 days from the date of termination of service, his contributions, and if he has attained at least five years of membership service or if termination of his membership service is involuntary as certified by the employer, the accumulated regular interest thereon, provided that he has not in the meantime returned to service. Upon payment of such sum his membership in the System shall cease and, if he thereafter again becomes a member, no credit shall be allowed for any service previously rendered except as provided in G.S. 135-4, and such payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable hereunder. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member there shall be paid to such person or persons as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of (m) below. An extension service employee who made contributions to the Local Governmental Employees' Retirement System and the Teachers' and State Employees' Retirement System as a result of dual employment may not be paid his accumulated contributions unless he is eligible to be paid his accumulated contributions in both systems for the same period of service.

Pursuant to the provisions of G.S. 135-56.2, a member who is also a member of the Consolidated Judicial Retirement System may irrevocably elect to transfer any accumulated contributions to the Consolidated Judicial Retirement System or to the Supplemental Retirement Income Plan and forfeit any rights in or to any benefits otherwise payable hereunder.

A member who is a participant or beneficiary of the Disability Income Plan of North Carolina as is provided in Article 6 of this Chapter shall not be paid a return of accumulated contributions, notwithstanding the member's status as an employee or teacher. Notwithstanding any other provision of law to the contrary, a member who is a beneficiary of the Disability Income Plan of North Carolina as provided in Article 6 of this Chapter and who is receiving disability benefits under the transition provisions as provided in G.S. 135-112, shall not be prohibited from receiving a return of accumulated contributions as provided in this subsection."

SECTION 11.(f) G.S. 135-5(g1), as amended by Section 5(b) of this act, reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated

contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 135-4, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate."

SECTION 11.(g) G.S. 135-5(l), as amended by Section 6(a) of this act, reads as rewritten:

"(l) Death Benefit Plan. – There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit. Such death benefit shall be equal to the greater of:

- (1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or
- (2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;

(3),(4) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2.

subject to a minimum of twenty-five thousand dollars (\$25,000) and to a maximum of fifty thousand dollars (\$50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection (l) shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

- (1) After December 31, 1968 and after he has attained age 70; or
- (2) After December 31, 1969 and after he has attained age 69; or
- (3) After December 31, 1970 and after he has attained age 68; or
- (4) After December 31, 1971 and after he has attained age 67; or
- (5) After December 31, 1972 and after he has attained age 66; or
- (6) After December 31, 1973 and after he has attained age 65; or
- (7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under Section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit.

If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

- (1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months or, if less, the period covered by an annual contract of employment. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.
- (2) Last day of actual service shall be:
 - a. When employment has been terminated, the last day the member actually worked.
 - b. When employment has not been terminated, the date on which an absent member's sick and annual leave expire, unless he is on approved leave of absence and is in service under the provisions of G.S. 135-4(h).
 - c. When a participant's employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, and the participant does not return immediately after that service to employment with a covered employer in this System, the date on which the participant was first eligible to be separated or released from his or her involuntary military service.
- (3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 135-4(h).
- (4) A member on leave of absence from his position as a teacher or State employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a teacher or State employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars (\$25,000) nor to exceed fifty thousand dollars (\$50,000).

The provisions of the Retirement System pertaining to Administration, G.S. 135-6, and management of funds, G.S. 135-7, are hereby made applicable to the Plan.

A member who is a beneficiary of the Disability Income Plan provided for in Article 6 of this Chapter, or a member who is in receipt of Workers' Compensation during the period for which he or she would have otherwise been eligible to receive short-term benefits as provided in G.S. 135-105 and dies on or after 181 days from the last day of his or her actual service but prior to the date the benefits as provided in G.S. 135-105 would have ended, shall be eligible for group life insurance benefits as provided in this subsection, notwithstanding that the member is no longer an employee or teacher or that the member's death occurs after the eligibility period after active service. The basis of the death benefit payable hereunder shall be the higher of the death benefit computed as above or a death benefit based on compensation used in computing the benefit payable under G.S. 135-105 and G.S. 135-106, as may be adjusted for percentage post-disability increases, all subject to the maximum dollar limitation as provided above. A member in receipt of benefits from the Disability Income Plan under the provisions of G.S. 135-112 whose right to a benefit accrued under the former Disability Salary Continuation Plan shall not be covered under the provisions of this paragraph.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 1988,

This death benefit shall be a lump-sum payment in the amount of five thousand dollars (\$5,000) upon the completion of twenty-four months of contributions required under this subsection. Should death occur before the completion of twenty-four months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after January 1, 1999, but before July 1, 2004, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees separate and apart from the Retirement System's Annuity Savings Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of six thousand dollars (\$6,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 2004, but before July 1, 2007, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of nine thousand dollars (\$9,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees.

Upon receipt of proof, satisfactory to the Board of Trustees in its capacity under this subsection, of the death of a retired member of the Retirement System on or after July 1, 2007, there shall be paid a death benefit to the surviving spouse of the deceased retired member or to the deceased retired member's legal representative if not survived by a spouse; provided the retired member has elected, when first eligible, to make, and has continuously made, in advance of his death required contributions as determined by the Board of Trustees on a fully contributory basis, through retirement allowance deductions or other methods adopted by the Board of Trustees, to a group death benefit trust fund administered by the Board of Trustees

Fund and Pension Accumulation Fund. This death benefit shall be a lump-sum payment in the amount of ten thousand dollars (\$10,000) upon the completion of 24 months of contributions required under this subsection. Should death occur before the completion of 24 months of contributions required under this subsection, the deceased retired member's surviving spouse or legal representative if not survived by a spouse shall be paid the sum of the retired member's contributions required by this subsection plus interest to be determined by the Board of Trustees."

SECTION 11.(h) G.S. 128-27(f) reads as rewritten:

"(f) Return of Accumulated Contributions. – Should a member cease to be an employee except by death or retirement under the provisions of this Chapter, he shall upon submission of an application be paid, not earlier than 60 days from the date of termination of service, his contributions and, if he has attained at least five years of membership service or if termination of his membership service is involuntary as certified by the employer, the accumulated regular interest thereon, provided that he has not in the meantime returned to service. Upon payment of such sum his membership in the System shall cease and, if he thereafter again becomes a member, no credit shall be allowed for any service previously rendered except as provided in G.S. 128-26; and such payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable hereunder. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member there shall be paid to such person or persons as he shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of (m) below. An extension service employee who made contributions to the Local Governmental Employees' Retirement System and the Teachers' and State Employees' Retirement System as a result of dual employment may not be paid his accumulated contributions unless he is eligible to be paid his accumulated contributions in both systems for the same period of service.

Pursuant to the provisions of G.S. 135-56.2, a member who is also a member of the Consolidated Judicial Retirement System may irrevocably elect to transfer any accumulated contributions to the Consolidated Judicial Retirement System or to the Supplemental Retirement Income Plan and forfeit any rights in or to any benefits otherwise payable hereunder."

SECTION 11.(i) G.S. 128-27(g1), as amended by Section 5(e) of this act, reads as rewritten:

"(g1) In the event of the death of a retired member while in receipt of a retirement allowance under the provisions of this Article, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, a death benefit equal to the excess, if any, of the accumulated contributions of the retiree at the date of retirement over the total of the retirement allowances paid prior to the death of the retiree. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor

combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event that a retirement allowance becomes payable to the principal beneficiary designated to receive a return of accumulated contributions pursuant to subsection (m) of this section and that beneficiary dies before the total of the retirement allowances paid equals the amount of the accumulated contributions of the member at the date of the member's death, the excess of those accumulated contributions over the total of the retirement allowances paid to the beneficiary shall be paid in a lump sum to the person or persons the member has designated as the contingent beneficiary for return of accumulated contributions, if the person or persons are living at the time the payment falls due, otherwise to the principal beneficiary's legal representative. For purposes of this paragraph, the term "accumulated contributions" includes amounts of employee voluntary contributions that were transferred from the Supplemental Retirement Income Plan of North Carolina to this Retirement System at retirement by eligible law enforcement officers.

In the event a retiree purchases creditable service as provided in G.S. 128-26, there shall be paid to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time of the retiree's death, otherwise to the retiree's legal representatives, an additional death benefit equal to the excess, if any, of the cost of the creditable service purchased less the administrative fee, if any, over the total of the increase in the retirement allowance attributable to the additional creditable service, paid from the month following the month in which payment was received to the death of the retiree.

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions above, and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the increase in the retirement allowance attributable to the additional creditable service paid to the retiree and the designated survivor combined equals the cost of the creditable service purchased less the administrative fee, the excess, if any, shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative.

In the event that a retiree dies without having designated a beneficiary to receive a benefit under the provisions of this subsection, any such benefit that becomes payable shall be paid to the member's estate."

SECTION 11.(j) G.S. 128-27(l), as amended by Section 6(b) of this act, reads as rewritten:

"(l) Death Benefit Plan. – The provisions of this subsection shall become effective for any employer only after an agreement to that effect has been executed by the employer and the Director of the Retirement System. There is hereby created a Group Life Insurance Plan (hereinafter called the "Plan") which is established as an employee welfare benefit plan that is separate and apart from the Retirement System and under which the members of the Retirement System shall participate and be eligible for group life insurance benefits. Upon receipt of proof, satisfactory to the Board of Trustees in their capacity as trustees under the Group Life Insurance Plan, of the death, in service, of a member who had completed at least one full calendar year of membership in the Retirement System, there shall be paid to such person as he

shall have nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person is living at the time of the member's death, otherwise to the member's legal representatives, a death benefit. Such death benefit shall be equal to the greater of:

- (1) The compensation on which contributions were made by the member during the calendar year preceding the year in which his death occurs, or
- (2) The greatest compensation on which contributions were made by the member during a 12-month period of service within the 24-month period of service ending on the last day of the month preceding the month in which his last day of actual service occurs;
- (3) Repealed by Session Laws 1983 (Regular Session, 1984), c. 1049, s. 2;

subject to a minimum of twenty-five thousand dollars (\$25,000) and a maximum of fifty thousand dollars (\$50,000). Such death benefit shall be payable apart and separate from the payment of the member's accumulated contributions under the System on his death pursuant to the provisions of subsection (f) of this section. For the purpose of the Plan, a member shall be deemed to be in service at the date of his death if his death occurs within 180 days from the last day of his actual service.

The death benefit provided in this subsection shall not be payable, notwithstanding the member's compliance with all the conditions set forth in the preceding paragraph, if his death occurs

- (1) After June 30, 1969 and after he has attained age 70; or
- (2) After December 31, 1969 and after he has attained age 69; or
- (3) After December 31, 1970 and after he has attained age 68; or
- (4) After December 31, 1971 and after he has attained age 67; or
- (5) After December 31, 1972 and after he has attained age 66; or
- (6) After December 31, 1973 and after he has attained age 65; or
- (7) After December 31, 1978, but before January 1, 1987, and after he has attained age 70.

Notwithstanding the above provisions, the death benefit shall be payable on account of the death of any member who died or dies on or after January 1, 1974, but before January 1, 1979, after attaining age 65, if he or she had not yet attained age 65, if he or she had not yet attained age 66, was at the time of death completing the work year for those individuals under specific contract, or during the fiscal year for those individuals not under specific contract, in which he or she attained age 65, and otherwise met all conditions for payment of the death benefit.

Notwithstanding the above provisions, the Board of Trustees may and is specifically authorized to provide the death benefit according to the terms and conditions otherwise appearing in this Plan in the form of group life insurance, either (i) by purchasing a contract or contracts of group life insurance with any life insurance company or companies licensed and authorized to transact business in this State for the purpose of insuring the lives of members in service, or (ii) by establishing a separate trust fund qualified under section 501(c)(9) of the Internal Revenue Code of 1954, as amended, for such purpose. To that end the Board of Trustees is authorized, empowered and directed to investigate the desirability of utilizing group life insurance by either of the foregoing methods for the purpose of providing the death benefit. If a separate trust fund is established, it shall be operated in accordance with rules and regulations adopted by the Board of Trustees and all investment earnings on the trust fund shall be credited to such fund.

In administration of the death benefit the following shall apply:

- (1) For the purpose of determining eligibility only, in this subsection "calendar year" shall mean any period of 12 consecutive months. For all other purposes in this subsection "calendar year" shall mean the 12 months beginning January 1 and ending December 31.
- (2) Last day of actual service shall be:

- a. When employment has been terminated, the last day the member actually worked.
 - b. When employment has not been terminated, the date on which an absent member's sick and annual leave expire.
 - c. When a participant's employment is interrupted by reason of service in the Uniformed Services, as that term is defined in section 4303(16) of the Uniformed Services Employment and Reemployment Rights Act, Public Law 103-353, and the participant does not return immediately after that service to employment with a covered employer in this System, the date on which the participant was first eligible to be separated or released from his or her involuntary military service.
- (3) For a period when a member is on leave of absence, his status with respect to the death benefit will be determined by the provisions of G.S. 128-26(g).
 - (4) A member on leave of absence from his position as a local governmental employee for the purpose of serving as a member or officer of the General Assembly shall be deemed to be in service during sessions of the General Assembly and thereby covered by the provisions of the death benefit, if applicable. The amount of the death benefit for such member shall be the equivalent of the salary to which the member would have been entitled as a local governmental employee during the 12-month period immediately prior to the month in which death occurred, not to be less than twenty-five thousand dollars (\$25,000) nor to exceed fifty thousand dollars (\$50,000).

The provisions of the Retirement System pertaining to administration, G.S. 128-28, and management of funds, G.S. 128-29, are hereby made applicable to the Plan."

SECTION 11.(k) G.S. 120-4.25 reads as rewritten:

"§ 120-4.25. Return of accumulated contributions.

If a member ceases to be a member of the General Assembly except by death or retirement, he shall, upon submission of an application, be paid not earlier than 60 days following the date of termination of service, the sum of his contributions if he has less than five years of creditable service, or the sum of his accumulated contributions if he has five or more years of creditable service, provided he has not in the meantime returned to service. Upon payment of this sum his membership in the System ceases. If he becomes a member afterwards, no credit shall be allowed for any service previously rendered except as provided in G.S. 120-4.14 and the payment shall be in full and complete discharge of any rights in or to any benefits otherwise payable under this Article. Upon receipt of proof satisfactory to the Board of Trustees of the death, prior to retirement, of a member or former member, there shall be paid to the person or persons he nominated by electronic submission prior to completing 10 years of service in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if the person or persons are living at the time of the member's death, otherwise to the member's legal representatives, the amount of his accumulated contributions at the time of his death, unless the beneficiary elects to receive the alternate benefit under the provisions of G.S. 120-4.28."

In the event that a retirement allowance becomes payable to the designated survivor of a retired member under the provisions of G.S. 120-4.26 and such retirement allowance to the survivor shall terminate upon the death of the survivor before the total of the retirement allowances paid to the retiree and the designated survivor combined equals the amount of the accumulated contributions of the retiree at the date of retirement, the excess, if any, of such accumulated contributions over the total of the retirement allowances paid to the retiree and the survivor combined shall be paid in a lump sum to such person or persons as the retiree shall have nominated by electronic submission in a form approved by the Board of Trustees or by written designation duly acknowledged and filed with the Board of Trustees, if such person or persons are living at the time such payment falls due, otherwise to the retiree's legal representative."

SECTION 12.(a) G.S. 135-3(3) reads as rewritten:

"(3) Should any member in any period of six consecutive years after becoming a member be absent from service more than five years, or should he withdraw his accumulated contributions, or should he become a beneficiary or die, he shall thereupon cease to be a member: Provided that on and after July 1, 1967, should any member in any period of eight consecutive years after becoming a member be absent from service more than seven years, or should he withdraw his accumulated contributions, or should he become a beneficiary or die, he shall thereupon cease to be a member; provided further that the period of absence from service shall be computed from January 1, 1962, or later date of separation for any member whose contributions were not withdrawn prior to July 1, 1967: Provided that on and after July 1, 1971, a member shall cease to be a member only if he withdraws his accumulated contributions, or becomes a beneficiary, or dies.

excluding terminal payments, during the 12 months of service preceding the effective date of retirement, or twenty thousand dollars (\$20,000), whichever is greater, as hereinafter indexed, then the retirement allowance shall be suspended as of the first day of the month following the month in which the reemployment earnings exceed the amount above, for the balance of the calendar year, except when the reemployment earnings exceed the amount above in the month of December, in which case the retirement allowance shall not be suspended. The retirement allowance of the beneficiary shall be reinstated as of January 1 of each year following suspension.  2. For a member who does not earn three years' membership service after restoration to service, the retirement allowance shall be equal to the sum of the retirement allowance to which he would have been entitled had he not been restored to service, without modification of the election of an optional allowance previously made, and the retirement allowance that results from service earned since being restored to service; provided, that if the prior retirement allowance was based on a social security leveling payment option, the prior allowance shall be adjusted actuarially for the difference between the amount that would have been paid for each month had the payment not been suspended and what would have been paid if the retirement allowance had been paid without optional modification.
- e. Any beneficiary who retired on an early or service retirement allowance as an employee of any State department, agency or institution under the Law Enforcement Officers' Retirement System and becomes employed as an employee by a State department, agency, or institution as an employer participating in the Retirement System shall become subject to the provisions of G.S. 135-3(8)c and G.S. 135-3(8)d on and after January 1, 1989."

- (3) Apply to a court, upon the failure of any person to respond to or comply with a lawful interrogatory, request for production of documents and things, request to enter upon land and premises, or subpoena, for an order requiring the person to respond or comply.
- (4) Upon finding reasonable cause to believe that a violation of the ordinance has occurred, to petition a court for appropriate civil relief on behalf of the aggrieved person or persons.

(e) The City may provide that neither complaints filed with any committee pursuant to the ordinance nor the results of the committee's investigations, discovery, or attempts at conciliation, in whatever form prepared and preserved, shall be subject to inspection, examination, or copying under the provisions of what is now Chapter 132 of the General Statutes.

(b) This marketable title shall be held by the person and shall be taken by the person's successors in interest free and clear of any and all fee simple oil, gas, or mineral interests in the area of land founded upon any reservation or exception contained in an instrument conveying the surface estate in fee simple that was executed or recorded at least 30 years or more prior to October 1, 2009, and the oil, gas, or mineral interests are hereby declared to be null and void and of no effect whatever at law or in equity. Session Law 2009-79

S.B. 114

AN ACT EXEMPTING PRIVATE CLUBS AND RELIGIOUS ORGANIZATIONS FROM CERTAIN PROVISIONS OF THE NORTH CAROLINA STATE BUILDING CODE RELATING TO LIMITED-USE AND LIMITED-ACCESS ELEVATORS AND TO REQUIRE THE ADOPTION OF RULES UNDER THE ELEVATOR SAFETY ACT OF NORTH CAROLINA PROVIDING FOR THE PROMINENT DISPLAY OF IDENTIFYING NUMBERS IN ELEVATORS TO FACILITATE THE EXTRICATION OF PASSENGERS FROM MALFUNCTIONING ELEVATORS.

The General Assembly of North Carolina enacts:

SECTION 1.(a) G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering of temperature, and electrical systems; and such other reasonable rules

pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large.

In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions requiring the installation of either battery-operated or electrical carbon monoxide detectors in every dwelling unit having a fossil-fuel burning heater or appliance, fireplace, or an attached garage. Carbon monoxide detectors shall be those listed by a nationally recognized testing laboratory that is OSHA-approved to test and certify to American National Standards Institute/Underwriters Laboratories Standards ANSI/UL2034 or ANSI/UL2075 and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance. A carbon monoxide detector may be combined with smoke detectors if the combined detector does both of the following: (i) complies with ANSI/UL2034 or ANSI/UL2075 for carbon monoxide alarms and ANSI/UL217 for smoke detectors; and (ii) emits an alarm in a manner that clearly differentiates between detecting the presence of carbon monoxide and the presence of smoke.

~~The~~ Except as provided by subsection (c1) of this section, the Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.

Provided further, that building rules do not apply to (i) farm buildings that are located outside the building-rules jurisdiction of any municipality, or (ii) farm buildings that are located inside the building-rules jurisdiction of any municipality if the farm buildings are greenhouses. A "greenhouse" is a structure that has a glass or plastic roof, has one or more glass or plastic walls, has an area over ninety-five percent (95%) of which is used to grow or cultivate plants, is built in accordance with the National Greenhouse Manufacturers Association Structural Design manual, and is not used for retail sales. Additional provisions addressing distinct life safety hazards shall be approved by the local building-rules jurisdiction.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars (\$5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars (\$20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices [the following:]

- (1) Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,

- (2) Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and
- (3) Any rules relating to sanitation adopted by the Commission for Public Health which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing, handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of industrial machinery. However, if during the building code inspection process, an electrical inspector has any concerns about the electrical safety of a piece of industrial machinery, the electrical inspector may refer that concern to the Occupational Safety and Health Division in the North Carolina Department of Labor but shall not withhold the certificate of occupancy nor mandate third-party testing of the industrial machinery based solely on this concern. For the purposes of this paragraph, "industrial machinery" means equipment and machinery used in a system of operations for the explicit purpose of producing a product. The term does not include equipment that is permanently attached to or a component part of a building and related to general building services such as ventilation, heating and cooling, plumbing, fire suppression or prevention, and general electrical transmission.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space requirements and may contain rules concerning energy efficiency that require all hot water plumbing pipes that are larger than one-fourth of an inch to be insulated.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)e., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily."

SECTION 1.(b) G.S. 143-138 is amended by adding a new subsection to read:

"(c1) Exemptions for Private Clubs and Religious Organizations. – The North Carolina State Building Code and the standards for the installation and maintenance of limited-use or limited-access hydraulic elevators under this Article shall not apply to private clubs or establishments exempted from coverage under Title II of the Civil Rights Act of 1964, 42 U.S.C. § 2000a, et seq., or to religious organizations or entities controlled by religious organizations, including places of worship. A nonreligious organization or entity that leases space from a religious organization or entity is not exempt under this subsection."

SECTION 1.(c) G.S. 143-138(e) reads as rewritten:

"(e) Effect upon Local Codes. – ~~The~~ Except as otherwise provided in this section, the North Carolina State Building Code shall apply throughout the State, from the time of its

adoption. Approved rules shall become effective in accordance with G.S. 150B-21.3. However, any political subdivision of the State may adopt a fire prevention code and floodplain management regulations within its jurisdiction. The territorial jurisdiction of any municipality or county for this purpose, unless otherwise specified by the General Assembly, shall be as follows: Municipal jurisdiction shall include all areas within the corporate limits of the municipality and extraterritorial jurisdiction areas established as provided in G.S. 160A-360 or a local act; county jurisdiction shall include all other areas of the county. No such code or regulations, other than floodplain management regulations and those permitted by G.S. 160A-436, shall be effective until they have been officially approved by the Building Code Council as providing adequate minimum standards to preserve and protect health and safety, in accordance with the provisions of subsection (c) above. Local floodplain regulations may regulate all types and uses of buildings or structures located in flood hazard areas identified by local, State, and federal agencies, and include provisions governing substantial improvements, substantial damage, cumulative substantial improvements, lowest floor elevation, protection of mechanical and electrical systems, foundation construction, anchorage, acceptable flood resistant materials, and other measures the political subdivision deems necessary considering the characteristics of its flood hazards and vulnerability. In the absence of approval by the Building Code Council, or in the event that approval is withdrawn, local fire prevention codes and regulations shall have no force and effect. Provided any local regulations approved by the local governing body which are found by the Council to be more stringent than the adopted statewide fire prevention code and which are found to regulate only activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion or related hazards, and are not matters in conflict with the State Building Code, shall be approved. Local governments may enforce the fire prevention code of the State Building Code using civil remedies authorized under G.S. 143-139, 153A-123, and 160A-175. If the Commissioner of Insurance or other State official with responsibility for enforcement of the Code institutes a civil action pursuant to G.S. 143-139, a local government may not institute a civil action under G.S. 143-139, 153A-123, or 160A-175 based upon the same violation. Appeals from the assessment or imposition of such civil remedies shall be as provided in G.S. 160A-434.

A local government may not adopt any ordinance in conflict with the exemption provided by subsection (c1) of this section. No local ordinance or regulation shall be construed to limit the exemption provided by subsection (c1) of this section."

SECTION 2. Nothing in this act shall be construed to limit the authority of the North Carolina Department of Labor to perform safety inspections of hydraulic elevators.

SECTION 3. The Commissioner of Labor shall adopt rules pursuant to Article 14A of Chapter 95 of the General Statutes (Elevator Act of North Carolina) to require, in any building or structure having more than one elevator, the posting of a distinct number in plain view in the passenger cabin of each elevator for the purpose of identification of the elevator to facilitate extrication from any elevator that malfunctions while occupied.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 62-113 is amended by adding a new subsection to read:

"(c) Any broadband service provider that provides voice grade communication services within a defined service territory or franchise area, and elects to provide broadband service in areas contiguous to its service territory or franchise area, may provide such voice grade service as an incident to such broadband service to a customer when the incumbent telecommunications or cable provider is not currently providing broadband service to the customer, without violating its service territory restrictions or franchise agreement."

H.B. 201

AN ACT TO FACILITATE THE TRANSFER OF MOTOR VEHICLES FROM THE UNITED STATES DEPARTMENT OF DEFENSE TO LOCAL GOVERNMENT UNITS, VOLUNTEER FIRE DEPARTMENTS, AND VOLUNTEER RESCUE SQUADS AND TO CLARIFY THAT THE DIVISION OF LAW ENFORCEMENT SUPPORT SERVICES IS A DIVISION OF THE DEPARTMENT OF CRIME CONTROL AND PUBLIC SAFETY.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 20-73 reads as rewritten:

"§ 20-73. **New owner must get new certificate of title.**

(a) Time Limit. – A person to whom a vehicle is transferred, whether by purchase or otherwise, must apply to the Division for a new certificate of title. An application for a certificate of title must be submitted within 28 days after the vehicle is transferred. A person who must follow the procedure in G.S. 20-76 to get a certificate of title and who applies for a title within the required 20-day time limit is considered to have complied with this section even when the Division issues a certificate of title to the person after the time limit has elapsed.

A person may apply directly for a certificate of title or may allow another person, such as the person from whom the vehicle is transferred or a person who has a lien on the vehicle, to apply for a certificate of title on that person's behalf. A person to whom a vehicle is transferred is responsible for getting a certificate of title within the time limit regardless of whether the person allowed another to apply for a certificate of title on the person's behalf.

(b) Exceptions. – This section does not apply to any of the following:

(1) ~~a-A dealer or an insurance company to whom a vehicle is transferred when the transfer meets the requirements of G.S. 20-75. (2) A State agency that assists the United States Department of Defense in purchasing or transferring a vehicle to a unit of local government, a volunteer fire department, or a volunteer rescue squad.

(c) Penalties. – A person to whom a vehicle is transferred who fails to apply for a certificate of title within the required time is subject to a civil penalty of fifteen dollars (\$15.00) and is guilty of a Class 2 misdemeanor. A person who undertakes to apply for a certificate of title on behalf of another person and who fails to apply for a title within the required time is subject to a civil penalty of fifteen dollars (\$15.00). When a person to whom a vehicle is transferred fails to obtain a title within the required time because a person who undertook to apply for the certificate of title did not do so within the required time, the Division may impose

a civil penalty only on the person who undertook to apply for the title. Civil penalties collected under this subsection shall be credited to the Highway Fund."

SECTION 2. G.S. 105-187.6(a) reads as rewritten:

"(a) Full Exemptions. – The tax imposed by this Article does not apply when a certificate of title is issued as the result of a transfer of a motor vehicle:

The Council shall be composed of a variable number of councilors equal to the number of judicial districts plus 16, the officers of the North Carolina State Bar, who shall be councilors during their respective terms of office, and each retiring president of the North Carolina State Bar who shall be a councilor for one year from the date of expiration of his term as president. If before the alteration of the judicial district of the councilor the judicial district included both the place of residence and the place of practice of the councilor, and if after the alteration of the judicial district the councilor's place of residence and place of practice are located in different districts, the councilor must, not later than 10 days from the effective date of the alteration of the district,

In revising the form, the Administrative Office of the Courts shall insert to the list of items that currently appear on the form a new item that reads as follows: "Do you understand that your plea of guilty may impact how long biological evidence related to your case (for example, blood, hair, skin tissue) will be preserved?".

(a) Findings. – The General Assembly finds that:

(1) There is an increasing need to protect the educational opportunities of youths under age 18 and to prohibit their employment in jobs and under conditions that are detrimental to their health and well-being.

(2) Although the statutory protections available for youths under age 18 who are employed in this State are comprehensive, those protections are rendered meaningless without effective enforcement.

(3) It is in the best interest of the State and its youngest workers to ensure that North Carolina employers are in full compliance with the youth employment laws and regulations enacted under the Wage and Hour Act.

(b) Intent. – Recognizing that the Department of Labor is the State agency charged with enforcing the Wage and Hour Act as it pertains to youth employment, the General Assembly intends to review the Department's education and enforcement activities on a regular basis in order to identify effective measures for enhancing youth employment protections in this State.

(c) Report. – No later than February 1 of each year, the Commissioner shall submit a written report to the General Assembly, the Legislative Study Commission on Children and Youth, and the Fiscal Research Division of the General Assembly on the Department of Labor's investigative, inspection, and enforcement activities under the Wage and Hour Act pertaining to youth employment. Each report submitted pursuant to this subsection shall contain data and information about the calendar year preceding the date on which the last written report was submitted. The report shall include at least all of the following:

- (1) All activities the Department of Labor has sponsored or participated in for the purpose of educating employers about their responsibilities under the Wage and Hour Act.
- (2) The total number of complaints received by the Department of Labor alleging youth employment violations under the Wage and Hour Act, or any regulations issued under the Wage and Hour Act, or both.
- (3) The specific types of youth employment violations alleged and the ages of the youths referenced in the complaints received by the Department of Labor.
- (4) The total number of investigations conducted by the Department of Labor concerning alleged youth employment violations, the length of the investigations, and the number of investigators assigned to conduct the investigations. For purposes of this subdivision, the Commissioner shall provide a separate analysis of (i) investigations initiated by the Department in response to a complaint, (ii) investigations initiated by the Department in the absence of a complaint, and (iii) alleged record-keeping violations pertaining to youth employment.
- (5) The total number of administrative proceedings involving youth employment violations.
- (6) The total number and identity of employers cited for youth employment violations and the industries or occupations that received the greatest and the least number of complaints alleging youth employment violations.
- (7) The total number and dollar amount of civil penalties assessed pursuant to G.S. 95-25.23 and the total number and dollar amount of civil penalties actually collected pursuant to that section. For purposes of this subdivision, the Commissioner shall provide a detailed, itemized list of each civil penalty represented in the total number and dollar amounts reported pursuant to this subdivision and indicate whether each civil penalty is the result of a complaint.
- (8) The total number and dollar amount of civil penalties assessed pursuant to G.S. 95-25.23A and the total number and dollar amount of civil penalties actually collected pursuant to that section. For purposes of this subdivision, the Commissioner shall provide a detailed, itemized list of each civil penalty represented in the total number and dollar amounts reported pursuant to this subdivision and indicate whether each civil penalty is the result of a complaint.
- (9) An explanation of any obstacles that prevented the Department of Labor from enforcing any provision of the Wage and Hour Act as it pertains to youth employment, any recommended changes to the Wage and Hour Act to strengthen the Department of Labor's oversight and enforcement of youth employment laws and regulations in this State, and any other information related to the Department of Labor's enhanced enforcement of the State's youth employment laws and regulations.
- (10) Recommendations about the funding needed by the Department to (i) eliminate any identified obstacles to enforcement of youth employment laws and regulations and (ii) effectively implement any recommended changes."

SECTION 2. The first report required by G.S. 95-25.23C, as enacted by Section 1 of this act, is due no later than February 1, 2010, and shall cover investigative, inspection, and enforcement activities under the Wage and Hour Act pertaining to youth employment for the period January 1, 2008, through December 31, 2008.

AN ACT TO AMEND THE NORTH CAROLINA GENERAL STATUTES TO ALLOW THE STATE TO TAKE FULL ADVANTAGE OF THE EXPANSION OF EXISTING BOND PROGRAMS AND THE CREATION OF NEW BOND PROGRAMS UNDER THE AMERICAN RECOVERY AND REINVESTMENT TAX ACT OF 2009 (ARRTA).

The General Assembly of North Carolina enacts:

SECTION 1. Article 34B of Chapter 115C of the General Statutes reads as rewritten:

"Article 34B.

"Qualified Zone Academy ~~Bonds~~ Bonds and Qualified School Construction Bonds.

"§ 115C-489.5. **Qualified zone academy ~~bonds~~; bonds and qualified school construction bonds; findings.**

The General Assembly finds:

- (1) Section 226 of the Taxpayer Relief Act of 1997, as codified at ~~26 U.S.C. § 4397E~~, 26 U.S.C. § 54E, provides funds for school improvements through taxable qualified zone academy bonds. Ninety-five percent (95%) or more of the proceeds of a qualified zone academy bond issue must be used for a qualified purpose with respect to a qualified zone academy established by an eligible local education agency.
- (2) Partnerships between private entities and local schools are promoted through the use of qualified zone academy bonds. Issuers must certify that they have received written commitments from one or more private entities to make qualified contributions valued at ten percent (10%) of the proceeds of the issue.
- (2a) Section 1521, et seq., of the American Recovery and Reinvestment Tax Act of 2009 (ARRTA), enacted as 26 U.S.C. § 54F, provides a new source of funds for construction, rehabilitation, or repair of public school facilities or for acquisition of land for public school facilities through the issuance of qualified school construction bonds.
- (3) Eligible taxpayers may receive federal tax credits for holding the qualified zone academy ~~bonds~~ bonds or qualified school construction bonds. It is intended that the qualified zone academy bonds and qualified school construction bonds be sold at ~~par value~~ a price so that the tax credits received ~~are instead~~ produce the economic equivalent of interest that otherwise would have been paid on the bonds. Therefore, issuers of qualified zone academy bonds or qualified school construction bonds are obligated to repay the principal amount of the qualified zone academy bonds or qualified school construction bonds but need not make interest payments.
- (4) Applicable federal law limits the amount of qualified zone academy bonds and qualified school construction bonds that may be issued in North Carolina in a calendar year. The amount of qualified school construction bonds that may be issued in the State is divided between amounts

specifically designated for identified local school districts pursuant to ARRTA ("local allocation") and amounts allocated to the entire State for use throughout the State ("statewide allocation").

"§ 115C-489.6. Administration; consultation; issuance of bonds.

(a) ~~State Board of Education to Administer QZAB Program.~~ – The State Board of Education is designated the State education agency responsible for administering the qualified zone academy bond program in North Carolina for the purposes of ~~26 U.S.C. § 1397E~~. 26 U.S.C. § 54E. The State Board of Education shall perform all activities required to implement and carry out the qualified zone activity bond program in North Carolina. Those activities include:

...

(a1) Qualified School Construction Bond Program. – The State Board of Education is designated the State education agency responsible for administering the statewide allocation of authority to issue qualified school construction bonds under 26 U.S.C. § 54F. The State Board of Education shall perform all activities required to implement and carry out the statewide allocation for the qualified school construction bond program in North Carolina. Those activities include:

- (1) Designing an application process under which proposals may be solicited from issuers wishing to issue qualified school construction bonds pursuant to the statewide allocation.
- (2) Awarding the State's allocation of total funds among selected applicants and establishing conditions upon the usage of the allocation. These conditions may include:
 - a. Requiring that the bond proceeds be used for purposes permitted under 26 U.S.C. § 54F.
 - b. Conditions designed to assure that the allocation is used in a timely manner and that the allocations are made in accordance with the requirements of federal statutes, regulations, and rulings.
- (3) Confirming that the terms of any qualified school construction bonds issued in accordance with this program are consistent with the terms of the federal program.
- (4) Acting as the State entity designated to receive notice from any local school district that it will not utilize its local allocation so that the unused resource will become part of the statewide allocation. Local school districts receiving a local allocation are hereby directed to coordinate the use of such allocation with the State Board of Education so that any local allocation that will not be used by the local school district becomes eligible for use as part of the statewide allocation.

(b) Assistance. – The Department of Public Instruction shall provide the State Board of Education any support it requires in carrying out this section.

(c) Consultation. – In reviewing applications and awarding allocations, the State Board of Education shall consult with the Local Government Commission to determine whether a prospective issuer of qualified zone academy bonds or qualified school construction bonds is able to issue or incur marketable obligations.

(d) Issuance of Bonds. – ~~Any bonds designated as qualified zone academy bonds or qualified school construction bonds~~ may be issued pursuant to the applicable provisions of and in compliance with the Local Government Bond Act, Article 4 of Chapter 159 of the General Statutes, or pursuant to the applicable provisions of and in compliance with G.S. 160A-20, to the extent authorized by G.S. 153A-158.1. The ARRTA provides a formula for allocation of authority to issue recovery zone facility bonds and recovery zone economic development bonds to the states and by which the authority is to be reallocated by the State to counties and large municipalities within the State.

(d) The General Assembly further finds and determines that section 54D of the Internal Revenue Code of 1986, as amended, permits the issuance of tax credit bonds called "qualified energy conservation bonds" (QECBs), the proceeds of which must be used for certain energy conservation purposes enumerated in section 54D. Section 54D and ARRTA provide a national bond limitation for the issuance of QECBs, and the Treasury Department has allocated that authority among the states. Under section 54D, the United States is required to reallocate the authority to issue QECBs to the counties and large local governments within the states based on population, in accordance with the guidelines provided by the Treasury Department, and to assure that not more than thirty percent (30%) of the QECBs issued in a state are used for private activity bonds, as defined in section 54D."

S.B. 1018

AN ACT TO REDUCE PLASTIC AND NONRECYCLED PAPER BAG USE ON NORTH CAROLINA'S OUTER BANKS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 9 of Chapter 130A of the General Statutes is amended by adding a new Part to read:

"Part 2G. Plastic Bag Management.

"§ 130A-309.120. Findings.

The General Assembly makes the following findings:

- (1) Distribution of plastic bags by retailers to consumers for use in carrying, transporting, or storing purchased goods has a detrimental effect on the environment of the State.
- (2) Discarded plastic bags contribute to overburdened landfills, threaten wildlife and marine life, degrade the beaches and other natural landscapes of North

Carolina's coast, and, in many cases, require consumption of oil and natural gas during the manufacturing process.

- (3) It is in the best interest of the citizens of this State to gradually reduce the distribution and use of plastic bags.
- (4) Environmental degradation is especially burdensome in counties with barrier islands where soundside and ocean pollution are more significant, where removing refuse from such isolated places is more difficult and expensive, where such refuse deters tourism, and where the presence of a National Wildlife Refuge or National Seashore shows that the federal government places special value on protecting the natural environment in that vicinity.
- (5) The barrier islands are most relevant in that they are where sea turtles come to nest. North Carolina has some of the most important sea turtle nesting areas on the East Coast, due to the proximity of the islands to the Gulf Stream. Plastic bag debris can be harmful to sea turtles and other land and marine life. The waters adjacent to the barrier islands, because they serve as habitat for the turtles, are particularly sensitive to waterborne debris pollution.
- (6) Inhabited barrier islands are visited by a high volume of tourists and therefore experience a high consumption of bags relative to their permanent population due to large numbers of purchases from restaurants, groceries, beach shops, and other retailers by the itinerant tourist population.
- (7) Barrier islands are small and narrow, and therefore the comparative impact of plastic bags on the barrier islands is high.

"§ 130A-309.121. Definitions.

As used in this Part, the following definitions apply:

- (1) Plastic bag. – A carryout bag composed primarily of thermoplastic synthetic polymeric material, which is provided by a store to a customer at the point of sale and incidental to the purchase of other goods.
- (2) Prepared foods retailer. – A retailer primarily engaged in the business of selling prepared foods, as that term is defined in G.S. 105-164.3, to consumers.
- (3) Recycled paper bag. – A paper bag that meets all of the following requirements:
 - a. The bag is manufactured from one hundred percent (100%) recycled content, including postconsumer content, postindustrial content, or a mix of postconsumer and postindustrial content.
 - b. The bag displays the words "made from recycled material" and "recyclable."
- (4) Retail chain. – Five or more stores located within the State that are engaged in the same general field of business and (i) conduct business under the same business name or (ii) operate under common ownership or management or pursuant to a franchise agreement with the same franchisor.
- (5) Retailer. – A person who offers goods for sale in this State to consumers and who provides a single-use plastic bag to the consumer to carry or transport the goods and (i) has more than 5,000 square feet of retail or wholesale space or (ii) is one of a retail chain.
- (6) Reusable bag. – A durable plastic bag with handles that is at least 2.25 mils thick and is specifically designed and manufactured for multiple reuse or a bag made of cloth or other machine washable fabric with handles.

"§ 130A-309.122. Certain plastic bags banned.

No retailer shall provide customers with plastic bags unless the bag is a reusable bag, or the bag is used solely to hold sales to an individual customer of otherwise unpackaged portions of the following items:

- (1) Fresh fish or fresh fish products.
- (2) Fresh meat or fresh meat products.
- (3) Fresh poultry or fresh poultry products.
- (4) Fresh produce.

"§ 130A-309.123. Substitution of paper bags restricted.

(a) A retailer subject to G.S. 130A-309.122 may substitute paper bags for the plastic bags banned by that section, but only if all of the following conditions are met:

- (1) The paper bag is a recycled paper bag.
- (2) The retailer offers one of the following incentives to any customer who uses the customer's own reusable bags instead of the bags provided by the retailer: (i) a cash refund; (ii) a store coupon or credit for general store use; or (iii) a value or reward under the retailer's customer loyalty or rewards program for general store use. The amount of the incentive shall be equal to or greater than the cost to the retailer of providing a recycled paper bag, multiplied by the number of reusable bags filled with the goods purchased by the customer.

(b) Nothing in this Part shall prevent a retailer from providing customers with reused packaging materials originally used for goods received from the retailer's wholesalers or suppliers.

(c) Notwithstanding subsection (a) of this section, a prepared foods retailer may package prepared foods in a recycled paper bag, regardless of the availability of a reusable bag, in order to comply with food sanitation or handling standards or best practices.

"§ 130A-309.124. Required signage.

A retailer subject to G.S. 130A-309.122 other than a prepared foods retailer shall display a sign in a location viewable by customers containing the following notice: "[county name] County discourages the use of single-use plastic and paper bags to protect our environment from excess litter and greenhouse gases. We would appreciate our customers using reusable bags, but if you are not able to, a 100% recycled paper bag will be furnished for your use." The name of the county where the retailer displaying the sign is located should be substituted for "[county name]" in the language set forth in this section.

"§ 130A-309.125. Applicability.

(a) This Part applies only in a county which includes a barrier island or barrier peninsula, in which the barrier island or peninsula meets both of the following conditions:

- (1) It has permanent inhabitation of 200 or more residents and is separated from the North Carolina mainland by a sound.
- (2) It contains either a National Wildlife Refuge or a portion of a National Seashore.

(b) Within any county covered by subsection (a) of this section, this Part applies only to an island or peninsula that both:

- (1) Is bounded on the east by the Atlantic Ocean.
- (2) Is bounded on the west by a coastal sound."

SECTION 2. G.S. 130A-22 reads as rewritten:

"§ 130A-22. Administrative penalties.

(a) The Secretary of Environment and Natural Resources may impose an administrative penalty on a person who violates Article 9 of this Chapter, rules adopted by the Commission pursuant to Article 9, or any term or condition of a permit or order issued under Article 9. Each day of a continuing violation shall constitute a separate violation. The penalty shall not exceed fifteen thousand dollars (\$15,000) per day in the case of a violation involving nonhazardous waste. The penalty shall not exceed thirty-two thousand five hundred dollars (\$32,500) per day in the case of a first violation involving hazardous waste as defined in G.S. 130A-290 or involving the disposal of medical waste as defined in G.S. 130A-290 in or upon water in a manner that results in medical waste entering waters or lands of the State; and shall not exceed fifty thousand dollars (\$50,000) per day for a second or further violation involving the disposal

of medical waste as defined in G.S. 130A-290 in or upon water in a manner that results in medical waste entering waters or lands of the State. The penalty shall not exceed thirty-two thousand five hundred dollars (\$32,500) per day for a violation involving a voluntary remedial action implemented pursuant to G.S. 130A-310.9(c) or a violation of the rules adopted pursuant to G.S. 130A-310.12(b). The penalty shall not exceed one hundred dollars (\$100.00) for a first violation; two hundred dollars (\$200.00) for a second violation within any 12-month period; and five hundred dollars (\$500.00) for each additional violation within any 12-month period for any violation of Part 2G of Article 9 of this Chapter. If a person fails to pay a civil penalty within 60 days after the final agency decision or court order has been served on the violator, the Secretary of Environment and Natural Resources shall request the Attorney General to institute a civil action in the superior court of any county in which the violator resides or has his or its principal place of business to recover the amount of the assessment. Such civil actions must be filed within three years of the date the final agency decision or court order was served on the violator.

H.B. 1165

AN ACT TO CODIFY THE PROVISIONS SET FORTH IN THE PHOTOGRAPHIC VERSION OF THE STANDARD FIRE INSURANCE POLICY; MAKE CONFORMING AMENDMENTS; AND REPEAL THE STATUTE THAT CONTAINS THE PHOTOGRAPHIC VERSION OF THE STANDARD FIRE INSURANCE POLICY.

The General Assembly of North Carolina enacts:

SECTION 1. Article 44 of Chapter 58 of the General Statutes is amended by adding a new section to read:

"§ 58-44-16. Fire insurance policies; standard fire insurance policy provisions.

(a) The provisions of a fire insurance policy, as set forth in subsection (f) of this section, shall be known and designated as the "standard fire insurance policy."

(b) With the exception of policies covering (i) automobile fire, theft, comprehensive, and collision or (ii) marine and inland marine insurance, no fire insurance policy shall be made, issued, or delivered by any insurer or by any agent or representative of the insurer on any property in this State, unless it conforms in substance with all of the provisions, stipulations, agreements, and conditions in subsection (f) of this section.

(c) There shall be printed at the head of the policy the name of the insurer or insurers issuing the policy; the location of the home office of the insurer or insurers; a statement whether the insurer or insurers are stock or mutual corporations or are reciprocal insurers. This section does not limit an insurer to the use of any particular size or manner of folding the paper upon which the policy is printed; provided, however, that any insurer organized under special charter provisions may so indicate upon its policy and add a statement of the plan under which it operates in this State.

(d) The standard fire insurance policy need not be used for effecting reinsurance between insurers.

(e) The provisions of the standard fire policy are stated in this section and shall be incorporated in fire insurance policies subject to this section. If any conditions of this section are construed to be more liberal than any other policy conditions relating to the perils of fire, lightning, or removal, the provisions of this section shall apply.

(f) The following subdivisions comprise all of the provisions, stipulations, agreements, and conditions of the standard fire insurance policy:

(1) General provisions. – In consideration of the provisions, stipulations, agreements, and conditions in this policy or added to this policy, and of the premium specified in the declarations or in endorsements made a part of this policy, this insurer, for the term of years specified in the declarations from inception date shown in the declarations at 12:01 A.M. to expiration date shown in the declarations at 12:01 A.M. at the location of the property covered, to an amount not exceeding the limit of liability specified in the

declarations, does insure the insured named in the declarations and legal representatives to the extent of the actual cash value of the property at the time of loss but not exceeding the amount that it would cost to repair or replace the property with material of like kind and quality within a reasonable time after the loss, without allowance for any increased cost of repair or reconstruction by reason of any ordinance or law regulating construction or repair and without compensation for loss resulting from interruption of business or manufacture, nor in any event for more than the interest of the insured against all direct loss by fire, lightning, and other perils insured against in this policy, including removal from premises endangered by the perils insured against in this policy, except as hereinafter provided, to the property described in the declarations while located or contained as described in this policy, or pro rata for five days at each proper place to which any of the property shall necessarily be removed for preservation from the perils insured against in this policy but not elsewhere. Assignment of this policy shall not be valid except with the written consent of this insurer. This policy is made and accepted subject to the provisions, stipulations, agreements, and conditions in this section, which are hereby made a part of this policy, together with such other provisions, stipulations, agreements, and conditions that may be added to this policy as provided in this policy.

- (2) Concealment or fraud. – This entire policy shall be void if, whether before or after a loss, the insured has willfully concealed or misrepresented any material fact or circumstance concerning this insurance or the subject of this insurance, or the interest of the insured in the subject of this insurance, or in the case of any fraud or false swearing by the insured relating the subject of this insurance.
- (3) Uninsurable and excepted property. – This policy shall not cover accounts, bills, currency, deeds, evidences of debt, money, or securities; nor, unless specifically named in this policy in writing, bullion or manuscripts.
- (4) Perils not included. – This insurer shall not be liable for loss by fire or other perils insured against in this policy caused, directly or indirectly, by enemy attack by armed forces, including action taken by military, naval, or air forces in resisting an actual or an immediately impending enemy attack; invasion; insurrection; rebellion; revolution; civil war; usurped power; order of any civil authority except acts of destruction at the time of and for the purpose of preventing the spread of fire, provided that the fire did not originate from any of the perils excluded by this policy; neglect of the insured to use all reasonable means to save and preserve the property at and after a loss, or when the property is endangered by fire in neighboring premises; or for loss by theft.
- (5) Other insurance. – Other insurance may be prohibited or the amount of insurance may be limited by endorsement attached to this policy.
- (6) Conditions suspending or restricting insurance. – Unless otherwise provided in writing added to this policy, this insurer shall not be liable for loss occurring:
 - a. While the hazard is increased by any means within the control or knowledge of the insured;
 - b. While a described building, whether intended for occupancy by owner or tenant, is vacant or unoccupied beyond a period of 60 consecutive days; or
 - c. As a result of explosion or riot, unless fire ensues, and in that event for loss by fire only.

- (7) Other perils or subjects. – Any other peril to be insured against or subject of insurance to be covered in this policy shall be by endorsement in writing on this policy or added to this policy.
- (8) Added provisions. – The extent of the application of insurance under this policy and of the contribution to be made by this insurer in case of loss, and any other provision or agreement not inconsistent with the provisions of this policy, may be provided for in writing added to this policy; provided, however, no provision may be waived except such as by the terms of this policy is subject to change.
- (9) Waiver provisions. – No permission affecting this insurance shall exist, or waiver of any provision be valid, unless granted in this policy or expressed in writing added to this policy. No provision, stipulation, or forfeiture shall be held to be waived by any requirement or proceeding on the part of this insurer relating to appraisal or to any examination provided for in this policy.
- (10) Cancellation of policy. – This policy shall be cancelled at any time at the request of the insured, in which case this insurer shall, upon demand and surrender of this policy, refund the excess of paid premium above any short rates for the expired time. This policy may be cancelled at any time by this insurer by giving to the insured a five days' written notice of cancellation with or without tender of the excess of paid premium above the pro rata premium for the expired time, which excess, if not tendered, shall be refunded on demand. Notice of cancellation shall state that said excess premium (if not tendered) will be refunded on demand.
- (11) Mortgagee interests and obligations. – If loss is made payable, in whole or in part, to a designated mortgagee not named in this policy as the insured, such interest in this policy may be cancelled by giving to such a mortgagee a ten days' written notice of cancellation. If the insured fails to render proof of loss, the mortgagee, upon notice, shall render proof of loss as specified in this policy within 60 days thereafter and shall be subject to the provisions of this policy relating to appraisal and time of payment and of bringing suit. If this insurer claims that no liability existed as to the mortgagor or owner, it shall, to the extent of payment of loss to the mortgagee, be subrogated to all the mortgagee's rights of recovery, but without impairing the mortgagee's right to sue; or this insurer may pay off the mortgage debt and require an assignment of that debt and of the mortgage. Other provisions relating to the interests and obligations of the mortgagee may be added to this policy by agreement in writing.
- (12) Pro rata liability. – This insurer shall not be liable for a greater proportion of any loss than the amount insured by this policy bears to all insurance covering the property against the peril involved, whether collectible or not.
- (13) Requirements in case loss occurs. – The insured shall give immediate written notice to this insurer of any loss, protect the property from further damage, forthwith separate the damaged and undamaged personal property, put it in the best possible order, and furnish a complete inventory of the destroyed, damaged, and undamaged property, showing in detail quantities, costs, actual cash value, and amount of loss claimed. Within 60 days after the loss, unless that time is extended in writing by this insurer, the insured shall render to this insurer a proof of loss, signed and sworn to by the insured, stating the knowledge and belief of the insured as to the following: the time and origin of the loss, the interest of the insured and of all others in the property, the actual cash value of each item of the property and the amount of loss to the property, all encumbrances on the property, all other contracts

- of insurance, whether valid or not, covering any of the property, any changes in the title, use, occupation, location, possession, or exposures of the property since the issuing of this policy, by whom and for what purpose any building described in this policy and the several parts of the building were occupied at the time of loss and whether or not it then stood on leased ground, and shall furnish a copy of all the descriptions and schedules in all policies and, if required, verified plans and specifications of any building, fixtures, or machinery destroyed or damaged. The insured, as often as may be reasonably required, shall exhibit to any person designated by this insurer all that remains of any property described in this policy, and submit to examinations under oath by any person named by this insurer, and subscribe the same; and, as often as may be reasonably required, shall produce for examination all books of account, bills, invoices, and other vouchers, or certified copies of them if originals are lost, at such reasonable time and place as may be designated by this insurer or its representative, and shall permit extracts and copies of them to be made.
- (14) Appraisal. – If the insured and this insurer fail to agree as to the actual cash value or the amount of loss, then, on the written demand of either, each shall select a competent and disinterested appraiser and notify the other of the appraiser selected within 20 days after the demand. The appraisers shall first select a competent and disinterested umpire; and failing for 15 days to agree upon a competent and disinterested umpire, on the request of the insured or this insurer, a competent and disinterested umpire shall be selected by a judge of a court of record in the state in which the property covered is located. The appraisers shall then appraise the loss, stating separately actual cash value and loss to each item; and, failing to agree, shall submit only their differences to the umpire. An award in writing, so itemized, of any two when filed with this insurer shall determine the amount of actual cash value and loss. Each appraiser shall be paid by the party selecting him and the expenses of appraisal and umpire shall be paid by the parties equally.
- (15) Company's options. – It shall be optional with this insurer to take all, or any part, of the property at the agreed or appraised value and also to repair, rebuild, or replace the property destroyed or damaged with other of like kind and quality within a reasonable time, on giving notice of its intention so to do within 30 days after the receipt of the proof of loss required in this policy.
- (16) Abandonment. – There can be no abandonment to this insurer of any property.
- (17) When loss payable. – The amount of loss for which this insurer may be liable shall be payable 60 days after proof of loss, as provided in this policy, is received by this insurer and ascertainment of the loss is made either by written agreement between the insured and this insurer or by the filing with this insurer of an award as provided in this policy.
- (18) Suit. – No suit or action on this policy for the recovery of any claim shall be sustainable in any court of law unless all the requirements of this policy have been complied with and unless commenced within three years after inception of the loss.
- (19) Subrogation. – This insurer may require from the insured an assignment of all rights of recovery against a party for loss to the extent that payment therefor is made by this insurer."

written instrument or declaration of trust under which the beneficial interest therein is divided into shares represented by certificates or shares of beneficial interest."

SECTION 2. G.S. 39-46 reads as rewritten:

Any conveyance, encumbrance or other disposition thus made by any such business trust shall convey good and sufficient title to said real estate and interests therein in accordance with the provisions of said conveyance; provided, however, that with respect to any such conveyance, encumbrance or other disposition effected after June 28, 1977, there must be recorded in the county where the land lies a memorandum of the written instrument or declaration of trust referred to in G.S. 39-44. As a minimum such memorandum shall set forth the name, date and place of filing, if any, of such written instrument or declaration of trust, and the place where the written instrument or declaration of trust, and all amendments thereto, is kept and may be examined upon reasonable notice, which place need not be a public office. Such memorandum may include designation of trustees and duly authorized officers and the authority granted to them with regard to real estate matters, pursuant to subsection (b) of this section.

(b) Any business trust may convey or encumber an interest in real property that is transferable by either (i) an instrument duly executed by either an officer of the business trust other than one of its trustees, its president, a vice president, or other authorized agent identified in the recorded memorandum, or (ii) a declaration of trust described in subsection (a) of this section, if the conveyance has attached to it a signed resolution adopted by the board of trustees, as certified by an officer authorized to make such certifications of the business trust, authorizing the officer to execute, sign, seal, and deliver deeds, conveyances, or other instruments. This section is deemed to have been complied with if a resolution required by this subsection is recorded separately in the office of the register of deeds in the county where the land lies. Such a resolution shall be applicable to all instruments executed subsequently to the recording of the resolution and pursuant to its authority.

All deeds, conveyances, or other instruments so executed shall, if otherwise sufficient, be valid and shall have the effect to pass the title to the real or personal property described in the instrument. Notwithstanding anything to the contrary in the trust agreement, and absent any provision otherwise in the recorded memorandum or declaration of trust required under subsection (a) of this section, when it appears on the face of an instrument registered in the office of the register of deeds that the instrument was signed in the ordinary course of business on behalf of a business trust by at least one of its trustees, its president, a vice president, or an assistant vice president, such an instrument shall be as valid with respect to the rights of innocent third parties for value without notice of a defect or breach of fiduciary duty as if executed pursuant to authorization from the board of trustees, unless the instrument reveals on its face a breach of fiduciary obligation. The provisions of this subsection shall not apply to parties who had actual knowledge of lack of authority or of a breach of fiduciary obligation.

(c) Nothing in this section shall be deemed to exclude the power of any representatives of a business trust to bind the business trust pursuant to express, implied, inherent, or apparent authority, ratification, estoppel, or otherwise.

Notwithstanding G.S. 105-285 and G.S. 105-317, a county may change the value of real property after January 1, 2009, effective for the taxable year beginning July 1, 2009, based upon the schedule of values used to appraise real property in the county for its last reappraisal if the county adopted a resolution to postpone a 2009 reappraisal between January 1, 2009, and June 30, 2009. Session Law 2009-198**H.B. 1021****AN ACT TO DESIGNATE A PORTION OF U.S. HIGHWAY 17 AND U.S. HIGHWAY 70 AS "THE U.S. MARINE CORPS HIGHWAY: HOME OF THE CAROLINA-BASED MARINES SINCE 1941."**

Whereas, during 1940, amid the escalating mobilization of World War II, the 1st Marine Division and the 1st Marine Air Wings of the United States Marine Corps were in need of an operational staging area on the east coast of the United States; and

Whereas, in the summer of 1940, Major John C. McQueen and his pilot, Captain Verne McCaul, on the orders of then Major General Thomas Holcomb, Marine Corps Commandant, undertook an aerial survey that covered the Atlantic and Gulf Coasts from Norfolk, Virginia, to Corpus Christi, Texas, and determined that 14 miles of beach in Onslow County, North Carolina, was the only suitable location for a Marine Corps base in the Eastern United States; and

Whereas, in February 1941, President Roosevelt authorized an initial outlay of \$1,500,000 for the survey and purchase of a 174-square-mile tract near Jacksonville, North Carolina, and on April 5, 1941, the United States Congress authorized \$14,575,000 for the base's construction; and

Whereas, on May 1, 1941, the Marine Barracks New River was formally established as a major amphibious training ground and has grown since into the Marine Corps Base, Camp Lejeune, partly bounded by U.S. Highway 17 in Jacksonville, North Carolina; and

Whereas, from April 1942 until desegregation of the Marine Corps in 1949, Montford Point Camp in North Carolina was the exclusive training grounds for African-American Marines; and

Whereas, from 1943 until passage of the Women's Armed Service Integration Act in 1948, the New River Base was the principal training center for the women Marines, having trained over 20,000 women Marines; and

Whereas, in 1944 the United States Marine Corps assumed control of Camp Davis at Holly Ridge when the United States Army declared it excess to their needs and utilized it to train the Royal Netherlands Marine Corps; and

Whereas, other sites along or near U.S. Highway 17 in Eastern North Carolina have historical significance to the United States Marine Corps, including major air stations at Cherry Point and Edenton, North Carolina, and auxiliary or outlying landing fields at Atlantic Beach, Beaufort, Bogue, Greenville, Manteo, New River, Oak Grove, Washington, and Wilson; and

Whereas, the Museum of the Marine currently being planned at Camp Lejeune in Jacksonville, North Carolina, will honor the history of the Carolina-based Marines from World War II to the present and highlight the many historically significant locations along U.S. Highway 17; and

Whereas, estimates show that the Museum of the Marine has the potential to draw 100,000 visitors each year, and the designation of U.S. Highway 17 as a scenic byway will add to this attraction; and

Whereas, the General Assembly desires to honor the United States Marine Corps' large and enduring military presence at locations in Eastern North Carolina along U.S. Highway 17; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. U.S. Highway 17 running between the Town of Holly Ridge and the Town of Edenton, and the portion of U.S. Highway 70 running between the intersection of U.S. Highway 70 and N.C. Highway 101 near Cherry Point Marine Corps Air Station and the intersection of U.S. Highway 70 and U.S. Highway 17 is designated as "The U.S. Marine Corps Highway: Home of Carolina-Based Marines since 1941" in light of the historical contributions of the United States Marine Corps.

SECTION 2. The Department of Transportation shall collaborate with the Highway 17 Association, the Department of Commerce, and the Department of Cultural Resources concerning the appropriate signage along the Highway designated in this act, in order to maximize the economic development opportunities along the route of the Highway. The Department of Transportation may contract with nongovernmental entities to produce, install, and maintain the signs.

SECTION 2.1. No State funds shall be expended to purchase signage or for any other purpose authorized by this act. All costs shall be paid by the Marine Corps Parkway Association.

SECTION 3. This act is effective when it becomes law.

S.B. 448

AN ACT AMENDING THE LAWS REGULATING SELF-SERVICE STORAGE FACILITIES.

The General Assembly of North Carolina enacts:

SECTION 1. Article 4 of Chapter 44A of the General Statutes reads as rewritten:

"Article 4.
"Self-Service Storage Facilities.

...
"§ 44A-41. **Self-service storage facility owner entitled to lien.**

The owner of a self-service storage facility has a lien upon all personal property stored at the facility for rent, expenses necessary for the preservation of the personal property, and expenses reasonably incurred in the sale or other disposition of the personal property pursuant to this Article. This lien shall not have priority over any security interest which is perfected at the time the occupant stores the property at the self-service storage facility. For purposes of this Article, to identify an existing security interest in stored property, the owner shall conduct an online search for Uniform Commercial Code financing statements filed with the Office of the Secretary of State in the name of the occupant.

...
"§ 44A-43. **Enforcement of self-service storage facility lien.**

(a) If the rent and other charges for which the lien is claimed under this Article remain unpaid or unsatisfied for 15 days following the maturity of the obligation to pay rent, the owner may enforce the lien by a public sale or other disposition of the property as provided in this section. The owner may bring an action to collect rent and other charges in any court of competent jurisdiction at any time following the maturity of the obligation to pay the rent.

The occupant or any other person having a security or other interest in the property stored in the self-service storage facility may bring an action to request the immediate possession of the property, at any time following the assertion of the lien by the owner. Before such possession is granted, the occupant or the person with a security or other interest in the property shall pay the amount of the lien asserted to the clerk of court in which the action is pending, or post a bond for double the amount. The clerk shall then issue an order to the owner to relinquish possession of the property to the occupant or other party.

(b) Notice and Hearing:

- (1) If the property upon which the lien is claimed is a motor vehicle, the lienor, following the expiration of the 15-day period provided by subsection (a), shall give notice to the Division of Motor Vehicles that a lien is asserted and that a sale is proposed. The lienor shall remit to the Division a fee of two dollars (\$2.00); and shall also furnish the Division with the last known address of the occupant. The Division of Motor Vehicles shall issue notice by registered or certified mail, return receipt requested to the person having legal title to the vehicle, if reasonably ascertainable, and to the occupant, if different, at his last known address. The notice shall:
 - a. State: (i) that a lien is being asserted against the specific vehicle by the lienor or owner of the self-service storage facility, (ii) that the lien is being asserted for rental charges at the self-service storage facility, (iii) the amount of the lien, and (iv) that the lienor intends to sell or otherwise dispose of the vehicle in satisfaction of the lien;
 - b. Inform the person having legal title and the occupant of their right to a judicial hearing at which a determination will be made as to the validity of the lien prior to a sale taking place; and
 - c. State that the legal title holder and the occupant have a period of 10 days from the date of receipt of the notice in which to notify the Division of Motor Vehicles by registered or certified mail, return receipt requested, that a hearing is desired to contest the sale of the vehicle pursuant to the lien.

The person with legal title or the occupant must, within 10 days of receipt of the notice from the Division of Motor Vehicles, notify the Division of his desire to contest the sale of the vehicle pursuant to the lien, and that the Division should so notify lienor.

Failure of the person with legal title or the occupant to notify the Division that a hearing is desired shall be deemed a waiver of the right to a hearing prior to sale of the vehicle against which the lien is asserted. Upon such failure, the Division shall so notify the lienor; the lienor may proceed to enforce the lien by a public sale as provided by this section; and the Division shall transfer title to the property pursuant to such sale.

If the Division is notified within the 10-day period provided in this section that a hearing is desired prior to the sale, the lien may be enforced by a public sale as provided in this section and the Division will transfer title only pursuant to the order of a court of competent jurisdiction.

- (1a) If the property upon which the lien is claimed is a motor vehicle and rent and other charges related to the property remain unpaid or unsatisfied for 60 days following the maturity of the obligation to pay rent, the lienor may have the property towed. If a motor vehicle is towed as authorized in this subdivision, the lienor shall not be liable for the motor vehicle or any damages to the motor vehicle once the tower takes possession of the property.
- (2) If the property upon which the lien is claimed is other than a motor vehicle, the lienor following the expiration of the 15-day period provided by subsection (a) shall issue notice to the person having a security or other interest in the property, if reasonably ascertainable, and to the occupant, if different, at his last known ~~address by registered or certified mail, return receipt requested.~~ address. - b. Provide a brief and general description of the personal property subject to the lien. The description shall be reasonably adequate to permit the person notified to identify it, except that any container including, but not limited to, a trunk, valise, or box that is locked, fastened, sealed, or tied in a manner which deters immediate access to its contents may be described as such without describing its contents;
- c. Inform the person with a security or other interest in the property and occupant, if different, of their right to a judicial hearing at which a determination will be made as to the validity of the lien prior to a sale taking place;
- d. State that the person with a security or other interest in the property or the occupant, if different, has a period of 10 days from the date of ~~receipt~~ the mailing of the notice to notify the lienor by registered, or certified mail, return receipt requested, that a hearing is desired, and that if the legal title holder or occupant wishes to contest the sale of his property pursuant to the lien he should notify the lienor that a hearing is desired.

The person with a security or other interest in the property or the occupant must, within 10 days ~~of receipt~~ from the date of the mailing of the notice from the lienor, notify the lienor of his desire for a hearing, and state whether or not he wishes to contest the sale of the property pursuant to the lien.

Failure of the person with a security or other interest in the property, or the occupant to notify the lienor that a hearing is desired shall be deemed a waiver of the right to a hearing

prior to the sale of the property against which the lien is asserted. Upon such failure the lienor may proceed to enforce the lien by a public sale as provided by this section. Upon the expiration of the 10-day notice, the occupant's tenancy shall be terminated, and the lienor may move the occupant's property to another place of safekeeping.

If the lienor is notified, within the 10-day period as provided by this section, that a hearing is desired prior to the sale, the lien may be enforced by a public sale as provided in this section only pursuant to the order of a court of competent jurisdiction.

(c) Public Sale. –

(1) Not less than 20 days prior to sale by public sale the lienor:

- a. ~~Shall cause notice to be mailed delivered by registered or certified mail to the person having legal title to a security interest in the property if reasonably ascertainable, and to the occupant if different, and to each secured party or other person claiming an interest in the property who is actually known to the lienor or can be reasonably ascertained, provided that notices provided pursuant to subsection (b) hereof shall be sufficient for these purposes if such notices contain the information required by subsection (d) hereof, and at the occupant's last known address. Notice given pursuant to this subdivision shall be presumed delivered when it is properly addressed, first-class postage prepaid, and deposited with the United States Postal Service.~~
- b. ~~Shall advertise the sale by posting a copy of the notice of sale at the courthouse door in the county where the sale is to be held; and shall publish notice of sale once a week for two consecutive weeks in a newspaper of general circulation in the same county, the date of the last publication being not less than five days prior to the sale.~~

(1a) Not less than five days prior to sale by public sale, the lienor shall publish notice of sale in a newspaper of general circulation in the county where the sale is to be held. If there is no newspaper of general circulation in the county where the sale is to be held, notice of sale shall be published in any publication that accepts classified advertisements and has a general circulation in the county where the sale is to be held.

(2) The sale must be held on a day other than Sunday and between the hours of 9:00 A.M. and 4:00 P.M.:

- a. At the self-service storage facility or at the nearest suitable place to where the property is held or stored; or

"§ 44A-44. Right of redemption; good faith purchaser's right; disposition of proceeds; lienor's liability.

(a) Before the sale authorized by G.S. 44A-43, or other disposition of the property, the occupant may pay the amount necessary to satisfy the lien plus the reasonable expenses incurred by the owner for the preservation of the property and thereby redeem the property. Upon receipt of such payment, the owner shall return the personal property to the occupant; and thereafter shall have no further claim against such personal property on account of the lien which was asserted. The partial payment of rent or other charges shall not satisfy the lien or

...
"§ 44A-44.1. Possession vested in occupant.

Unless the rental agreement specifically provides otherwise, the exclusive care, custody, and control of all personal property stored in a storage space at a self-service storage facility shall remain vested in the occupant until the property is sold as provided in this Article or otherwise disposed of. The owner of a self-service storage facility is a commercial landlord who rents space. Unless the rental agreement specifically provides otherwise, while the personal property remains on the owner's premises, the owner is liable for damage caused by the intentional acts or negligence of the owner or the owner's employees.

"§ 62-110. Certificate of convenience and necessity.

...
 (f1) Except as provided in subsection (f2) of this section, the Commission is authorized, following notice and an opportunity for interested parties to be heard, to issue a certificate to any person applying to provide local exchange or exchange access services as a public utility as defined in G.S. 62-3(23) a.6., without regard to whether local telephone service is already being provided in the territory for which the certificate is sought, provided that the person seeking to provide the service makes a satisfactory showing to the Commission that (i) the person is fit, capable, and financially able to render such service; (ii) the service to be provided will reasonably meet the service standards that the Commission may adopt; (iii) the provision of the service will not adversely impact the availability of reasonably affordable local exchange service; (iv) the person, to the extent it may be required to do so by the Commission, will participate in the support of universally available telephone service at affordable rates; and (v) the provision of the service does not otherwise adversely impact the public interest. In its application for certification, the person seeking to provide the service shall set forth with particularity the proposed geographic territory to be served and the types of local exchange and exchange access services to be provided. Except as provided in G.S. 62-133.5(f), any person receiving a certificate under this section shall, until otherwise determined by the Commission, file and maintain with the Commission a complete list of the local exchange and exchange access services to be provided and the prices charged for those services, and shall be subject to such reporting requirements as the Commission may require.

Any certificate issued by the Commission pursuant to this subsection shall not permit the provision of local exchange or exchange access service until July 1, 1996, unless the Commission shall have approved a price regulation plan pursuant to G.S. 62-133.5(a) for a local exchange company with an effective date prior to July 1, 1996. In the event a price regulation plan becomes effective prior to July 1, 1996, the Commission is authorized to permit the provision of local exchange or exchange access service by a competing local provider in the franchised area of such local exchange company.

The Commission is authorized to adopt rules it finds necessary (i) to provide for the reasonable interconnection of facilities between all providers of telecommunications services; (ii) to determine when necessary the rates for such interconnection; (iii) to provide for the reasonable unbundling of essential facilities where technically and economically feasible; (iv) to provide for the transfer of telephone numbers between providers in a manner that is technically and economically reasonable; (v) to provide for the continued development and encouragement of universally available telephone service at reasonably affordable rates; and (vi) to carry out the provisions of this subsection in a manner consistent with the public interest, which will include a consideration of whether and to what extent resale should be permitted. In adopting rules to establish an appropriate definition of universal service, the Commission shall consider evolving trends in telecommunications services and the need for consumers to have access to high-speed communications networks, the Internet, and other services to the extent that those services provide social benefits to the public at a reasonable cost.

Local exchange companies and competing local providers shall negotiate the rates for local interconnection. In the event that the parties are unable to agree within 90 days of a bona fide request for interconnection on appropriate rates for interconnection, either party may petition the Commission for determination of the appropriate rates for interconnection. The Commission shall determine the appropriate rates for interconnection within 180 days from the filing of the petition.

Except as provided in subsections (f4) and (f5) of this section, each local exchange company shall be the universal service provider (carrier of last resort) in the area in which it is certificated to operate on July 1, 1995. Each local exchange company or telecommunications service provider with carrier of last resort responsibility may satisfy its carrier of last resort obligation by using any available technology. In continuing this State's commitment to universal service, the Commission shall, by December 31, 1996, adopt interim rules that designate the person that should be the universal service provider and to determine whether universal service should be funded through interconnection rates or through some other funding mechanism. At a time determined by the Commission to be in the public interest, the Commission shall conduct an investigation for the purpose of adopting final rules concerning the provision of universal services, and whether universal service should be funded through interconnection rates or through some other funding mechanism, and, consistent with the provisions of subsections (f4) and (f5) of this section, the person that should be the universal service provider.

The Commission shall make the determination required pursuant to this subsection in a manner that furthers this State's policy favoring universally available telephone service at reasonable rates.

...

(f3) The provisions of subsection (f1) of this section shall not be applicable to areas served by telephone membership corporations formed and existing under Article 4 of Chapter 117 of the General Statutes and exempt from regulation as public utilities, pursuant to G.S. 62-3(23)d. and G.S. 117-35. To the extent a telephone membership corporation has carrier of last resort obligations, it may fulfill those obligations using any available technology.

(f4) When any telecommunications service ~~provider~~ provider: (i) enters into an agreement to provide local exchange service for a subdivision or other area where access to right-of-way for the provision of local exchange service by other telecommunications service providers has not been granted coincident with any other grant of access by the property ~~owner,~~ owner; or (ii) enters into an agreement after July 1, 2008, to provide communications service that otherwise precludes the local exchange company from providing communications service for the subdivision or other area, the local exchange company is not obligated to provide basic local exchange telephone service or any other communications service to customers in the subdivision or other area. In each of the foregoing instances, the telecommunications service provider entering into the agreement shall be the universal service provider in the subdivision or other area-area under the terms of the agreement and applicable

~~law. If the~~The local exchange company for the franchise area or territory in which the subdivision or other area is located ~~is not a party to the agreement, the local exchange company~~ shall be relieved of any universal service provider obligation for that subdivision or other area. In that case, the local exchange company and all other telecommunications service providers shall retain the option, but not the obligation, to serve customers in the subdivision or other area. The local exchange company shall provide written notification to the appropriate State agency that ~~it the local exchange company~~ is no longer the universal service provider for the subdivision or other area. The appropriate State agency shall retain the right to redesignate a local exchange company or telecommunications service provider as the universal service provider in accordance with the provisions of subsection (f5) of this section. Any person that enters into an agreement with a telecommunications service provider to provide local exchange service for a subdivision or other area as described in this subsection shall notify a purchaser of real property within the subdivision or other area of the agreement.

For any circumstance not described in this subsection, a local exchange company may be granted a waiver of its carrier of last resort obligation in a subdivision or other area by the appropriate State agency based upon a showing by the local exchange company of all of the following:

- (1) Providing service in the subdivision or area would be inequitable or unduly burdensome.
- (2) One or more alternative providers of local exchange service exist.
- (3) Granting the waiver is in the public interest.

(f5) If the appropriate State agency finds, upon hearing, that the telecommunications service provider ~~that entered into the agreement,~~ serving the subdivision or other area pursuant to subsection (f4) of this section, or its successor in interest, is no longer willing or no longer able to provide adequate services to the subdivision or other area, the appropriate State agency may redesignate the local exchange company for the franchise area or territory in which the subdivision or other area is located, or another telecommunications service provider, to be the universal service provider for the subdivision or other area. If the redesignated local exchange company is subject to price regulation or other alternative regulation under G.S. 62-133.5, it may treat the costs incurred in extending its facilities into the subdivision or other area as exogenous to that form of regulation and may, subject to providing written notice to the Commission, adjust its rates to recover these costs on an equitable basis from its customers whose rates are subject to regulation under G.S. 62-133.5. Any such action shall be subject to review by the Commission in a complaint proceeding initiated by any interested party pursuant to G.S. 62-73. If the redesignated local exchange company is not subject to price regulation or other alternative regulation under G.S. 62-133.5, it may recover the costs incurred in extending its facilities into the subdivision or other area in the form of a surcharge, subject to Commission approval, spread equitably among all of its customers in a proceeding under G.S. 62-136(a), without having to file a general rate case proceeding. During the period that a telecommunications service provider is serving as a universal service provider and prior to the redesignation of a local exchange company as the universal service provider as provided for herein, for the purposes of the appropriate State agency's periodic certification to the Federal Communications Commission in matters regarding eligible telecommunications carrier status, a local company's status shall not be deemed to affect its eligibility to be an eligible telecommunications carrier, and the appropriate State agency shall so certify.

(f6) For purposes of subsections (f4) and (f5) of this section, the following definitions are applicable:

- (1) "Appropriate State agency" means the Commission for purposes of any subdivision or other area within the franchise area of a local exchange company, and the Rural Electrification Authority for the purposes of any subdivision or other area within the franchise area or territory of a telephone membership corporation.

- (2) "Local exchange company" means a local exchange company subject to price regulation, or other alternative regulation or rate base regulation by the Commission or a telephone membership corporation organized under G.S. 117-30.
- (3) "Telecommunications service provider" means a competing local provider, or any other person providing local exchange service by means of voice-over-Internet protocol, wireless, power line, satellite, or other nontraditional means, whether or not regulated by the Commission, but the term shall not include local exchange companies or telephone membership corporations.
- (4) "Communications service" means either voice, video, or data service through any technology.

Whereas, bullying and harassing behaviors create a climate that fosters violence in our schools; and

Whereas, it is essential to enact a law that seeks to protect the health and welfare of North Carolina students and improve the learning environment for North Carolina students; and

Whereas, to do so, State and national data and anecdotal evidence have established the need to identify the most vulnerable targets and potential victims of bullying and harassment; and

Whereas, the sole purpose of this law is to protect all children from bullying and harassment, and no other legislative purpose is intended nor should any other intent be construed from passage of this law; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. Subchapter VI of Chapter 115C of the General Statutes is amended by adding a new Article to read:

"Article 29B.

"School Violence Prevention.

"§ 115C-407.5. Bullying and harassing behavior.

(a) As used in this Article, "bullying or harassing behavior" is any pattern of gestures or written, electronic, or verbal communications, or any physical act or any threatening communication, that takes place on school property, at any school-sponsored function, or on a school bus, and that:

- (1) Places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property; or
- (2) Creates or is certain to create a hostile environment by substantially interfering with or impairing a student's educational performance, opportunities, or benefits. For purposes of this section, "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that it is bullying or harassing behavior.

Bullying or harassing behavior includes, but is not limited to, acts reasonably perceived as being motivated by any actual or perceived differentiating characteristic, such as race, color, religion, ancestry, national origin, gender, socioeconomic status, academic status, gender identity, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics.

(b) No student or school employee shall be subjected to bullying or harassing behavior by school employees or students.

(c) No person shall engage in any act of reprisal or retaliation against a victim, witness, or a person with reliable information about an act of bullying or harassing behavior.

(d) A school employee who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior shall report the incident to the appropriate school official.

(e) A student or volunteer who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior should report the incident to the appropriate school official.

"§ 115C-407.6. Policy against bullying or harassing behavior.

(a) Before December 31, 2009, each local school administrative unit shall adopt a policy prohibiting bullying or harassing behavior.

(b) The policy shall contain, at a minimum, the following components:

- (1) A statement prohibiting bullying or harassing behavior.
- (2) A definition of bullying or harassing behavior no less inclusive than that set forth in this Article.
- (3) A description of the type of behavior expected for each student and school employee.
- (4) Consequences and appropriate remedial action for a person who commits an act of bullying or harassment.

- (5) A procedure for reporting an act of bullying or harassment, including a provision that permits a person to report such an act anonymously. This shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.
- (6) A procedure for prompt investigation of reports of serious violations and complaints of any act of bullying or harassment, identifying either the principal or the principal's designee as the person responsible for the investigation.
- (7) A statement that prohibits reprisal or retaliation against any person who reports an act of bullying or harassment, and the consequence and appropriate remedial action for a person who engages in reprisal or retaliation.
- (8) A statement of how the policy is to be disseminated and publicized, including notice that the policy applies to participation in school-sponsored functions.

(c) Nothing in this Article shall prohibit a local school administrative unit from adopting a policy that includes components beyond the minimum components provided in this section or that is more inclusive than the requirements of this Article.

(d) Notice of the local policy shall appear in any school unit publication that sets forth the comprehensive rules, procedures, and standards of conduct for schools within the school unit and in any student and school employee handbook.

(e) Information regarding the local policy against bullying or harassing behavior shall be incorporated into a school's employee training program.

(f) To the extent funds are appropriated for these purposes, a local school administrative unit shall, by March 1, 2010, provide training on the local policy to school employees and volunteers who have significant contact with students.

"§ 115C-407.7. Prevention of school violence.

Schools shall develop and implement methods and strategies for promoting school environments that are free of bullying or harassing behavior.

"§ 115C-407.8. Construction of this Article.

(a) This Article shall not be construed to permit school officials to punish student expression or speech based on an undifferentiated fear or apprehension of disturbance or out of a desire to avoid the discomfort and unpleasantness that always accompany an unpopular viewpoint.

(b) This Article shall not be interpreted to prevent a victim of bullying or harassing behavior from seeking redress under any other available law, either civil or criminal.

(c) Nothing in this Article shall be construed to require an exhaustion of the administrative complaint process before civil or criminal law remedies may be pursued regarding bullying or harassing behavior.

(d) The provisions of this Article are severable, and if any provision of this Article is held invalid by a court of competent jurisdiction, the invalidity shall not affect other provisions of this Article which can be given effect without the invalid provision.

(e) The provisions of this Article shall be liberally construed to give effect to its purposes.

(f) Nothing in this act shall be construed to create any classification, protected class, suspect category, or preference beyond those existing in present statute or case law."

If the March 1, 2017 monitoring report or any subsequent monitoring report for the Haw River Arm or the Lower New Hope Creek Arm of Jordan Reservoir required under Section 3(c) of this act shows that nutrient-related water quality standards are not being achieved, a municipality or county located in whole or in part in the subwatershed of that arm of Jordan Reservoir shall develop and implement a Stage 2 adaptive management program to control nutrient loading from existing development within the subwatershed, as provided in this act. The Department shall defer development and implementation of Stage 2 adaptive management programs to control nutrient loading from existing development required in a subwatershed by this subdivision if it determines that additional reductions in nutrient loading from existing development in that subwatershed will not be necessary to achieve nutrient-related water quality standards. In making this determination, the Department shall consider the anticipated effect of measures implemented or scheduled to be implemented to reduce nutrient loading from sources in the subwatershed other than existing development. If any subsequent monitoring report for an arm of Jordan Reservoir required under Section 3(c) of this act shows that nutrient-related water quality standards have not been achieved, the Department shall notify the municipalities and counties located in whole or in part in the subwatershed of that arm of Jordan Reservoir and the municipalities and counties shall develop and implement a Stage 2 adaptive management program as provided in this subdivision.

- b. The Department shall establish a load reduction goal for existing development for each municipality and county required to implement a Stage 2 adaptive management program to control nutrient loading from existing development. The load reduction goal shall be designed to achieve, relative to the baseline period 1997 through 2001, an eight percent (8%) reduction in nitrogen loading and a five percent (5%) reduction in phosphorus loading reaching Jordan Reservoir from existing developed lands within the police power jurisdiction of the local government. The baseline load shall be calculated by applying the Tar-Pamlico Nutrient Export Calculation Worksheet, Piedmont Version, dated October 2004, to acreages of different types of existing development within the police power jurisdiction of the local government during the baseline period. The baseline load may also be calculated using an equivalent or more accurate method acceptable to the Department and recommended by the Scientific Advisory Board established pursuant to Section 4(a) of this act. The baseline load for a municipality or county shall not include nutrient loading from lands under State or federal control or lands in agriculture or forestry. The load reduction goal shall be adjusted to account for nutrient loading increases from lands developed subsequent to the baseline period but prior to implementation of new development stormwater programs.

- c. Based on findings under sub-subdivision a. of this subdivision, the Department shall notify the local governments in each subwatershed that either:
 - 1. Implementation of a Stage 2 adaptive management program to control nutrient loading from existing development will be necessary to achieve water quality standards in an arm of the reservoir and direct the municipalities and counties in the subwatershed to develop a load reduction program in compliance with this section.
 - 2. Implementation of a Stage 2 adaptive management program to control nutrient loading from existing development is not necessary at that time but will be reevaluated in three years based on the most recent water quality monitoring information.
- d. A local government receiving notice of the requirement to develop and implement a Stage 2 adaptive management program to control nutrient loading from existing development under this section shall not be required to submit a program if the local government demonstrates that it has already achieved the reductions in nutrient loadings required by sub-subdivision b. of this subdivision.
- e. Within six months after receiving notice to develop and implement a Stage 2 adaptive management program to control nutrient loading from existing development, each local government shall submit to the Commission a program that is designed to achieve the reductions in nutrient loadings established by the Department pursuant to sub-subdivision b. of this subdivision. A local government program may include nutrient management strategies that are not included in the model program developed pursuant to Section 3(e) of this act in addition to or in place of any component of the model program. In addition, a local government may satisfy the requirements of this subdivision through reductions in nutrient loadings from other sources in the same subwatershed to the extent those reductions go beyond measures otherwise required by statute or rule. A local government may also work with other local governments within the same subwatershed to collectively meet the required reductions in nutrient loadings from existing development within their combined jurisdictions. Any credit for reductions achieved or obtained outside of the police power jurisdiction of a local government shall be adjusted based on transport factors established by the Department document Nitrogen and Phosphorus Delivery from Small Watersheds to Jordan Lake, dated June 30, 2002.
- f. Within six months following submission of a local government's Stage 2 adaptive management program to control nutrient loading from existing development, the Department shall recommend that the Commission approve or disapprove the program. The Commission shall approve the program if it meets the requirements of this subdivision, unless the Commission finds that the local government can, through the implementation of reasonable and cost-effective measures not included in the proposed program, meet the reductions in nutrient loading established by the Department pursuant to sub-subdivision b. of this subdivision by a date earlier than that proposed by the local government. If the Commission finds that there are additional or alternative reasonable and cost-effective measures,

the Commission may require the local government to modify its proposed program to include such measures to achieve the required reductions by the earlier date. If the Commission requires such modifications, the local government shall submit a modified program within two months. The Department shall recommend that the Commission approve or disapprove the modified program within three months after receiving the local government's modified program. In determining whether additional or alternative load reduction measures are reasonable and cost effective, the Commission shall consider factors including, but not limited to, the increase in the per capita cost of a local government's stormwater management program that would be required to implement such measures and the cost per pound of nitrogen and phosphorus removed by such measures. The Commission shall not require additional or alternative measures that would require a local government to:

1. Install or require installation of a new stormwater collection system in an area of existing development unless the area is being redeveloped.
 2. Acquire developed private property.
 3. Reduce or require the reduction of impervious surfaces within an area of existing development unless the area is being redeveloped.
- g. Within three months after the Commission's approval of a Stage 2 adaptive management program to control nutrient loading from existing development, the local government shall complete adoption and begin implementation of its program.
- h. Each local government implementing a Stage 2 adaptive management program to control nutrient loading from existing development shall submit an annual report to the Department summarizing its activities in implementing its program.
- i. If at any time the Department finds, based on water quality monitoring, that an arm of the Jordan Reservoir has achieved compliance with water quality standards, the Department shall notify the local governments in the subwatershed. Subject to the approval of the Commission, a local government may modify its Stage 2 adaptive management program to control nutrient loading from existing development to maintain only those measures necessary to prevent increases in nutrient loading from existing development.

SECTION 3.(e) Model Stage 2 Adaptive Management Program to Control Nutrient Loading From Existing Development. – No later than July 1, 2013, the Department shall submit a model Stage 2 adaptive management program to control nutrient loading from existing development to the Commission for approval. The model program shall identify specific load reduction practices and programs and reduction credits associated with each practice or program and shall provide that a local government may obtain additional or alternative load-reduction credits based on site-specific monitoring data. In developing the model program, the Department shall consider the findings and recommendations of the Scientific Advisory Board established pursuant to Section 4(a) of this act and comments submitted by municipalities and counties identified in 15A NCAC 02B .0262(7) (Jordan Water Supply Nutrient Strategy: Purpose and Scope). The Commission shall review the model program and either approve the program or return it to the Department with requested changes. The Department shall revise the model program to address changes requested by the

Commission. The Commission shall approve a final model program no later than December 31, 2013.

SECTION 3.(f) Additional Measures to Reduce Nitrogen Loading From Existing Development in the Upper New Hope Creek Arm of the Jordan Reservoir. – If the March 1, 2023, monitoring report or any subsequent monitoring report for the Upper New Hope Creek Arm of Jordan Reservoir shows that nutrient-related water quality standards are not being achieved, a municipality or county located in whole or in part in the Upper New Hope Creek Subwatershed shall modify its Stage 2 adaptive management program to control nutrient loading from existing development to achieve additional reductions in nitrogen loading from existing development. The modified Stage 2 adaptive management program shall be designed to achieve a total reduction in nitrogen loading from existing development of thirty-five percent (35%) relative to the baseline period 1997 through 2001. The Department shall notify local governments of the requirement to submit a modified Stage 2 adaptive management program. Submission, review and approval, and implementation of a modified Stage 2 adaptive management program shall follow the process, timeline, and standards set out in sub-subdivisions e. through g. of subdivision (2) of Section 3(d) of this act.

SECTION 3.(g) Enforcement. – The Department shall enforce the provisions of this act as provided in G.S. 143-215.6A, 143-215.6B, and 143-215.6C.

SECTION 3.(h) Collective Compliance. – Local governments that are subject to regulation under this act may establish collective programs to comply with the requirements of this act.

SECTION 3.(i) Report. – The Department shall report annually to the Commission regarding the implementation of adaptive management programs to control nutrient loading from existing development in the Jordan watershed.

SECTION 3.(j) Additional Rule-Making Authority. – The Commission shall adopt a rule to replace Sections 3(c) through 3(i) of this act. Notwithstanding G.S. 150B-19(4), the rule adopted by the Commission pursuant to this section shall be substantively identical to the provisions of Sections 3(c) through 3(f) of this act. Rules adopted pursuant to this section are not subject to G.S. 150B-21.9 through G.S. 150B-21.14. Rules adopted pursuant to this section shall become effective as provided in G.S. 150B-21.3(b1) as though 10 or more written objections had been received as provided by G.S. 150B-21.3(b2).

SECTION 3.(k) No Change to Existing Regulatory Authority. – Nothing in this act shall be construed to limit, expand, or modify the authority of the Commission to undertake alternative regulatory actions otherwise authorized by State or federal law, including, but not limited to, the reclassification of waters of the State pursuant to G.S. 143-214.1, the revision of water quality standards pursuant to G.S. 143-214.3, and the granting of variances pursuant to G.S. 143-215.3.

SECTION 4.(a) Scientific Advisory Board for Nutrient-Impaired Waters Established. – No later than July 1, 2010, the Secretary shall establish a Nutrient Sensitive Waters Scientific Advisory Board. The Scientific Advisory Board shall consist of no fewer than five and no more than 10 members with the following expertise or experience:

- (1) Representatives of one or more local governments in the Jordan Reservoir watershed. Local government representatives shall have experience in stormwater management, flood control, or management of a water or wastewater utility.
- (2) One member with at least 10 years of professional or academic experience relevant to the management of nutrients in impaired water bodies and possessing a graduate degree in a related scientific discipline, such as aquatic science, biology, chemistry, geology, hydrology, environmental science, engineering, economics, or limnology.
- (3) One professional engineer with expertise in stormwater management, hydrology, or flood control.

- (4) One representative of the Department of Transportation with expertise in stormwater management.
- (5) One representative of a conservation organization with expertise in stormwater management, urban landscape design, nutrient reduction, or water quality.

SECTION 4.(b) Duties. – No later than July 1, 2012, the Scientific Advisory Board shall do all of the following:

- (1) Identify management strategies that can be used by local governments to reduce nutrient loading from existing development.
- (2) Evaluate the feasibility, costs, and benefits of implementing the identified management strategies.
- (3) Develop an accounting system for assignment of nutrient reduction credits for the identified management strategies.
- (4) Identify the need for any improvements or refinements to modeling and other analytical tools used to evaluate water quality in nutrient-impaired waters and nutrient management strategies.

SECTION 4.(c) Report; Miscellaneous Provisions. – The Scientific Advisory Board shall also advise the Secretary on any other issue related to management and restoration of nutrient-impaired water bodies. The Scientific Advisory Board shall submit an annual report to the Secretary no later than July 1 of each year concerning its activities, findings, and recommendations. Members of the Scientific Advisory Board shall be reimbursed for reasonable travel expenses to attend meetings convened by the Department for the purposes set out in this section.

SECTION 5. No Preemption. – A local government may adopt and implement a stormwater management program that contains provisions that are more restrictive than the standards set forth in Sections 2 and 3 of this act or in any rules concerning stormwater management in the Jordan watershed adopted by the Commission. This section shall not be construed to authorize a local government to impose stormwater management requirements on lands in agriculture or forestry.

SECTION 6. Construction of Act. –

- (1) Except as specifically provided in Sections 2(c) and 3(j) of this act, nothing in this act shall be construed to limit, expand, or otherwise alter the authority of the Commission or any unit of local government.
- (2) This act shall not be construed to affect any delegation of any power or duty by the Commission to the Department or subunit of the Department.

SECTION 7. Note to Revisor of Statutes. – Notwithstanding G.S. 164-10, the Revisor of Statutes shall not codify any of the provisions of this act. The Revisor of Statutes shall set out the text of Section 2 of this act as a note to G.S. 143-215.1 and may make notes concerning this act to other sections of the General Statutes as the Revisor of Statutes deems appropriate. The Revisor of Statutes shall set out the text of Section 3 of this act as a note to G.S. 143-214.7 and may make notes concerning this act to other sections of the General Statutes as the Revisor of Statutes deems appropriate.

S.B. 1010

AN ACT TO AUTHORIZE THE WILDLIFE RESOURCES COMMISSION TO ADOPT SEASON STRUCTURES FOR MIGRATORY GAME BIRD SEASONS AND TO ALLOW THE USE OF UNPLUGGED SHOTGUNS AND ELECTRONIC CALLS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 113-291.2 reads as rewritten:

"§ 113-291.2. **Seasons and bag limits on wild animals and birds; including animals and birds taken in bag; possession and transportation of wildlife after taking.**

(a) In accordance with the supply of wildlife and other factors it determines to be of public importance, the Wildlife Resources Commission may fix seasons and bag limits upon the wild animals and wild birds authorized to be taken that it deems necessary or desirable in the interests of the conservation of wildlife resources. The authority to fix seasons includes the closing of seasons completely when necessary and fixing the hours of hunting. The authority to fix bag limits includes the setting of season and possession limits. Different seasons and bag limits may be set in differing areas; early or extended seasons and different or unlimited bag limits may be authorized on controlled shooting preserves, game lands, and public hunting grounds; and special or extended seasons may be fixed for those engaging in falconry, using primitive weapons, or taking wildlife under other special conditions.

Unless modified by rules of the Wildlife Resources ~~Commission~~, Commission or as provided in subsection (f) of this section, the seasons, shooting hours, bag limits, and possession limits fixed by the United States Department of Interior or any successor agency for

migratory game birds in North Carolina must be followed, and a violation of the applicable federal rules is hereby made unlawful. When the applicable federal rules require that the State limit participation in seasons and/or bag limits for migratory game birds, the Wildlife Resources Commission may schedule managed hunts for migratory game birds. Participants in such hunts shall be selected at random by computer, and each applicant 16 years of age or older shall have the required general hunting license and the waterfowl hunting license prior to the drawing for the managed hunt. Each applicant under 16 years of age shall either have the required general hunting license and the waterfowl hunting license or shall apply as a member of a party that includes a properly licensed adult. All applications for managed waterfowl hunts shall be screened prior to the drawing for compliance with these requirements. A nonrefundable fee of ten dollars (\$10.00) shall be required of each applicant to defray the cost of processing the applications.

(a1) When the Executive Director of the Wildlife Resources Commission receives a petition from the State Health Director declaring a rabies emergency for a particular county or district pursuant to G.S. 130A-201, the Executive Director of the Wildlife Resources Commission shall develop a plan to reduce the threat of rabies exposure to humans and domestic animals by foxes, raccoons, skunks, or bobcats in the county or district. The plan shall be based upon the best veterinary and wildlife management information and techniques available. The plan may involve a suspension or liberalization of any regulatory restriction on the taking of foxes, raccoons, skunks, or bobcats, except that the use of poisons, other than those used with dart guns, shall not be permitted under any circumstance. If the plan involves a suspension or liberalization of any regulatory restriction on the taking of foxes, raccoons, skunks, or bobcats, the Executive Director of the Wildlife Resources Commission shall prepare and adopt temporary rules setting out the suspension or liberalization pursuant to G.S. 150B-21.1(a)(1). The Executive Director shall publicize the plan and the temporary rules in the major news outlets that serve the county or district to inform the public of the actions being taken and the reasons for them. Upon notification by the State Health Director that the rabies emergency no longer exists, the Executive Director of the Wildlife Resources Commission shall cancel the plan and repeal any rules adopted to implement the plan. The Executive Director of the Wildlife Resources Commission shall publicize the cancellation of the plan and the repeal of any rules in the major news outlets that serve the county or district.

(b) Any individual hunter or trapper who in taking a wild animal or bird has wounded or otherwise disabled it must make a reasonable effort to capture and kill the animal or bird. All animals and birds taken that can be retrieved must be retrieved and counted with respect to any applicable bag limits governing the individual taking the animal or bird.

(c) An individual who has lawfully taken game within applicable bag, possession, and season limits may, except as limited by rules adopted pursuant to subsection (c1) of this section, after the game is dead, possess and personally transport it for his own use by virtue of his hunting license, and without any additional permit, subject to tagging and reporting requirements that may apply to the fox and big game, as follows:

- (1) In an area in which the season is open for the species, the game may be possessed and transported without restriction.
- (2) The individual may possess and transport the game lawfully taken on a trip:
 - a. To his residence;
 - b. To a preservation or processing facility that keeps adequate records as prescribed in G.S. 113-291.3(b)(3) or a licensed taxidermist;
 - c. From a place authorized in subparagraph b to his residence.
- (3) The individual may possess the game indefinitely at his residence, and may there accumulate lawfully-acquired game up to the greater of:
 - a. The applicable possession limit for each species; or
 - b. One half of the applicable season limit for each species.

The above subdivisions apply to an individual hunter under 16 years of age covered by the license issued to his parent or guardian, if he is using that license, or by the license of an adult

accompanying him. An individual who has lawfully taken game as a landholder without a license may possess and transport the dead game, taken within applicable bag, possession, and season limits, to his residence. He may indefinitely retain possession of such game, within aggregate possession limits for the species in question, in his residence.

(c1) In the event that the Executive Director finds that game carcasses or parts of game carcasses are known or suspected to carry an infectious or contagious disease that poses an imminent threat to the health or habitat of wildlife species, the Wildlife Resources Commission shall adopt rules to regulate the importation, transportation, or possession of those carcasses or parts of carcasses that, according to wildlife disease experts, may transmit such a disease.

(d) Except in the situations specifically provided for above, the Wildlife Resources Commission may by rule impose reporting, permit, and tagging requirements that may be necessary upon persons:

- (1) Possessing dead wildlife taken in open season after the close of that season.
- (2) Transporting dead wildlife from an area having an open season to an area with a closed season.
- (3) Transporting dead wildlife lawfully taken in another state into this State.
- (4) Possessing dead wildlife after such transportation.

The Wildlife Resources Commission in its discretion may substitute written declarations to be filed with agents of the Commission for permit and tagging requirements.

(e) Upon application of any landholder or agent of a landholder accompanied by a fee of fifty dollars (\$50.00), the Executive Director may issue to such landholder or agent a special license and a number of special antlerless or antlered deer tags that in the judgment of the Executive Director is sufficient to accommodate the landholder or the landholder's agent's deer population management objectives or correct any deer population imbalance that may occur on the property. Subject to applicable hunting license requirements, the special deer tags may be used by any person or persons selected by the landholder or his agent as authority to take antlerless deer, including male deer with "buttons" or spikes not readily visible, or antlered deer on the tract of land concerned during any established deer hunting season. The Executive Director or designee may stipulate on the license that special deer tags for antlered deer, if applicable, may only be valid for deer that meet certain minimum harvest criteria. The Executive Director or designee may also define on the license valid hunt dates that fall outside of the general deer hunting season. Harvested antlerless or antlered deer for which special tags are issued shall be affixed immediately with a special deer tag and shall be reported immediately in the wildlife cooperator tagging book supplied with the special deer tags. This tagging book and any unused tags shall be returned to the Commission within 15 days of the close of the season. The Wildlife Resources Commission may offer an alternate reporting system when the Commission determines that such an alternate system is appropriate. Antlerless or antlered deer taken under this program and tagged with the special tags provided shall not count as part of the daily bag, possession, and season limits of the person taking the deer.

H.B. 1180

AN ACT ESTABLISHING THE CONSUMER CHOICE AND INVESTMENT ACT OF 2009.

Whereas, the technology used to provide communications services has evolved and continues to evolve at an ever-increasing pace; and

Whereas, the resulting competition between traditional telephone service providers, cable companies offering communications services, Voice-over Internet Protocol (VoIP) providers, wireless communications service providers, and other communications service providers promotes and continues to promote additional consumer choices for these services; and

Whereas, traditional telephone service providers remain subject to certain antiquated statutory and regulatory restrictions that do not apply to other communications service providers; and

Whereas, this disparity may deprive consumers of traditional telephone companies of the full range of timely and competitive options and offerings that otherwise would be available to them; and

Whereas, the General Assembly finds that relaxing certain restrictions for traditional telephone companies will relieve consumers of unnecessary costs and burdens, encourage investment, and promote timely deployment of more innovative offerings at more competitive prices for customers; and

Whereas, in order to make the full range of competitive options and offerings available to consumers of communications services while maintaining inflation-based price controls for those existing customers who currently receive and wish to continue receiving only stand-alone basic residential lines from traditional telephone companies, the General Assembly hereby enacts the "Consumer Choice and Investment Act of 2009"; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 62-133.5 is amended by adding a new subsection to read:

"(h) Notwithstanding any other provision of this Chapter, a local exchange company that is subject to rate of return regulation or subject to another form of regulation authorized under this section and whose territory is open to competition from competing local providers may elect to have its rates, terms, and conditions for its services determined pursuant to the plan described in this subsection by filing notice of its intent to do so with the Commission. The election is effective immediately upon filing. A local exchange company shall not be permitted to make the election under this section unless it commits to provide stand-alone basic residential lines to rural customers at rates comparable to those rates charged to urban customers for the same service.

(1) Definitions. – The following definitions apply in this subsection:

- a. Local exchange company. – The same meaning as provided in G.S. 62-3(16a).
- b. Single-line basic residential service. – Single-line residential flat rate basic voice grade local service with touch tone within a traditional local calling area that provides access to available emergency

- services and directory assistance, the capability to access interconnecting carriers, relay services, access to operator services, and one annual local directory listing (white pages or the equivalent).
- c. Stand-alone basic residential line. – Single-line basic residential service that is billed on a billing account that does not also contain another service, feature, or product that is sold by the local exchange company or an affiliate of the local exchange company and is billed on a recurring basis on the local exchange company's bill.
- d. Open to competition from competing local providers. – Both of the following apply:
1. G.S. 62-110(f1) applies to the franchised area and to local exchange and exchange access services offered by the local exchange company.
 2. The local exchange company is open to interconnection with competing local providers that possess a certificate of public convenience and necessity issued by the Commission. The Commission is authorized to resolve any disputes concerning whether a local exchange company is open to interconnection under this section.
- (2) Beginning on the date that the local exchange company's election under this subsection becomes effective, the local exchange company shall continue to offer stand-alone basic residential lines to all customers who choose to subscribe to that service, and the local exchange company may increase rates for those lines annually by a percentage that does not exceed the percentage increase over the prior year in the Gross Domestic Product Price Index as reported by the United States Department of Labor, Bureau of Labor Statistics, unless otherwise authorized by the Commission. With the sole exception of ensuring the local exchange company's compliance with the preceding sentence, the Commission shall not:
- a. Impose any requirements related to the terms, conditions, rates, or availability of any of the local exchange company's stand-alone basic residential lines.
 - b. Otherwise regulate any of the local exchange company's stand-alone basic residential lines.
- (3) Except to the extent provided in subdivision (2) of this subsection, beginning on the date the local exchange company's election under this subsection becomes effective, the Commission shall not do either of the following:
- a. Impose any requirements related to the terms, conditions, rates, or availability of any of the local exchange company's retail services.
 - b. Otherwise regulate any of the local exchange company's retail services.
- (4) A local exchange company's election under this subsection does not affect the obligations or rights of an incumbent local exchange carrier, as that term is defined by section 251(h) of the Federal Telecommunications Act of 1996 (Act), under sections 251 and 252 of the Act or any Federal Communications Commission regulation relating to sections 251 and 252 of the Act, nor does it affect any authority of the Commission to act in accordance with federal or State laws or regulations, including those granting authority to set rates, terms, and conditions for access to unbundled network elements and to arbitrate and enforce interconnection agreements.
- (5) A local exchange company's election under this subsection does not prevent a consumer from seeking the assistance of the Public Staff of the North

Carolina Utilities Commission to resolve a complaint with that local exchange company, as provided in G.S. 62-73.1.

- (6) A local exchange company's election under this subsection does not affect the Commission's jurisdiction concerning the following:

SECTION 3. G.S. 62-133.5 is amended by adding a new subsection to read:

"(j) Notwithstanding any other provision of this Chapter, the Commission has jurisdiction over matters concerning switched access and intercarrier compensation of a local exchange company that has elected to operate under price regulation, as well as a local exchange carrier or competing local provider operating under any form of regulation covered under this Article or G.S. 62-110(f1)."

SECTION 4. G.S. 62-133.5 is amended by adding a new subsection to read:

H.B. 749

AN ACT TO AUTHORIZE THE STATE BUILDING CODE TO PERMIT THE USE OF CISTERNS TO PROVIDE WATER FOR FLUSHING TOILETS AND FOR OUTDOOR IRRIGATION IN THE CONSTRUCTION OR RENOVATION OF RESIDENTIAL OR COMMERCIAL BUILDINGS OR STRUCTURES AND TO PROHIBIT ANY STATE, COUNTY, OR LOCAL BUILDING CODE OR REGULATION FROM PROHIBITING THE USE OF CISTERNS FOR THESE USES, AND TO CLARIFY MINORITY BUSINESS PURPOSES FOR PUBLIC CONTRACTS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 143-138(b) reads as rewritten:

"(b) Contents of the Code. – The North Carolina State Building Code, as adopted by the Building Code Council, may include reasonable and suitable classifications of buildings and structures, both as to use and occupancy; general building restrictions as to location, height, and floor areas; rules for the lighting and ventilation of buildings and structures; requirements concerning means of egress from buildings and structures; requirements concerning means of ingress in buildings and structures; rules governing construction and precautions to be taken during construction; rules as to permissible materials, loads, and stresses; rules governing chimneys, heating appliances, elevators, and other facilities connected with the buildings and structures; rules governing plumbing, heating, air conditioning for the purpose of comfort cooling by the lowering of temperature, and electrical systems; and such other reasonable rules pertaining to the construction of buildings and structures and the installation of particular facilities therein as may be found reasonably necessary for the protection of the occupants of the building or structure, its neighbors, and members of the public at large.

In addition, the Code may regulate activities and conditions in buildings, structures, and premises that pose dangers of fire, explosion, or related hazards. Such fire prevention code provisions shall be considered the minimum standards necessary to preserve and protect public health and safety, subject to approval by the Council of more stringent provisions proposed by a municipality or county as provided in G.S. 143-138(e). These provisions may include regulations requiring the installation of either battery-operated or electrical smoke detectors in every dwelling unit used as rental property, regardless of the date of construction of the rental property. For dwelling units used as rental property constructed prior to 1975, smoke detectors

shall have an Underwriters' Laboratories, Inc., listing or other equivalent national testing laboratory approval, and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance.

The Code may contain provisions requiring the installation of either battery-operated or electrical carbon monoxide detectors in every dwelling unit having a fossil-fuel burning heater or appliance, fireplace, or an attached garage. Carbon monoxide detectors shall be those listed by a nationally recognized testing laboratory that is OSHA-approved to test and certify to American National Standards Institute/Underwriters Laboratories Standards ANSI/UL2034 or ANSI/UL2075 and shall be installed in accordance with either the standard of the National Fire Protection Association or the minimum protection designated in the manufacturer's instructions, which the property owner shall retain or provide as proof of compliance. A carbon monoxide detector may be combined with smoke detectors if the combined detector does both of the following: (i) complies with ANSI/UL2034 or ANSI/UL2075 for carbon monoxide alarms and ANSI/UL217 for smoke detectors; and (ii) emits an alarm in a manner that clearly differentiates between detecting the presence of carbon monoxide and the presence of smoke.

The Code may contain provisions regulating every type of building or structure, wherever it might be situated in the State.

Provided further, that building rules do not apply to (i) farm buildings that are located outside the building-rules jurisdiction of any municipality, or (ii) farm buildings that are located inside the building-rules jurisdiction of any municipality if the farm buildings are greenhouses. A "greenhouse" is a structure that has a glass or plastic roof, has one or more glass or plastic walls, has an area over ninety-five percent (95%) of which is used to grow or cultivate plants, is built in accordance with the National Greenhouse Manufacturers Association Structural Design manual, and is not used for retail sales. Additional provisions addressing distinct life safety hazards shall be approved by the local building-rules jurisdiction.

Provided further, that no building permit shall be required under the Code or any local variance thereof approved under subsection (e) for any construction, installation, repair, replacement, or alteration costing five thousand dollars (\$5,000) or less in any single family residence or farm building unless the work involves: the addition, repair, or replacement of load bearing structures; the addition (excluding replacement of same size and capacity) or change in the design of plumbing; the addition, replacement or change in the design of heating, air conditioning, or electrical wiring, devices, appliances, or equipment, the use of materials not permitted by the North Carolina Uniform Residential Building Code; or the addition (excluding replacement of like grade of fire resistance) of roofing.

Provided further, that no building permit shall be required under such Code from any State agency for the construction of any building or structure, the total cost of which is less than twenty thousand dollars (\$20,000), except public or institutional buildings.

For the information of users thereof, the Code shall include as appendices [the following:]

- (1) Any rules governing boilers adopted by the Board of Boiler and Pressure Vessels Rules,
- (2) Any rules relating to the safe operation of elevators adopted by the Commissioner of Labor, and
- (3) Any rules relating to sanitation adopted by the Commission for Public Health which the Building Code Council believes pertinent.

In addition, the Code may include references to such other rules of special types, such as those of the Medical Care Commission and the Department of Public Instruction as may be useful to persons using the Code. No rule issued by any agency other than the Building Code Council shall be construed as a part of the Code, nor supersede that Code, it being intended that they be presented with the Code for information only.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of (1) equipment for storing,

handling, transporting, and utilizing liquefied petroleum gases for fuel purposes or anhydrous ammonia or other liquid fertilizers, except for liquefied petroleum gas from the outlet of the first stage pressure regulator to and including each liquefied petroleum gas utilization device within a building or structure covered by the Code, or (2) equipment or facilities, other than buildings, of a public utility, as defined in G.S. 62-3, or an electric or telephone membership corporation, including without limitation poles, towers, and other structures supporting electric or communication lines.

Nothing in this Article shall extend to or be construed as being applicable to the regulation of the design, construction, location, installation, or operation of industrial machinery. However, if during the building code inspection process, an electrical inspector has any concerns about the electrical safety of a piece of industrial machinery, the electrical inspector may refer that concern to the Occupational Safety and Health Division in the North Carolina Department of Labor but shall not withhold the certificate of occupancy nor mandate third-party testing of the industrial machinery based solely on this concern. For the purposes of this paragraph, "industrial machinery" means equipment and machinery used in a system of operations for the explicit purpose of producing a product. The term does not include equipment that is permanently attached to or a component part of a building and related to general building services such as ventilation, heating and cooling, plumbing, fire suppression or prevention, and general electrical transmission.

In addition, the Code may contain rules concerning minimum efficiency requirements for replacement water heaters, which shall consider reasonable availability from manufacturers to meet installation space requirements and may contain rules concerning energy efficiency that require all hot water plumbing pipes that are larger than one-fourth of an inch to be insulated.

No State, county, or local building code or regulation shall prohibit the use of special locking mechanisms for seclusion rooms in the public schools approved under G.S. 115C-391.1(e)(1)e., provided that the special locking mechanism shall be constructed so that it will engage only when a key, knob, handle, button, or other similar device is being held in position by a person, and provided further that, if the mechanism is electrically or electronically controlled, it automatically disengages when the building's fire alarm is activated. Upon release of the locking mechanism by a supervising adult, the door must be able to be opened readily.

The Code may include rules pertaining to the construction or renovation of residential or commercial buildings and structures that permit the use of cisterns to provide water for flushing toilets and for outdoor irrigation. No State, county, or local building code or regulation shall prohibit the use of cisterns to provide water for flushing toilets and for outdoor irrigation. As used in this subsection, 'cistern' means a storage tank that is watertight; has smooth interior surfaces and enclosed lids; is fabricated from nonreactive materials such as reinforced concrete, galvanized steel, or plastic; is designed to collect rainfall from a catchment area; may be installed indoors or outdoors; and is located underground, at ground level, or on elevated stands."

SECTION 2. G.S. 143-48.4(c) reads as rewritten:

"(c) ~~All~~ Only businesses certified in accordance with this section shall be considered by State departments, agencies, and institutions, and political subdivisions of the State shall only use historically underutilized businesses listed in the database created in accordance with this section for minority business purposes. State as historically underutilized businesses for minority business participation purposes under this Chapter."

SECTION 3. G.S. 143-128.4(e) reads as rewritten:

"(e) ~~All~~ Only businesses certified in accordance with this section shall be considered by State departments, agencies, and institutions, and political subdivisions of the State shall only use historically underutilized businesses listed in the database created in accordance with this section for minority business purposes. State as historically underutilized businesses for minority business participation purposes under this Chapter."

SECTION 4. This act is effective when it becomes law. Section 1 of this act applies to any cistern, as defined in G.S. 143-138, as amended by Section 1 of this act, installed on or after that date that is used to provide water for flushing toilets or for outdoor irrigation.

The right to reject any and all bids shall be reserved to the Board of

Transportation. Contracts for construction or repair for federal aid projects entered into pursuant to this section shall not contain the standardized contract clauses prescribed by 23 U.S.C. § 112(e) and 23 C.F.R. § 635.109 for differing site conditions, suspensions of work ordered by the engineer or significant changes in the character of the work. For those federal aid projects, the Department of Transportation shall use only the contract provisions for differing site conditions, suspensions of work ordered by the engineer, or significant changes in the character of the work developed by the North Carolina Department of Transportation and approved by the Board of Transportation.

(d) The construction, maintenance, and repair of the highway rest area buildings and facilities, weight stations and the Department of Transportation's participation in the construction of welcome center buildings shall be deemed highway construction, maintenance, or repair for the purpose of G.S. 136-28.1 and 136-28.3 and Chapter 143C of the General Statutes, the State Budget Act.

(e) The Department of Transportation may enter into contracts for construction, maintenance, or repair without complying with the bidding requirements of this section upon a determination of the Secretary of Transportation or ~~the State Highway Administrator~~ the Secretary's designee that an emergency exists and that it is not feasible or not in the public interest for the Department of Transportation to comply with the bidding requirements.

(f) Notwithstanding any other provision of law, the Department of Transportation may solicit proposals under rules and regulations adopted by the Department of Transportation for all contracts for professional engineering services and other kinds of professional or specialized services necessary in connection with ~~highway construction, maintenance, or repair~~ the planning, design, maintenance, repair, and construction of transportation infrastructure. The right to reject any and all proposals is reserved to the Board of Transportation.

(g) The Department of Transportation may enter into contracts for research and development with educational institutions and nonprofit organizations without soliciting bids or proposals.

(h) The Department of Transportation may enter into contracts for applied research and experimental work without soliciting bids or proposals; provided, however, that if the research or work is for the purpose of testing equipment, materials, or supplies, the provisions of Article 3 of Chapter 143 of the General Statutes shall apply. The Department of Transportation is encouraged to solicit proposals when contracts are entered into with private firms when it is in the public interest to do so.

(i) The Department of Transportation may negotiate and enter into contracts with public utility companies for the lease, purchase, installation, and maintenance of generators for electricity for its ferry repair facilities.

(j) Repealed by Session Laws 2002-151, s. 1, effective October 9, 2002.

Acknowledgement of sponsors may be indicated by appropriate signs that shall be owned by the Department of Transportation. The size, style, specifications, and content of the signs shall be determined in the sole discretion of the Department of Transportation. The Department of Transportation may identify projects likely to attract increased participation by Small Business Enterprises, and restrict the solicitation and award to those bidders. The Board of Transportation may delegate full authority to award contracts, adopt necessary rules, and administer the provisions of this section to the Secretary of Transportation."

SECTION 3. G.S. 136-28.4(e) reads as rewritten:

SECTION 7. G.S. 136-19 reads as rewritten:

"§ 136-19. Acquisition of land and deposits of materials; condemnation proceedings; federal parkways.

(a) The Department of Transportation is vested with the power to acquire either in the nature of an appropriate easement or in fee simple such rights-of-way and title to such land, gravel, gravel beds or bars, sand, sand beds or bars, rock, stone, boulders, quarries, or quarry beds, lime or other earth or mineral deposits or formations, and such standing timber as it may deem necessary and suitable for transportation infrastructure construction, including road construction, maintenance, and repair, and the necessary approaches and ways through, and a sufficient amount of land surrounding and adjacent thereto, as it may determine to enable it to properly prosecute the work, by purchase, donation, or condemnation, in the manner hereinafter set out. If the Department of Transportation acquires by purchase, donation, or condemnation part of a tract of land in fee simple for highway right-of-way as authorized by this section and the Department of Transportation later determines that the property acquired for transportation infrastructure, including highway right-of-way, or a part of that property, is no longer needed for ~~highway infrastructure~~ right-of-way, then the Department shall give first consideration to any offer to purchase the property made by the former owner. The Department may refuse any offer that is less than the current market value of the property, as determined by the Department. Unless the Department acquired an entire lot, block, or tract of land belonging to the former owner, the former owner must own the remainder of the lot, block, or tract of land from which the property was acquired to receive first consideration by the Department of their offer to purchase the property.

(b) Notwithstanding the provisions of subsection (a), if the Department acquires the property by condemnation and determines that the property or a part of that property is no longer needed for highway ~~right-of-way, right-of-way or other transportation projects~~, the Department of Transportation may reconvey the property to the former owner upon payment by the former owner of the full price paid to the owner when the property was taken, the cost of any improvements, together with interest at the legal rate to the date when the decision was made to offer the return of the property. Unless the Department acquired an entire lot, block, or tract of land belonging to the former owner, the former owner must own the remainder of the lot, block, or tract of land from which the property was acquired to purchase the property pursuant to this subsection.

(c) The requirements of this section for reconveying property to the former owner, regardless of whether such property was acquired by purchase, donation, or condemnation, shall not apply to property acquired outside the right-of-way as an "uneconomic remnant" or "residue".

(d) The Department of Transportation is also vested with the power to acquire such additional land alongside of the rights-of-way ~~or for transportation projects, including roads~~ as in its opinion may be necessary and proper for the protection of the transportation projects, including roads and roadways, and such additional area as may be necessary as by it determined for approaches to and from such material and other requisite area as may be desired by it for working purposes. The Department of Transportation may, in its discretion, with the consent of the landowner, acquire in fee simple an entire lot, block or tract of land, if by so doing, the interest of the public will be best served, even though said entire lot, block or tract is not immediately needed for right-of-way purposes.

(e) Notwithstanding any other provisions of law or eminent domain powers of utility companies, utility membership corporations, municipalities, counties, entities created by political subdivisions, or any combination thereof, and in order to prevent undue delay of highway projects because of utility conflicts, the Department of Transportation may condemn or acquire property in fee or appropriate easements necessary to provide highway-transportation project rights-of-way for the relocation of utilities when required in the construction, reconstruction, or rehabilitation of a State highway-transportation project. The Department of Transportation shall also have the authority, subject to the provisions of G.S. 136-19.5(a) and

(b), to, in its discretion, acquire rights-of-way necessary for the present or future placement of utilities as described in G.S. 136-18(2).

(f) Whenever the Department of Transportation and the owner or owners of the lands, materials, and timber required by the Department of Transportation to carry on the work as herein provided for, are unable to agree as to the price thereof, the Department of Transportation is hereby vested with the power to condemn the lands, materials, and timber and in so doing the ways, means, methods, and procedure of Article 9 of this Chapter shall be used by it exclusively.

(g) The Department of Transportation shall have the same authority, under the same provisions of law provided for construction of State ~~highways, transportation projects,~~ for acquirement of all rights-of-way and easements necessary to comply with the rules and regulations of the United States government for the construction of federal parkways and entrance roads to federal parks in the State of North Carolina. The acquirement of a total of 125 acres per mile of said parkways, including roadway and recreational, and scenic areas on either side thereof, shall be deemed a reasonable area for said purpose. The right-of-way acquired or appropriated may, at the option of the Department of Transportation, be a fee-simple title. The said Department of Transportation is hereby authorized to convey such title so acquired to the United States government, or its appropriate agency, free and clear of all claims for compensation. All compensation contracted to be paid or legally assessed shall be a valid claim against the Department of Transportation, payable out of the State Highway Fund. Any conveyance to the United States Department of Interior of land acquired as provided by this section shall contain a provision whereby the State of North Carolina shall retain concurrent jurisdiction over the areas conveyed. The Governor is further authorized to grant concurrent jurisdiction to lands already conveyed to the United States Department of Interior for parkways and entrances to parkways.

(h) The action of the Department of Transportation heretofore taken in the acquirement of areas for the Blue Ridge Parkway in accordance with the rules and regulations of the United States government is hereby ratified and approved and declared to be a reasonable exercise of the discretion vested in the said Department of Transportation in furtherance of the public interest.

(i) When areas have been tentatively designated by the United States government to be included within a parkway, but the final survey necessary for the filing of maps as provided in this section has not yet been made, no person shall cut or remove any timber from said areas pending the filing of said maps after receiving notice from the Department of Transportation that such area is under investigation; and any property owner who suffers loss by reason of the restraint upon his right to use the said timber pending such investigation shall be entitled to recover compensation from the Department of Transportation for the temporary appropriation of his property, in the event the same is not finally included within the appropriated area, and the provisions of this section may be enforced under the same law now applicable for the adjustment of compensation in the acquirement of rights-of-way on other property by the Department of Transportation."

SECTION 8. G.S. 136-19.3 reads as rewritten:

"§ 136-19.3. Acquisition of buildings.

Where the right-of-way of a proposed highway or other transportation project necessitates the taking of a portion of a building or structure, the Department of Transportation may acquire, by condemnation or purchase, the entire building or structure, together with the right to enter upon the surrounding land for the purpose of removing said building or structure, upon a determination by the Department of Transportation based upon an affidavit of an independent real estate appraiser that the partial taking will substantially destroy the economic value or utility of the building or structure and (i) that an economy in the expenditure of public funds will be promoted thereby; or (ii) that it is not feasible to cut off a portion of the building without destroying the entire building; or (iii) that the convenience, safety or improvement of the highway-transportation project will be promoted thereby; provided, nothing herein

contained shall be deemed to give the Department of Transportation authority to condemn the underlying fee of the portion of any building or structure which lies outside the right-of-way of any existing or proposed transportation project, including a public road, street or highway."

SECTION 9. G.S. 136-19.5 reads as rewritten:

"§ **136-19.5. Utility right-of-way agreements.**

(a) Before the Department of Transportation acquires or proposes to acquire additional rights-of-way for the purpose of accommodating the installation of utilities as authorized by G.S. 136-18 and G.S. 136-19, there shall first be voluntary agreements with the appropriate utilities regarding the acquisition and use of the particular right-of-way and requiring the payment to the Department of Transportation for or recapture of all of its costs associated with that acquisition, including the use of funds allocated to such acquisition. Such agreements may take into account the fact that more than one utility can make use of the right-of-way. No such agreement shall constitute a sale of the right-of-way and all such rights-of-way shall remain under the control of the Department of Transportation.

(b) A prior agreement between the Department of Transportation and the affected utilities may be entered into but is not required when the acquisition of right-of-way is for the purpose of relocation of utilities due to construction, reconstruction, or rehabilitation of a State ~~highway~~ transportation project. The Department of Transportation shall notify the affected utility whose facilities are being relocated and the affected utility may choose not to participate in the proposed plan for right-of-way acquisition. The decision not to participate in the proposed plan of right-of-way acquisition shall not affect any other rights the utility may have as a result of the relocation of its lines or pipelines.

(c) Whenever the Department of Transportation requires the relocation of utilities located in a right-of-way for which the utility owner contributed to the cost of acquisition, the Department of Transportation shall reimburse the utility owner for the cost of moving those utilities.

(d) Any additional right-of-way obtained pursuant to this section which is part of a railroad right-of-way shall be returned to the railroad or its successor in interest when the Department of Transportation and the affected utilities agree that the additional right-of-way is no longer useful for utility purposes and the Department of Transportation determines that it is no longer useful for ~~highway~~ transportation purposes."

SECTION 10. G.S. 136-26 reads as rewritten:

"§ **136-26. Closing of State ~~highways~~ transportation infrastructure during construction; injury to barriers, warning signs, etc.**

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 41-2 reads as rewritten:

"§ 41-2. Survivorship in joint tenancy defined; proviso as to partnership.

(a) Except as otherwise provided herein, in all estates, real or personal, held in joint tenancy, the part or share of any tenant dying shall not descend or go to the surviving tenant, but shall descend or be vested in the heirs, executors, or administrators, respectively, of the tenant so dying, in the same manner as estates held by tenancy in common: Provided, that estates held in joint tenancy for the purpose of carrying on and promoting trade and commerce, or any useful work or manufacture, established and pursued with a view of profit to the parties therein concerned, are vested in the surviving partner, in order to enable ~~him~~ the surviving partner to settle and adjust the partnership business, or pay off the debts which may have been contracted in pursuit of the joint business; but as soon as the same is effected, the survivor shall account with, and pay, and deliver to the heirs, executors and administrators respectively of such deceased partner all such part, share, and sums of money as ~~he~~ the deceased partner may be entitled to by virtue of the original agreement, if any, or according to ~~his~~ the deceased partner's share or part in the joint concern, in the same manner as partnership stock is usually settled between joint merchants and the representatives of their deceased partners. Nothing in this section prevents the creation of a joint tenancy with right of survivorship in real or personal

property if the instrument creating the joint tenancy expressly provides for a right of survivorship, and no other document shall be necessary to establish said right of survivorship. Upon conveyance to a third party by less than all of three or more joint tenants holding property in joint tenancy with right of survivorship, a tenancy in common is created among the third party and the remaining joint tenants, who remain joint tenants with right of survivorship as between themselves. Upon conveyance to a third party by one of two joint tenants holding property in joint tenancy with right of survivorship, a tenancy in common is created between the third party and the remaining joint tenant. A conveyance of any interest in real property by a party to ~~himself and~~ one or more other parties, whether or not jointly with the grantor-party, as joint tenants with right of survivorship, creates in the parties that interest, if the instrument of conveyance expressly provides for a joint tenancy with right of survivorship.

(b) The interests of the grantees holding property in joint tenancy with right of survivorship shall be deemed to be equal unless otherwise specified in the conveyance. Any joint tenancy interest held by a husband and wife, unless otherwise specified, shall be deemed to be held as a single tenancy by the entirety, which shall be treated as a single party when determining interests in the joint tenancy with right of survivorship. If joint tenancy interests among three or more joint tenants holding property in joint tenancy with right of survivorship are held in unequal shares, upon the death of one joint tenant, the share of the deceased joint tenant shall be divided among the surviving joint tenants according to their respective pro rata interest and not equally, unless the creating instrument provides otherwise.

This subsection shall apply to any conveyance of an interest in property created at any time that explicitly sought to create unequal ownership interests in a joint tenancy with right of survivorship. Distributions made prior to the enactment of this subsection that were made in equal amounts from a joint tenancy with the right of survivorship that sought to create unequal ownership shares shall remain valid and shall not be subject to modification on the basis of this act."

SECTION 3. The equipment used in conducting the videoconference proceedings authorized by this act shall be used in a manner that ensures that the judicial official conducting the proceeding and the defendant can see and hear each other and that ensures that the defendant and his or her attorney may communicate during the proceeding in a manner that preserves the defendant's right to confidential communication with counsel.

SECTION 4. The North Carolina Rural Courts Commission, in cooperation with the Department of Correction, shall study the effectiveness of the use of videoconferences for these proceedings and report its findings and recommendations for expansion or modification to the Chief Justice, the Secretary of Correction, the Chairs of the Senate and House Appropriations Subcommittees on Justice and Public Safety, and the Chairs of the Senate and House Appropriations Committees. The study shall address the costs of implementing videoconferencing on a statewide basis for these purposes, as well as the cost savings obtained through the use of such equipment, the quality of the transmissions, the frequency of use, and any other relevant information the Commission deems appropriate. The report shall be

AN ACT REQUIRING MUNICIPALITIES AND MEMBERSHIP CORPORATIONS ORGANIZED UNDER CHAPTER 117 OF THE GENERAL STATUTES TO PERMIT COMMUNICATIONS SERVICE PROVIDERS TO USE THEIR POLES, DUCTS, AND CONDUITS FOR ATTACHMENTS AND RELATED USES, AND AUTHORIZING THE NORTH CAROLINA BUSINESS COURT TO CONSIDER AND RESOLVE DISPUTES CONCERNING THE RATES, TERMS, AND CONDITIONS ASSOCIATED WITH THE USE.

The General Assembly of North Carolina enacts:

SECTION 1. Article 3 of Chapter 62 of the General Statutes is amended by adding a new section to read:

"§ 62-55. Regulation of pole attachments.

(a) A municipality, or a membership corporation organized under Chapter 117 of the General Statutes, that owns or controls poles, ducts, or conduits shall allow any communications service provider to utilize its poles, ducts, and conduits at just, reasonable, and nondiscriminatory rates, terms, and conditions adopted pursuant to negotiated or adjudicated agreements. A request to utilize poles, ducts, or conduits under this section may be denied only if there is insufficient capacity or for reasons of safety, reliability, and generally applicable engineering principles, and those limitations cannot be remedied by rearranging, expanding, or otherwise reengineering the facilities at the reasonable and actual cost of the municipality or membership corporation to be reimbursed by the communications service provider. In granting a request under this section, a municipality or membership corporation shall require the

requesting entity to comply with applicable safety requirements, including the National Electrical Safety Code and the applicable rules and regulations issued by the Occupational Safety and Health Administration.

(b) Following receipt of a request from a communications service provider, a municipality or membership corporation shall negotiate concerning the rates, terms, and conditions for the use of or attachment to the poles, ducts, or conduits that it owns or controls. Following a request from a party to an existing agreement made pursuant to the terms of the agreement or made within 120 days prior to or following the end of the term of the agreement, the communications service provider and the municipality or membership corporation which is a party to that agreement shall negotiate concerning the rates, terms, and conditions for the continued use of or attachment to the poles, ducts, or conduits owned or controlled by one of the parties to the agreement. The negotiations shall include matters customary to such negotiations, including a fair and reasonable rate for use of facilities, indemnification by the attaching entity for losses caused in connection with the attachments, and the removal, replacement, or repair of installed facilities for safety reasons. Upon request, a party shall state in writing its objections to any proposed rate, terms, and conditions of the other party.

(c) In the event the parties are unable to reach an agreement within 90 days of a request to negotiate pursuant to subsection (b) of this section, or if either party believes in good faith that an impasse has been reached prior to the expiration of the 90-day period, either party may bring an action in Business Court in accordance with the procedures for a mandatory business case set forth in G.S. 7A-45.4, and the Business Court shall have exclusive jurisdiction over such actions. The parties shall identify with specificity in their respective pleadings the issues in dispute, and the Business Court shall (i) establish a procedural schedule which, unless otherwise agreed by the parties, is intended to resolve the action within a time period not to exceed 180 days of the commencement of the action, (ii) resolve any dispute identified in the pleadings consistent with the public interest and necessity so as to derive just and reasonable rates, terms, and conditions, taking into consideration and applying such other factors or evidence that may be presented by a party, including without limitation the rules and regulations applicable to attachments by each type of communications service provider under section 224 of the Communications Act of 1934, as amended, and (iii) apply any new rate adopted as a result of the action retroactively to the date immediately following the expiration of the 90-day negotiating period or initiation of the lawsuit, whichever is earlier. If the new rate is for the continuation of an existing agreement, the new rate shall apply retroactively to the date immediately following the end of the existing agreement. Prior to commencing any action under this subsection, a party must pay any undisputed fees related to the use of poles, ducts, or conduits which are due and owing under a preexisting agreement with the municipality or membership corporation. In any action brought under this subsection, the court may resolve any existing disputes regarding fees alleged to be owing under a preexisting agreement or regarding safety compliance arising under subsection (d) of this section. The provisions of this section do not apply to an entity whose poles, ducts, and conduits are subject to regulation under section 224 of the Communications Act of 1934, as amended.

(d) In the absence of an agreement between an attaching party and the involved municipality or membership corporation that provides otherwise, the following shall apply:

- (1) When the lines, equipment, or attachments of a communications service provider that are attached to the poles, ducts, or conduits of a municipality or membership corporation do not comply with applicable safety rules and regulations set forth in subsection (a) of this section, the municipality or membership corporation may provide written notice of the noncompliant lines, equipment, or attachments, and make demand that the communications service provider bring such lines, equipment, and attachments into compliance with the specified safety rules and regulations. Within the 60-day period following the date of the notice and demand, the communications service provider shall either contest the notice of

noncompliance in writing or bring its lines, equipment, and attachments into compliance with the specified applicable safety rules and regulations. If the work required to bring the facilities into compliance is not reasonably capable of being completed within the 60-day period, the period for compliance shall be extended as may be deemed reasonable under the circumstances so long as the communications service provider promptly commences and diligently pursues within the 60-day period such actions as are reasonably necessary to cause the facilities to be brought into compliance.

- (2) When the communications service provider or, if applicable, another responsible attaching party fails to bring any noncompliant lines, equipment, or attachments into compliance (i) within the 60-day period following the date of notice and demand pursuant to subdivision (1) of this subsection, or (ii) within 120 days following the date of notice and demand when the period is extended pursuant to subdivision (1) of this subsection, the municipality or membership corporation shall be entitled to take such remedial actions as are reasonably necessary to bring the lines, equipment, and attachments of the communications service provider into compliance, including removal of the lines, equipment, or attachments should removal be required to achieve compliance with the applicable safety rules and regulations.
- (3) A municipality or membership corporation that removes or brings into compliance the noncompliant lines, equipment, or attachments of a communications service provider pursuant to subdivision (2) of this subsection shall be entitled to recover its reasonable and actual costs for such activities from the communications service provider or other attaching party whose action or inaction caused the noncompliance, and the responsible attaching party shall reimburse the municipality or membership corporation within 45 days of being billed for such costs.
- (4) All attaching parties shall work cooperatively to determine the causation of, and to effectuate any remedy for, noncompliant lines, equipment, and attachments. In the event of disputes under this subsection, the involved municipality or membership corporation or any attaching party may bring an action in the Business Court in accordance with the procedures for a mandatory business case set forth in G.S. 7A-45.4, and the Business Court shall have exclusive jurisdiction over such actions. The Business Court shall resolve such disputes consistent with the public interest and necessity. Nothing herein shall prevent a municipality or membership corporation from taking such action as may be necessary to remedy any exigent issue which is an imminent threat of death or injury to persons or damage to property.

(e) For purposes of this section, the term "communications service provider" means a person or entity that provides or intends to provide: (i) telephone service as a public utility under Chapter 62 of the General Statutes or as a telephone membership corporation organized under Chapter 117 of the General Statutes; (ii) broadband service, but excluding broadband service over energized electrical conductors owned by a municipality or membership corporation; or (iii) cable service over a cable system as those terms are defined in Article 42 of Chapter 66 of the General Statutes.

(f) The Business Court may adopt such rules as it deems necessary to implement its jurisdiction and authority under this section.

(g) Nothing herein shall preclude a party from bringing civil action in the appropriate division of the General Court of Justice seeking enforcement of an agreement concerning the rates, terms, and conditions for the use of or attachment to the poles, ducts, or conduits of a municipality or membership corporation."

SECTION 2. This act does not constitute certification of State regulation of pole attachments for purposes of section 224 of the Communications Act of 1934, as amended. If a court of competent jurisdiction determines that this act is tantamount to certification, this act shall become null and void.

SECTION 3. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 2nd day of July, 2009.

Became law upon approval of the Governor at 10:46 a.m. on the 10th day of July, 2009.

AN ACT AUTHORIZING LESSORS OF CONTIGUOUS PREMISES TO ALLOCATE THE COST FOR WATER AND SEWER SERVICE TO EACH TENANT USING EQUIPMENT THAT MEASURES HOT WATER USAGE, REQUIRING LANDLORDS TO IMPROVE THE HABITABILITY OF DWELLING UNITS BY REPAIRING CERTAIN UNSAFE CONDITIONS, STAYING THE EXECUTION OF A JUDGMENT FOR SUMMARY EJECTMENT WHILE A MOTION FOR MODIFICATION OF THE UNDERTAKING IS PENDING, ESTABLISHING FEES FOR ADMINISTRATIVE SERVICES IN RESIDENTIAL TENANCIES, AND ESTABLISHING THE CIRCUMSTANCES UNDER WHICH A CITY MAY ORDER A DWELLING TO BE VACATED AND CLOSED.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 62-110(g) reads as rewritten:

"(g) In addition to the authority to issue a certificate of public convenience and necessity and establish rates otherwise granted in this Chapter, for the purpose of encouraging water conservation, the Commission may, consistent with the public interest, adopt procedures that allow a lessor to charge for the costs of providing water or sewer service to persons who occupy the same contiguous premises. The following provisions shall apply:

(1) All charges for water or sewer service shall be based on the user's metered consumption of water, which shall be determined by metered measurement of all water ~~consumed and not by any partial measurement of water consumption, unless specifically authorized by the Commission.~~ consumed. The rate charged by the lessor shall not exceed the unit consumption rate charged by the supplier of the service.

(1a) If the contiguous premises were built prior to 1989 and the lessor determines that the measurement of the tenant's total water usage is impractical or not economical, the lessor may allocate the cost for water and sewer service to the tenant using equipment that measures the tenant's hot water usage. In that case, each tenant shall be billed a percentage of the landlord's water and sewer costs for water usage in the dwelling units based upon the hot water used in the tenant's dwelling unit. The percentage of total water usage allocated for each dwelling unit shall be equal to that dwelling unit's individually submetered hot water usage divided by all submetered hot water usage in all dwelling units. The following conditions apply to billing for water and sewer service under this subdivision:

a. A lessor shall not utilize a ratio utility billing system or other allocation billing system that does not rely on individually submetered hot water usage to determine the allocation of water and sewer costs.

b. The lessor shall not include in a tenant's bill the cost of water and sewer service used in common areas or water loss due to leaks in the lessor's water mains. A lessor shall not bill or attempt to collect for

excess water usage resulting from a plumbing malfunction or other condition that is not known to the tenant or that has been reported to the lessor.

- c. All equipment used to measure water usage shall comply with guidelines promulgated by the American Water Works Association.
- d. The lessor shall maintain records for a minimum of 12 months that demonstrate how each tenant's allocated costs were calculated for water and sewer service. Upon advanced written notice to the lessor, a tenant may inspect the records during reasonable business hours.
- e. Bills for water and sewer service sent by the lessor to the tenant shall contain all the following information:
 1. The amount of water and sewer services allocated to the tenant during the billing period.
 2. The method used to determine the amount of water and sewer services allocated to the tenant.
 3. Beginning and ending dates for the billing period.
 4. The past-due date, which shall not be less than 25 days after the bill is mailed.
 5. A local or toll-free telephone number and address that the tenant can use to obtain more information about the bill.

...."

SECTION 2. G.S. 42-34(b) reads as rewritten:

"(b) During an appeal to district court, it shall be sufficient to stay execution of a judgment for ejectment if the defendant appellant pays to the clerk of superior court any rent in arrears as determined by the magistrate and signs an undertaking that he or she will pay into the office of the clerk of superior court the amount of the tenant's share of the contract rent as it becomes due periodically after the judgment was entered and, where applicable, comply with subdivision (c) below. For the sole purpose of determining the amount of rent in arrears pursuant to a judgment for possession pursuant to G.S. 42-30(iii), the magistrate's determination shall be based upon (i) the available evidence presented to the magistrate or (ii) the amounts listed on the face of the filed Complaint in Summary Ejectment. Provided however, when the magistrate makes a finding in the record, based on evidence presented in court, that there is an actual dispute as to the amount of rent in arrears that is due and the magistrate specifies the specific amount of rent in arrears in dispute, in order to stay execution of a judgment for ejectment, the defendant appellant shall not be required to pay to the clerk of superior court the amount of rent in arrears found by the magistrate to be in dispute, even if the magistrate's judgment includes this amount in the amount of rent found to be in arrears. If a defendant appellant appeared at the hearing before the magistrate and the magistrate found an amount of rent in arrears that was not in dispute, and if an attorney representing the defendant appellant on appeal to the district court signs a pleading stating that there is evidence of an actual dispute as to the amount of rent in arrears, then the defendant appellant shall not be required to pay the rent in arrears alleged to be in dispute to stay execution of a judgment for ejectment pending appeal. Any magistrate, clerk, or district court judge shall order stay of execution upon the defendant appellant's paying the undisputed rent in arrears to the clerk and signing the undertaking. If either party disputes the amount of the payment or the due date in the undertaking, the aggrieved party may move for modification of the terms of the undertaking before the clerk of superior court or the district court. Upon such motion and upon notice to all interested parties, the clerk or court shall hold a hearing within 10 calendar days of the date the motion is filed and determine what modifications, if any, are appropriate. No writ of possession or other execution of the magistrate's judgment shall take place during the time the aggrieved party's motion for modification is pending before the clerk of court."

SECTION 3. G.S. 42-42(a) is amended by adding a new subdivision to read as follows:

(b) A late fee under ~~this subsection~~ (a) of this section may be imposed only one time for each late rental payment. A late fee for a specific late rental payment may not be deducted from a subsequent rental payment so as to cause the subsequent rental payment to be in default.

The landlord can include this fee in the amount required to cure the default.

(f) Court-Appearance Fee. – Pursuant to a written lease, a landlord may charge a court-appearance fee in an amount equal to ten percent (10%) of the monthly rent only if the tenant was in default of the lease; the landlord filed, served, and prosecuted successfully a complaint for summary ejectment and/or monies owed in the small claims court; and neither party appealed the judgment of the magistrate.

(g) Second Trial Fee. – Pursuant to a written lease, a landlord may charge a second trial fee for a new trial following an appeal from the judgment of a magistrate. (h) Limitations on Charging and Collection of Fees.

- (2) A landlord who earns a fee under subsections (e) through (g) of this section may not deduct payment of that fee from a tenant's subsequent rent payment or declare a failure to pay the fee as a default of the lease for a subsequent summary ejectment action.
- (3) It is contrary to public policy for a landlord to put in a lease or claim any fee for filing a complaint for summary ejectment and/or money owed other than the ones expressly authorized by subsections (e) through (g) of this section, and a reasonable attorney's fee as allowed by law.
- (4) Any provision of a residential rental agreement contrary to the provisions of this section is against the public policy of this State and therefore void and unenforceable.

In either case the landlord in writing shall itemize any damage and mail or deliver same to the tenant, together with the balance of the security deposit, no later than 30 days after termination of the tenancy and delivery of possession ~~by the tenant~~ of the premises to the landlord. If the extent of the landlord's claim against the security deposit cannot be determined within 30 days, the landlord shall provide the tenant with an interim accounting no later than 30 days after termination of the tenancy and delivery of possession of the premises to the landlord and shall provide a final accounting within 60 days after termination of the tenancy and delivery of possession of the premises to the landlord. If the tenant's address is unknown the landlord shall apply the deposit as permitted in G.S. 42-51 after a period of 30 days and the landlord shall hold the balance of the deposit for collection by the tenant for at least six months. The landlord may not withhold

as damages part of the security deposit for conditions that are due to normal wear and tear nor may the landlord retain an amount from the security deposit which exceeds his actual damages."

SECTION 6. G.S. 42-55 reads as rewritten:

"§ **42-55. Remedies.**

If the landlord or the landlord's successor in interest fails to account for and refund the balance of the tenant's security deposit as required by this Article, the tenant may institute a civil action to require the accounting of and the recovery of the balance of the deposit. The willful failure of a landlord to comply with the deposit, bond, or notice requirements of this Article shall void the landlord's right to retain any portion of the tenant's security deposit as otherwise permitted under G.S. 42-51. In addition to other remedies at law and equity, the tenant may recover damages resulting from noncompliance by the landlord; and upon a finding by the court that the party against whom judgment is rendered was in willful noncompliance with this Article, ~~the court may, in its discretion, allow a reasonable attorney's fee to the duly licensed attorney representing the prevailing party, such attorney's fee to be taxed as part of the cost of court.~~ such willful noncompliance is against the public policy of this State and the court may award attorney's fees to be taxed as part of the costs of court."

SECTION 7. G.S. 160A-443 reads as rewritten:

Upon the adoption of an ordinance finding that dwelling conditions of the character described in G.S. 160A-441 exist within a city, the governing body of the city is hereby authorized to adopt and enforce ordinances relating to dwellings within the city's territorial jurisdiction that are unfit for human habitation. These ordinances shall include the following provisions:

...

The order may require that the property be vacated and closed only if continued occupancy during the time allowed for repair will present a significant threat of bodily harm, taking into account the nature of the necessary repairs, alterations, or improvements; the current state of the property; and any additional risks due to the presence and capacity of minors under the age of 18 or occupants with physical or mental disabilities. The order shall state that the failure to make timely repairs as directed in the order shall make the dwelling subject to the issuance of an unfit order under subdivision (4) of this section; or
 - b. If the repair, alteration or improvement of the dwelling cannot be made at a reasonable cost in relation to the value of the dwelling (the ordinance of the city may fix a certain percentage of this value as being reasonable), requiring the owner, within the time specified in the order, to remove or demolish such dwelling. Occupation of a building so posted shall constitute a Class 1 misdemeanor. The duties of the public officer set forth in this subdivision shall not be exercised until the governing body shall have by ordinance ordered the public officer to proceed to effectuate the purpose of this Article with respect to the particular property or properties which the public officer shall have found to be unfit for human habitation and which property or properties shall be described in the ordinance. This ordinance shall be recorded in the office of the register of deeds in the county wherein the property or properties are located and shall be indexed in the name of the property owner in the grantor index.
- (5) That, if the owner fails to comply with an order to remove or demolish the dwelling, the public officer may cause such dwelling to be removed or demolished. The duties of the public officer set forth in this subdivision ~~subdivisions (4) and (5)~~ shall not be exercised until the governing body shall have by ordinance ordered the public officer to proceed to effectuate the purpose of this Article with respect to the particular property or properties which the public officer shall have found to be unfit for human habitation and which property or properties shall be described in the ordinance. No such ordinance shall be adopted to require demolition of a dwelling until the owner has first been given a reasonable opportunity to bring it into conformity with the housing code. This ordinance shall be recorded in the office of the register of deeds in the county wherein the property or properties are located and shall be indexed in the name of the property owner in the grantor index.
- (5a) If the governing body shall have adopted an ~~ordinance,~~ ordinance as provided in subdivision (4) of this section, or the public officer shall have:
- a. In a municipality located in counties which have a population in excess of 71,000 by the last federal census (including the entirety of any municipality located in more than one county at least one county of which has a population in excess of 71,000), other than municipalities with a population in excess of 190,000 by the last federal census, issued an order, ordering a dwelling to be repaired or vacated and closed, as provided in subdivision (3)a, and if the ~~owner has vacated and closed such dwelling and kept such dwelling~~ has been vacated and closed for a period of one year pursuant to the ordinance or order;
 - b. vacated and closed for a period of one year pursuant to the ordinance or after such proceedings have commenced, then if the governing body shall find that the owner has abandoned the intent and purpose to repair, alter or improve the dwelling in order to render it fit for human habitation and that the continuation of the dwelling in its vacated and closed status would be inimical to the health, safety, morals and welfare of the municipality in that the dwelling would continue to deteriorate, would create a fire and safety hazard, would be a threat to children and vagrants, would attract persons intent on criminal activities, would cause or contribute to blight and the deterioration of property values in the area, and would render unavailable property and a dwelling which might otherwise have been made available to ease the persistent shortage of decent and affordable housing in this State, then in such circumstances, the governing body may, after the expiration of such one year period, enact an ordinance and serve such ordinance on the owner, setting forth the following:

- a. If it is determined that the repair of the dwelling to render it fit for human habitation can be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling, the ordinance shall require that the owner either repair or demolish and remove the dwelling within 90 days; or
- b. If it is determined that the repair of the dwelling to render it fit for human habitation cannot be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling, the ordinance shall require the owner to demolish and remove the dwelling within 90 days.

This ordinance shall be recorded in the Office of the Register of Deeds in the county wherein the property or properties are located and shall be indexed in the name of the property owner in the grantor index. If the owner fails to comply with this ordinance, the public officer shall effectuate the purpose of the ordinance.

This subdivision only applies to municipalities located in counties which have a population in excess of 71,000 by the last federal census (including the entirety of any municipality located in more than one county at least one county of which has a population in excess of 71,000).

- (5b) If the governing body shall have adopted an ~~ordinance~~, ordinance as provided in subdivision (4) of this section, or the public officer shall have:
- a. In a municipality other than municipalities with a population in excess of 190,000 by the last federal census, issued an order, ordering a dwelling to be repaired or vacated and closed, as provided in subdivision (3)a, and if the ~~owner has vacated and closed such dwelling and kept such dwelling~~ has been vacated and closed for a period of one year pursuant to the ordinance or order;
 - b. In a municipality with a population in excess of 190,000 by the last federal census, commenced proceedings under the substandard housing regulations regarding a dwelling to be repaired or vacated and closed, as provided in subdivision (3)a., and if the ~~owner has vacated and closed such dwelling and kept such dwelling~~ has been vacated and closed for a period of one year pursuant to the ordinance or after such proceedings have commenced,
- then if the governing body shall find that the owner has abandoned the intent and purpose to repair, alter or improve the dwelling in order to render it fit

for human habitation and that the continuation of the dwelling in its vacated and closed status would be inimical to the health, safety, morals and welfare of the municipality in that the dwelling would continue to deteriorate, would create a fire and safety hazard, would be a threat to children and vagrants, would attract persons intent on criminal activities, would cause or contribute to blight and the deterioration of property values in the area, and would render unavailable property and a dwelling which might otherwise have been made available to ease the persistent shortage of decent and affordable housing in this State, then in such circumstances, the governing body may, after the expiration of such one year period, enact an ordinance and serve such ordinance on the owner, setting forth the following:

- a. If it is determined that the repair of the dwelling to render it fit for human habitation can be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling, the ordinance shall require that the owner either repair or demolish and remove the dwelling within 90 days; or
- b. If it is determined that the repair of the dwelling to render it fit for human habitation cannot be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling, the ordinance shall require the owner to demolish and remove the dwelling within 90 days.

This ordinance shall be recorded in the Office of the Register of Deeds in the county wherein the property or properties are located and shall be indexed in the name of the property owner in the grantor index. If the owner fails to comply with this ordinance, the public officer shall effectuate the purpose of the ordinance.

This subdivision applies to the Cities of Eden, Lumberton, Roanoke Rapids, and Whiteville, to the municipalities in Lee County, and the Towns of Bethel, Farmville, Newport, and Waynesville only.

(6) Liens. –

- a. That the amount of the cost of repairs, alterations or improvements, or vacating and closing, or removal or demolition by the public officer shall be a lien against the real property upon which the cost was incurred, which lien shall be filed, have the same priority, and be collected as the lien for special assessment provided in Article 10 of this Chapter.
- b. If the real property upon which the cost was incurred is located in an incorporated city, then the amount of the cost is also a lien on any other real property of the owner located within the city limits or within one mile thereof except for the owner's primary residence. The additional lien provided in this sub-subdivision is inferior to all prior liens and shall be collected as a money judgment.
- c. If the dwelling is removed or demolished by the public officer, he shall sell the materials of the dwelling, and any personal property, fixtures or appurtenances found in or attached to the dwelling, and shall credit the proceeds of the sale against the cost of the removal or demolition and any balance remaining shall be deposited in the superior court by the public officer, shall be secured in a manner directed by the court, and shall be disbursed by the court to the persons found to be entitled thereto by final order or decree of the court. Nothing in this section shall be construed to impair or limit in any way the power of the city to define and declare nuisances and to

cause their removal or abatement by summary proceedings, or otherwise.

- (7) If any occupant fails to comply with an order to vacate a dwelling, the public officer may file a civil action in the name of the city to remove such occupant. The action to vacate the dwelling shall be in the nature of summary ejectment and shall be commenced by filing a complaint naming as parties-defendant any person occupying such dwelling. The clerk of superior court shall issue a summons requiring the defendant to appear before a magistrate at a certain time, date and place not to exceed 10 days from the issuance of the summons to answer the complaint. The summons and complaint shall be served as provided in G.S. 42-29. The summons shall be returned according to its tenor, and if on its return it appears to have been duly served, and if at the hearing the public officer produces a certified copy of an ordinance adopted by the governing body pursuant to subdivision (5) authorizing the officer to proceed to vacate the occupied dwelling, the magistrate shall enter judgment ordering that the premises be vacated and that all persons be removed. The judgment ordering that the dwelling be vacated shall be enforced in the same manner as the judgment for summary ejectment entered under G.S. 42-30. An appeal from any judgment entered hereunder by the magistrate may be taken as provided in G.S. 7A-228, and the execution of such judgment may be stayed as provided in G.S. 7A-227. An action to remove an occupant of a dwelling who is a tenant of the owner may not be in the nature of a summary ejectment proceeding pursuant to this paragraph unless such occupant was served with notice at least 30 days before the filing of the summary ejectment proceeding that the governing body has ordered the public officer to proceed to exercise his duties under subdivisions (4) and (5) of this section to vacate and close or remove and demolish the dwelling.
- (8) That whenever a determination is made pursuant to subdivision (3) of this section that a dwelling must be vacated and closed, or removed or demolished, under the provisions of this section, notice of the order shall be given by first-class mail to any organization involved in providing or restoring dwellings for affordable housing that has filed a written request for such notices. A minimum period of 45 days from the mailing of such notice shall be given before removal or demolition by action of the public officer, to allow the opportunity for any organization to negotiate with the owner to make repairs, lease, or purchase the property for the purpose of providing affordable housing. The public officer or clerk shall certify the mailing of the notices, and the certification shall be conclusive in the absence of fraud. Only an organization that has filed a written request for such notices may raise the issue of failure to mail such notices, and the sole remedy shall be an order requiring the public officer to wait 45 days before causing removal or demolition."

"ARTICLE VI. PUBLIC CONTRACTS.

"Sec. 6.1. **Design-Build.** The Town of Huntersville may contract for the design, construction, and operation of buildings, parking decks or facilities, roads and streets, bridges, sidewalks and other transportation-related facilities, and other public projects, notwithstanding any provisions and requirements of Chapter 143 of the General Statutes. The authorization includes, if deemed appropriate by the Board, the use of the single-prime contractor method of design and construction, the design-build or the design-build-operate method of construction, or a request for proposals and negotiation as an alternative design and construction method. The Town shall request proposals from and interview at least three design-build teams, or design-build-operate teams as appropriate, that have submitted proposals for the project. If three proposals are not received and the project has been publicly advertised for a minimum of 30 days, then the Town may proceed with the proposals received. The Town shall award the contract to the best qualified contractor, taking into account the time of completion of the project, the capital and operation and maintenance costs of the project, the technical merits of the proposal including, but not limited to, reliability and protection of the environment, and such other factors and information set forth in the request for proposals that the Town determines to have a material bearing on the ability to evaluate any proposal.

"ARTICLE VII. SALE, LEASE, AND DISPOSITION OF PROPERTY.

"Sec. 7.1. **Disposition of Certain Real Property.** The Board may authorize the Town Manager to dispose of interest in real property without obtaining Board approval for each disposition by private negotiation and sale when the fair market value of the Town's interest in the real property is ten thousand dollars (\$10,000) or less.

"Sec. 7.2. **Disposition of Personal Property.** The Town may sell any and all surplus property belonging to the Town at private sale, including by use of electronic auction.

The Town is specifically authorized to lease such property to any person or entity and for any purposes the Town deems appropriate, so long as the Board has reasonably determined that such leased property shall not be needed for public purposes for the term of the lease, and if the leased property is not to be used for public purpose, that the lease shall be at a fair market rate.

"Sec. 7.4. **Conditions and Restrictions Authorized.** The Board may sell, exchange, or otherwise transfer the fee or any lesser interest in real property to any purchaser subject to covenants, conditions, and restrictions as the Board may deem to be in the public interest. The sale, exchange, or other transfer may be made pursuant to the provisions of this Charter, Article 7 of Chapter 160A of the General Statutes, or any other applicable provisions of law, and the consideration received by the Town, if any, for the sale, exchange, or transfer may reflect the restricted use of the property resulting from the covenants, conditions, and restrictions. The Town may invite bids or written proposals, including detailed development plans and site plans, for the purchase of any property or property interest, whether by sale, exchange, or other transfer, pursuant to such specifications as may be approved by the Town. The sale, exchange, or other transfer of real property, or interest therein, pursuant to this section may be made contingent upon the necessary rezoning of the property.

"ARTICLE VIII. REGULATORY AND PLANNING FUNCTIONS.

"Sec. 8.1. **Adequate Level of Service.** In order to ensure that growth and development will not adversely affect the public health, safety, and general welfare of the Town, its residents, and those subject to its jurisdiction, the Board may adopt ordinances to ensure that proposed development will not adversely impact traffic and transportation conditions and the level of services for parks, fire and police protection, and other governmental services below a level of service as may be determined by the Board from time to time. Any such ordinance must contain provisions permitting the applicant for such development to mitigate impact of

development if such development would cause the level of service to fall below the predetermined level.

AN ACT TO PROVIDE THAT AN INDIVIDUAL WILL NOT BE DENIED UNEMPLOYMENT COMPENSATION SOLELY BECAUSE THE INDIVIDUAL IS SEEKING ONLY PART-TIME WORK, TO REMOVE DISQUALIFYING CONDITIONS RELATED TO SEPARATING FROM WORK FOR COMPELLING FAMILY REASONS INCLUDING DOMESTIC VIOLENCE, ILLNESS, OR DISABILITY, AND TO REPEAL THE TWO-WEEK DISQUALIFICATION FOR UNEMPLOYMENT COMPENSATION BENEFITS AS A RESULT OF LEAVING WORK TO ACCOMPANY A SPOUSE TO A NEW PLACE OF RESIDENCE FOR WORK IN A DIFFERENT LOCATION AND TO MAKE THOSE BENEFITS NONCHARGEABLE TO THE EMPLOYER.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 96-8 is amended by adding a new subdivision to read:

"(29) Seeking only part-time work. – Where an individual is available to work for a number of hours per week that are comparable to the individual's part-time work experience in his or her base period."

SECTION 2. G.S. 96-13(a)(6) reads as rewritten:

"(6) ~~An unemployed individual shall not be disqualified for eligibility for unemployment compensation benefits solely on the basis that the individual is only available for part time work. If an individual restricts his or her eligibility to part time work, the individual may be considered able and available to work if it is determined that all the following conditions exist:~~

- a. ~~The claimant's monetary eligibility is based predominately on wages from part time work.~~
- b. ~~The claimant is actively seeking and is willing to accept work under essentially the same conditions as existed while the claimant's reported wages were accrued.~~
- e. ~~The claimant imposes no other restriction and is in a labor market in which a reasonable demand exists for part time service.~~

~~This subdivision shall not be construed to amend subdivision (3) of this subsection as it applies to students or G.S. 96-16 as it applies to seasonal workers.~~

Notwithstanding any other provisions of this Chapter, an unemployed individual shall not be ineligible for unemployment compensation benefits under any provision of the Employment Security Law relating to availability for work, active search for work, or refusal to accept work solely because the individual is seeking only part-time work as defined in G.S. 96-8(29), provided that a majority of weeks of work in the individual's base period include part-time work."

SECTION 3. G.S. 96-14 reads as rewritten:

"§ 96-14. Disqualification for benefits.

An individual shall be disqualified for benefits:

- (1) For the duration of his unemployment beginning with the first day of the first week after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission

that such individual is, at the time such claim is filed, unemployed because he left work without good cause attributable to the employer.

Where an individual is discharged or leaves work due solely to a disability incurred or other health condition, whether or not related to the work, he shall not be disqualified for benefits if the individual shows:

- a. That, at the time of leaving, an adequate disability or health condition of the employee, of a minor child who is in the legally recognized custody of the individual, of an aged or disabled parent of the individual, or of a disabled member of the individual's immediate family, either medically diagnosed or otherwise shown by competent evidence, existed to justify the ~~leaving and prevented the employee from doing other alternative work offered by the employer which pays the minimum wage or eighty five percent (85%) of the individual's regular wage, whichever is greater;~~ leaving; and
- b. That, at a reasonable time prior to leaving, the individual gave the employer notice of the disability or health condition.

Where an employee is notified by the employer that such employee will be separated from employment on some future date and the employee leaves work prior to this date because of the impending separation, the employee shall be deemed to have left work voluntarily and the leaving shall be without good cause attributable to the employer. However, if the employee shows to the satisfaction of the Commission that it was impracticable or unduly burdensome for the employee to work until the announced separation date, the permanent disqualification imposed for leaving work without good cause attributable to the employer may be reduced to the greater of four weeks or the period running from the beginning of the week during which the claim for benefits was made until the end of the week of the announced separation date.

An employer's placing an individual on a bona fide disciplinary suspension of 10 or fewer consecutive calendar days shall not constitute good cause for leaving work.

- (1a) Where an individual leaves work, the burden of showing good cause attributable to the employer rests on said individual, and the burden shall not be shifted to the employer.
- (1b) Where an individual leaves work due solely to a unilateral and permanent reduction in work hours of more than twenty percent (20%) of the customary scheduled full-time work hours in the establishment, plant, or industry in which he was employed, said leaving shall constitute good cause attributable to the employer for leaving work. Provided however that if said reduction is temporary or was occasioned by malfeasance, misfeasance or nonfeasance on the part of the individual, such reduction in work hours shall not constitute good cause attributable to the employer for leaving work.
- (1c) Where an individual leaves work due solely to a unilateral and permanent reduction in his rate of pay of more than fifteen percent (15%), said leaving shall constitute good cause attributable to the employer for leaving work. Provided however that if said reduction is temporary or was occasioned by malfeasance, misfeasance or nonfeasance on the part of the individual, such reduction in pay shall not constitute good cause attributable to the employer for leaving work.
- (1d) For the purposes of this Chapter, any claimant leaving work to accompany the claimant's spouse to a new place of residence where that spouse has secured work in a location that is too far removed for the claimant reasonably to continue his or her work shall ~~serve a time certain~~

~~disqualification for benefits for a period of two weeks beginning the first day of the first week after the disqualifying act occurs with respect to which week an individual files a claim for benefits.~~ constitute good cause for leaving work. Notwithstanding the other provisions of this subdivision, any claimant leaving work to accompany the claimant's spouse to a new place of residence because the spouse has been reassigned from one military assignment to another shall be deemed good cause for leaving work. Benefits paid on the basis of this subdivision shall not be charged to the account of the employer.

- (1e) For the duration of an individual's unemployment, beginning with the first day of the first week after the disqualifying act occurs with respect to which week an individual files a claim for benefits, if it is determined by the Commission that such individual is, at the time such claim is filed, unemployed because the individual, without good cause attributable to the employer and after receiving notice from the employer, refused to return to work for a former employer when recalled within four weeks from a layoff, or when recalled in any week in which the work search requirements under G.S. 96-13 have been waived. As used in this subsection, the term "layoff" means a temporary separation from work due to no work available for the individual at the time of separation from work and the individual is retained on the employer's payroll and is a continuing employee subject to recall by the employer.
- (1f) For the purposes of this Chapter, any claimant's leaving work, or discharge, if the claimant has been adjudged an aggrieved party as set forth by Chapter 50B of the General Statutes or there is evidence of domestic violence, sexual offense, or stalking, or the claimant has been granted program participant status pursuant to G.S. 15C-4 as the result of domestic violence committed upon the claimant or upon a minor child with or in the custody of the claimant by a person who has or has had a familial relationship with the claimant or minor child, shall constitute good cause for leaving work. Benefits paid on the basis of this section shall be noncharged. Evidence of domestic violence, sexual offense, or stalking may include: (i) law enforcement, court, or federal agency records or files; (ii) documentation from a domestic violence or sexual assault program if the claimant is alleged to be a victim of domestic violence or sexual assault; ~~and~~ or (iii) documentation from a religious, medical, or other professional from whom the claimant has sought assistance in dealing with the alleged domestic violence, sexual abuse, or stalking. This provision is only applicable to the claimant and claimant's spouse, parents, and children under 18 years of age, whether the relationship is a biological, step-, half-, or in-law relationship.
- (1g) For purposes of this Chapter, separation or discharge solely due to an inability to accept work during a particular shift as a result of an undue family hardship shall constitute good cause for leaving work. Benefits paid on the basis of this section shall not be charged to the account of the employer.
- (2) For the duration of his unemployment beginning with the first day of the first week after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission that such individual is, at the time such claim is filed, unemployed because he was discharged for misconduct connected with his work. Misconduct connected with the work is defined as conduct evincing such willful or wanton disregard of an employer's interest as is found in deliberate violations or disregard of standards of behavior which the employer has the

right to expect of his employee, or in carelessness or negligence of such degree or recurrence as to manifest equal culpability, wrongful intent or evil design, or to show an intentional and substantial disregard of the employer's interests or of the employee's duties and obligations to his employer.

"Discharge for misconduct with the work" as used in this section is defined to include but not be limited to separation initiated by an employer for reporting to work significantly impaired by alcohol or illegal drugs; consuming alcohol or illegal drugs on employer's premises; conviction by a court of competent jurisdiction for manufacturing, selling, or distribution of a controlled substance punishable under G.S. 90-95(a)(1) or G.S. 90-95(a)(2) while in the employ of said employer.

- (2a) For a period of not less than four nor more than 13 weeks beginning with the first day of the first week during which or after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission that such individual is, at the time the claim is filed, unemployed because he was discharged for substantial fault on his part connected with his work not rising to the level of misconduct. Substantial fault is defined to include those acts or omissions of employees over which they exercised reasonable control and which violate reasonable requirements of the job but shall not include (1) minor infractions of rules unless such infractions are repeated after a warning was received by the employee, (2) inadvertent mistakes made by the employee, nor (3) failures to perform work because of insufficient skill, ability, or equipment. Upon a finding of discharge under this subsection, the individual shall be disqualified for a period of nine weeks unless, based on findings by the Commission of aggravating or mitigating circumstances, the period of disqualification is lengthened or shortened within the limits set out above. The length of the disqualification so set by the Commission shall not be disturbed by a reviewing court except upon a finding of plain error.
- (2b) For the duration of his unemployment beginning with the first day of the first week during which or after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission that the individual is, at the time such claim is filed, unemployed because the individual has been discharged from employment because a license, certificate, permit, bond, or surety that is necessary for the performance of his employment and that the individual is responsible to supply has been revoked, suspended, or otherwise lost to him, or his application therefor has been denied for a cause that was within his power to control, guard against, or prevent.
- (3) For the duration of his unemployment beginning with the first day of the first week in which the disqualifying act occurs if it is determined by the Commission that such individual has failed without good cause (i) to apply for available suitable work when so directed by the employment office of the Commission; or (ii) to accept suitable work when offered him; or (iii) to return to his customary self-employment (if any) when so directed by the Commission. Provided further, an otherwise eligible individual who is attending a vocational school or training program which has been approved by the Commission for such individual shall not be denied benefits because he refuses to apply for or accept suitable work during such period of training.

In determining whether or not any work is suitable for an individual, the Commission shall consider the degree of risk involved to his health, safety, and morals, his physical fitness and prior training, his experience and prior

earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence.

Notwithstanding any other provisions of this Chapter, no work shall be deemed suitable and benefits shall not be denied under this Chapter to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

- a. If the position offered is vacant due directly to a strike, lockout, or other labor dispute;
 - b. If the remuneration, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality;
 - c. If as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor ~~organization~~ organization;
 - d. If the position offered is full-time work and the individual meets the part-time worker requirements of G.S. 96-13(a)(6).
- (4) For the duration of his unemployment beginning with the first day of the first week after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission that:
- a. Such individual has failed without good cause to attend a vocational school or training program when so directed by the Commission;
 - b. Such individual has discontinued his training course without good cause; or
 - c. If the individual is separated from his training course or vocational school due to misconduct.
- (5) For any week with respect to which the Commission finds that his total or partial unemployment is caused by a labor dispute in active progress on or after July 1, 1961, at the factory, establishment, or other premises at which he is or was last employed or caused after such date by a labor dispute at another place within this State which is owned or operated by the same employing unit which owns or operates the factory, establishment, or other premises at which he is or was last employed and which supplies materials or services necessary to the continued and usual operation of the premises at which he is or was last employed. Provided, that an individual disqualified under the provisions of this subdivision shall continue to be disqualified thereunder after the labor dispute has ceased to be in active progress for such period of time as is reasonably necessary and required to physically resume operations in the method of operating in use at the plant, factory, or establishment of the employing unit.
- (6) If the Commission finds he is customarily self-employed and can reasonably return to self-employment.
- (6a) For the duration of his unemployment beginning with the first day of the first week during which or after the disqualifying act occurs with respect to which week an individual files a claim for benefits if it is determined by the Commission that the individual is, at the time the claim is filed, unemployed because the individual's ownership share of the employing entity was voluntarily sold and, at the time of the sale:
- a. The employing entity was a corporation and the individual held five percent (5%) or more of the outstanding shares of the voting stock of the corporation;

- b. The employing entity was a partnership, limited or general, and the individual was a limited or general partner; or
 - c. The employing entity was a proprietorship, and the individual was a proprietor.
- (7) For any week after June 30, 1939, with respect to which he shall have and assert any right to unemployment benefits under an employment security law of either the federal or a state government, other than the State of North Carolina.
- (8) For any week with respect to which he has received any sum from the employer pursuant to an order of any court, the National Labor Relations Board, any other lawfully constituted adjudicative agency, or by private agreement, consent or arbitration for loss of pay by reason of discharge. When the amount so paid by the employer is in a lump sum and covers a period of more than one week, such amount shall be allocated to the weeks in the period on such a pro rata basis as the Commission may adopt and if the amount so prorated to a particular week would, if it had been earned by the claimant during that week of unemployment, have resulted in a reduced benefit payment as provided in G.S. 96-12, the claimant shall be entitled to receive such reduced payment if the claimant was otherwise eligible.

Further provided, any benefits previously paid for weeks of unemployment with respect to which back pay awards, or other such compensation, are made shall constitute an overpayment of benefits and such amounts shall be deducted from the award by the employer prior to payment to the employee, and shall be transmitted promptly (or within 5 days) to the Commission by the employer for application against the overpayment. Provided, however, the removal of any charges made against the employer as a result of such previously paid benefits shall be applied to the calendar year in which the overpayment is transmitted to the Commission, and no attempt shall be made to relate such a credit to the period to which the award applies. Any amount of overpayment so deducted by the employer and not transmitted to the Commission or the failure of an employer to deduct an overpayment shall be subject to the same procedures for collection as is provided for contributions by G.S. 96-10. It is the purpose of this paragraph to assure the prompt collection of overpayments of U. I. benefits, and it shall be construed accordingly.

- (9) The amount of compensation payable to an individual for any week which begins after July 2, 1977, and which begins in a period with respect to which such individual is receiving a governmental or other pension, retirement or retired pay, annuity, or any other similar periodic payment which is based on the previous work of such individual shall be reduced (but not below zero) by an amount rounded to the nearest dollar equal to the amount of such pension, retirement or retired pay, annuity, or other payment which is reasonably attributable to such week.

The amount of benefits payable to an individual for any week which begins after July 1, 1981, and which begins in a period with respect to which such individual is receiving a governmental or other pension, retirement or retired pay, annuity, or other similar periodic payment which is based on the previous work of such individual shall be reduced (but not below zero) by the amounts of any such pension, retirement or retired pay, annuity, or other payment contributed to in part or in total by the individual's base period employers; provided, however, that the amount of all payments received by an individual under the Railroad Retirement Act shall be deducted from the individual's benefit amount. Provided further, that all such reduced weekly

benefit amounts shall be rounded to the nearest lower full dollar amount (if not a full dollar amount).

- (10) Any employee disqualified for the duration of his unemployment due to the provisions of (1), (2), (2B), (3), (4), or (6A) above may have that permanent disqualification removed if he meets the following three conditions:
- a. Returns to work for at least five weeks and is paid cumulative wages of at least 10 times his weekly benefit amount;
 - b. Subsequently becomes unemployed through no fault of his own; and
 - c. Meets the availability requirements of the law.

Any time certain disqualification imposed by the provisions of subsections (1), (1D), and (2A) shall be removed by serving the disqualification imposed as provided by this subsection.

Provided for good cause shown the Commission in its discretion may as to any permanent disqualification provided in this Chapter reduce the disqualification period to a time certain but not less than five weeks. The maximum amount of benefits due any individual whose permanent disqualification is changed to a time certain shall be reduced by an amount determined by multiplying the number of weeks of disqualification by the weekly benefit amount.

Provided further, any permanent disqualification pursuant to the provisions of (1), (2), (3), (4), or (6A) shall terminate two years after the effective date of the beginning of said disqualification.

- (11) a. Notwithstanding any other provisions of this Chapter, no otherwise eligible individual shall be denied benefits for any week because he or she is in training approved under Section 236(a)(1) of the Trade Act of 1974, nor shall such individual be denied benefits by reason of leaving work to enter such training, provided the work left is not suitable employment, or because of the application to any such week in training of provisions in this law (or any applicable Federal unemployment compensation law), relating to availability for work, active search for work, or refusal to accept work.
- b. For purposes of this subsection, the term "suitable employment" means with respect to an individual, work of a substantially equal or higher skill level than the individual's past adversely affected employment (as defined for purposes of the Trade Act of 1974), and wages for such work at not less than eighty percent (80%) of the individual's average weekly wage as determined for the purposes of the Trade Act of 1974.
- (12) Notwithstanding any other provision of this Chapter, no otherwise eligible individual shall be denied benefits for any weeks if it is determined by the Commission that such individual is, at the time such claim is filed, unemployed because he left work solely as a result of a lack of work caused by the bankruptcy of his employer."

S.B. 467

AN ACT TO ASSIST OWNERS IN RECOVERING LOST PETS, RELIEVE OVERCROWDING AT ANIMAL SHELTERS, AND FACILITATE ADOPTIONS OF ANIMALS FROM SHELTERS.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 130A-192 reads as rewritten:

"§ **130A-192. Dogs and cats not wearing required rabies vaccination tags.**

(a) The Animal Control Officer shall canvass the county to determine if there are any dogs or cats not wearing the required rabies vaccination tag. If a dog or cat is found not wearing the required tag, the Animal Control Officer shall check to see if the owner's identification can be found on the animal. If the animal is wearing an owner identification ~~tag,~~ tag with information enabling the owner of the animal to be contacted, or if the Animal Control Officer otherwise knows who the owner is, the Animal Control Officer shall notify the owner in writing to have the animal vaccinated against rabies and to produce the required rabies vaccination certificate to the Animal Control Officer within three days of the notification. If the animal is not wearing an owner identification tag and the Animal Control Officer does not otherwise know who the owner is, the Animal Control Officer may impound the animal. The duration of the impoundment of these animals shall be established by the county board of commissioners, but the duration shall not be less than 72 hours. During the impoundment period, the Animal Control Officer shall make a reasonable effort to locate the owner of the animal. If the Animal Control Officer has access at no cost or at a reasonable cost to a microchip scanning device, the Animal Control Officer may scan the animal and utilize any information that may be available through a microchip to locate the owner of the animal, if possible. If the animal is not reclaimed by its owner during the impoundment period, the animal shall be disposed of in one of the following manners: returned to the owner; adopted as a pet by a new owner; sold to institutions within this State registered by the United States Department of Agriculture pursuant to the Federal Animal Welfare Act, as amended; or put to death by a procedure approved by rules adopted by the Department of Agriculture and Consumer Services

or, in the absence of such rules, by a procedure approved by the American Veterinary Medical Association, the Humane Society of the United States or of the American Humane Association.

(a1) Before an animal may be sold or put to death, it shall be made available for adoption under procedures that enable members of the public to inspect the animal, except in cases in which the animal is found by the operator of the shelter to be unadoptable due to injury or defects of health or temperament. An animal that is seriously ill or injured may be euthanized if the manager of the animal shelter determines, in writing, that it is appropriate to do so. Nothing in this subsection shall supercede (i) any rules adopted by the Board of Agriculture which specify the number of animals allowed for kennel space in animal shelters, or (ii) the duration of impoundment established by the county board of commissioners, or the 72-hour holding period, as provided in subsection (a) of this section.

(a2) Except as otherwise provided in this subsection, a person who comes to an animal shelter attempting to locate a lost pet is entitled to view every animal held at the shelter, subject to rules providing for such viewing during at least four hours a day, three days a week. If the shelter is housing animals that must be kept apart from the general public for health reasons, public safety concerns, or in order to preserve evidence for criminal proceedings, the shelter shall make reasonable arrangements that allow pet owners to determine whether their lost pets are among those animals.

(a3) The Animal Control Officer shall maintain a record of all animals impounded under this section which shall include the date of impoundment, the length of impoundment, the method of disposal of the animal and the name of the person or institution to whom any animal has been released.

(b) In addition to domesticated dogs and cats not wearing the required rabies tags, the provisions of subsection (a) of this section concerning the holding of animals for at least 72 hours and the permissible means of disposition of animals after expiration of that holding period also apply to all of the following:

- (1) Dogs and cats that are wearing rabies tags but are taken into custody for violation of statutes or ordinances not related to rabies control, such as ordinances requiring the leashing or restraining of dogs and cats.
- (2) Dogs and cats surrendered to an animal shelter by the owners of the animals, unless an owner provides to the shelter the following:
 - a. Some proof of ownership of the animal, and
 - b. A signed written consent to the disposition of the animal, in a manner authorized by this section, before the expiration of the 72-hour holding period or of a longer period established by ordinance or local rule to which the shelter is subject.

(c) If an animal is not wearing tags, or other mode of identification indicating its owner, and is delivered to an animal shelter by (i) a person who has found and captured the animal, or (ii) by an approved rescue organization that received the animal from a person who found and captured the animal, then the shelter may, in writing, appoint the finder or approved rescue organization to be the agent of the shelter. For purposes of this subsection, the term "approved rescue organization" means a nonprofit corporation or association that cares for stray animals that has been favorably assessed by the operator of the animal shelter through the application of written standards.

- (1) If the animal is a dog or cat, the finder or approved rescue organization shall hold the animal for the 72-hour holding period provided for in subsection (a) of this section or such longer holding period that may be applicable to the shelter by ordinance or local rule. If the animal is not a dog or cat, then the holding period shall be by agreement between the animal shelter and the person or organization receiving the animal.
- (2) After the expiration of the applicable holding period, the shelter may:
 - a. Transfer the animal by adoption to the person or organization that has held it as agent, or

- b. Extend the period of time the finder or rescue organization holds the animal as agent of the shelter.
- (3) A shelter may terminate an agency created under this subsection at any time by directing the finder or rescue organization to deliver the animal to the shelter.
- (4) The city, county, or organization operating the animal shelter, as principal in the agency relationship, shall not be liable to reimburse the agent for the costs of care of the animal and shall not be liable to the owner of the animal for harm to the animal caused by the agent, absent a written contract providing otherwise.
- (d) During the 72-hour or longer holding period established under subsection (a) of this section, an animal shelter may place an animal it is holding in foster care.
- (e) If an animal shelter transfers physical possession of a dog or cat under subsection (c) or (d) of this section, so that the animal is no longer on the animal shelter premises, at least one photograph which depicts the head and face of the animal shall (i) be displayed at the shelter in a conspicuous location that is available to the general public during hours of operation, and (ii) remain posted for the 72-hour or longer holding period established under subsection (a) of this section."

SECTION 2. G.S. 130A-184(1) reads as rewritten:

- "(1) "Animal Control Officer" means a city or county employee designated as dog warden, animal control officer, animal control official or other designations that may be used whose responsibility includes animal control. The term "Animal Control Officer" also includes agents of a private organization that is operating an animal shelter under contract with a city or county whenever those agents are performing animal control functions at the shelter."

SECTION 3. This act becomes effective January 1, 2010. The provisions of G.S. 130A-192(a2) may be waived by the Department of Agriculture until July 1, 2010, for counties that do not have an employee who is employed a minimum of 30 hours per week fulfilling the responsibilities of an animal control officer for the county.

AN ACT TO DEFER A PORTION OF THE PROPERTY TAX DUE ON REAL PROPERTY HELD FOR SALE BY A BUILDER.

The General Assembly of North Carolina enacts:

SECTION 1. G.S. 105-273 is amended by adding a new subdivision to read:

"(3a) "Builder" means a taxpayer licensed as a general contractor under G.S. 87-1 and engaged in the business of buying real property, making improvements to it, and then reselling it."

SECTION 2. Article 12 of Chapter 105 of the General Statutes is amended by adding a new section to read:

"§ 105-277.1D. Inventory property tax deferral.

(a) Classification. – A residence owned and constructed by a builder is designated a special class of property under Section 2(2) of Article V of the North Carolina Constitution and is taxable in accordance with this section. For purposes of this section, a "residence" is an improvement, other than remodeling, renovating, rehabilitating, or refinishing, by a builder to real property that is intended to be sold and used as an individual's residence, that is unoccupied, and for which a certificate of occupancy authorized by law has been issued.

(b) Deferred Taxes. – A builder may defer the portion of tax imposed on real property that represents the increase in value of the property attributable solely to improvements resulting from the construction by the builder of a residence on the property. The difference between the taxes due under this section and the taxes that would have been payable in the absence of this section are a lien on the real property of the taxpayer as provided in G.S. 105-355(a). The difference in taxes for the fiscal years preceding the current tax year shall be carried forward in the records of the taxing unit or units as deferred taxes. The deferred taxes are due and payable in accordance with G.S. 105-277.1F when the property loses its eligibility for deferral because of the occurrence of a disqualifying event. A disqualifying event occurs at the earliest of (i) when the builder transfers the residence, (ii) when the residence is occupied by the builder or by someone other than the builder with the builder's consent, (iii) five years from the time the improved property was first subject to being listed for taxation by the builder, or (iv) three years from the time the improved property first received the property tax benefit provided by this section. On or before September 1 of each year, the collector shall notify each builder to whom a tax deferral has previously been granted of the accumulated sum of deferred taxes and interest.

(c) Creditor Limitations. – A mortgagee or trustee that elects to pay any tax deferred by the builder subject to a mortgage or deed of trust does not acquire a right to foreclose as a result of the election. Except for requirements dictated by federal law or regulation, any provision in a mortgage, deed of trust, or other agreement that prohibits the builder from deferring taxes on property under this section is void.

(d) Construction. – This section does not affect the attachment of a lien for personal property taxes against a tax-deferred residence.

(e) Application. – An application for property tax relief provided by this section should be filed during the regular listing period but may be filed after the regular listing period upon a showing of good cause by the applicant for failure to make a timely application, as determined and approved by the board of equalization and review or, if that board is not in session, by the board of county commissioners. An untimely application approved under this subsection applies only to property taxes levied by the county or municipality in the calendar year in which the untimely application is filed. Decisions of the county board may be appealed to the Property Tax Commission. Persons may apply for this property tax relief by entering the appropriate information on a form made available by the assessor under G.S. 105-282.1."

information. In such an action, the custodian of the records shall have the burden of showing by a preponderance of the evidence that disclosure of the information in question will jeopardize the right of the State to prosecute a defendant or the right of a defendant to receive a fair trial or will undermine an ongoing or future investigation. (b) Before ordering that a case be transferred to another county, the court shall find that the director of the department of social services in the county in which the action is pending and the director in the county to which transfer is contemplated have communicated about the case and that:

(d) Before ordering that a case be transferred to a different district, the court shall communicate with the chief district court judge or a judge presiding in juvenile court in the district to which the transfer is contemplated explaining the reasons for the proposed transfer. If the judge in the district to which the transfer is proposed makes a timely objection to the transfer, either verbally or in writing, the court shall order the transfer only after making detailed findings of fact that support a conclusion that the juvenile's best interests require that the case be transferred.

(e) Before ordering that a case be transferred to another county, the court shall consider relevant factors, which may include:

- (6) The degree to which the transfer would cause inconvenience to one or more parties.
- (7) Any agreement of the parties as to which forum is most convenient.
- (8) The familiarity of the departments of social services, the courts, and the local offices of the guardian ad litem with the juvenile and the juvenile's family.

(f) The order transferring venue shall be in writing, signed, and entered no later than 30 days from completion of the hearing. If the order is not entered within 30 days following completion of the hearing, the clerk of court for juvenile matters shall schedule a subsequent hearing at the first session of court scheduled for the hearing of juvenile matters following the 30-day period to determine and explain the reason for the delay and to obtain any needed clarification as to the contents of the order. SECTION 7. G.S. 7B-907(a) reads as rewritten:

"(a) In any case where custody is removed from a parent, guardian, custodian, or caretaker, the judge shall conduct a review hearing designated as a permanency planning hearing within 12 months after the date of the initial order removing custody, and the hearing may be combined, if appropriate, with a review hearing required by G.S. 7B-906. The purpose of the permanency planning hearing shall be to develop a plan to achieve a safe, permanent home for the juvenile within a reasonable period of time. "§ 7B-908. Post termination of parental rights' placement court review.

(a) The purpose of each placement review is to ensure that every reasonable effort is being made to provide for a permanent placement plan for the juvenile who has been placed in the custody of a county director or licensed child-placing agency, which is consistent with the juvenile's best interests. Any individual whose parental rights have been terminated shall not be considered a party to the proceeding unless an appeal of the order terminating parental rights is pending, and a court has stayed the order pending the appeal.

(2) If a guardian ad litem for the juvenile has not been appointed previously by the court in the termination proceeding, the court, at the initial six-month review hearing, may appoint a guardian ad litem to represent the juvenile. AN ACT TO DIRECT THE DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES TO ESTABLISH STORMWATER CONTROL BEST MANAGEMENT PRACTICES AND PROCESS WATER TREATMENT PROCESSES FOR COMPOSTING OPERATIONS FOR THE PURPOSE OF PROTECTING WATER QUALITY.

The General Assembly of North Carolina enacts:

SECTION 1.(a) The Department of Environment and Natural Resources shall establish standard stormwater control best management practices and standard process water treatment processes or equivalent performance standards for composting operations that are required to be permitted by the Division of Water Quality in the Department and the Division of Waste Management in the Department. These practices, processes, and standards shall be developed for the purpose of protecting water quality by controlling and containing stormwater that is associated with composting operations, by reducing the pollutant levels of process water from composting operations, and by reducing the opportunities for generation of such waters.

SECTION 1.(b) The Division of Water Quality shall clarify that stormwater is water that does not contact anything considered a feedstock, intermediate product, or final product of composting operations. The Division of Water Quality shall clarify that wastewater is leachate and water that contacts feedstocks, intermediate products, or final product, of composting operations. The clarifications shall incorporate available scientifically valid information obtained from sampling and analyses of North Carolina composting facilities and from valid representative data from other states. In addition, the Division of Water Quality shall

establish threshold quantities of feedstocks, intermediate products, and final products above which water quality permitting will be required.

SECTION 1.(c) The Department shall establish revised water quality permitting procedures for the composting industry. The revised permitting procedures shall identify the various circumstances that determine which water quality permit is required for various composting activities. The Department shall determine whether selected low-risk subsets of the composting industry may be suitable for expedited or reduced water quality permitting procedures. The determination shall include consideration of the economic impact of regulatory decisions.

SECTION 1.(d) In developing the practices, processes, and standards and the revised water quality permitting procedures required by this section, the Department shall review practices, processes, and standards and permitting procedures adopted by other states and similar federal programs.

SECTION 1.(e) The Department shall form a Compost Operation Stakeholder Advisory Group composed of representatives from the North Carolina Chapter of the United States Composting Council, the North Carolina Association of County Commissioners, the North Carolina League of Municipalities, the North Carolina State Agricultural Extension Service, the North Carolina Chapter of the American Water Works Association-Water Environment Federation, the North Carolina Pumper Group, the North Carolina Chapter of the Solid Waste Association of North America, the North Carolina Septic Tank Association, and any individual or group commenting to the Department on issues related to water quality at composting operations. The Compost Operation Stakeholder Advisory Group shall be convened periodically to provide input and assistance to the Department.

SECTION 1.(f) The practices, processes, and standards and the revised permitting procedures shall address the site size of an operation, the nature of the feedstocks composted, the type of compost production method employed, the quantity and water quality of the stormwater or process water associated with composting facilities, the water quality of the receiving waters, as well as operation and maintenance requirements for the resulting standard stormwater control best management practices and standard process water treatment processes.

SECTION 2. Not later than December 31, 2009, the Department shall report to the Environmental Review Commission on the progress of the implementation of the provisions of this act and any recommendations from the Compost Operation Stakeholder Advisory Group and other commenters. The Department shall periodically make other progress reports as the Commission may subsequently direct.

SECTION 3.(a) For the period of time between the effective date of this act and phase-in provided by Section 3(d) of this act, permits for composting facilities shall be handled as follows:

- (1) The Division of Water Quality shall issue interim water quality permit extensions to all composting facilities applying for a water quality permit renewal until the revised final water quality permitting procedures are phased in, as provided in Section 3(d) of this act. The issuance of interim water quality permit extensions shall be contingent upon no significant changes to the existing quantities, feedstocks, and composting methods permitted by the Division of Waste Management. For any facility found to be causing or contributing to a violation of water quality standards, the Division of Water Quality may subsequently determine that the facility is ineligible for continued coverage under an interim water quality permit extension.
- (2) For facilities renewing permits issued by the Division of Waste Management prior to the phase-in provided in Section 3(d) of this act, but operating without the appropriate water quality permits, the Division of Water Quality will work with those facilities on a case-by-case basis to establish appropriate permit coverage.

- (3) New water quality permit applications filed after July 1, 2009, shall be handled on a case-by-case basis.

SECTION 3.(b) Not later than January 1, 2010, the Department shall request comments and recommendations from the Compost Operation Stakeholder Advisory Group as to standard stormwater control best management practices, standard process water treatment processes, and performance standards and the elements of the revised water quality permitting procedures.

SECTION 3.(c) Not later than January 1, 2011, the Department shall establish standard stormwater control best management practices and standard process water treatment processes or performance standards, including standard methods for the reduction in volume for both of these waters.

SECTION 3.(d) Not later than January 1, 2011, the Department shall begin the phase-in of the revised water quality permitting procedures for the composting industry. Complete phase in of the revised water quality permitting procedures shall be accomplished not later than October 1, 2012.

SECTION 3.(e) Water quality permits for the composting industry shall include a reopener clause that may be used to revise permit conditions to reflect the results of the stakeholder process.

SECTION 4. This act is effective when it becomes law.

In the General Assembly read three times and ratified this the 13th day of July, 2009.
