## § 143-355.8. Regional water supply planning organizations.

- (a) One or more water systems may establish a water supply planning organization to plan for and coordinate water resource supply and demand on a regional basis. A water supply planning organization may include representatives of local government water systems, water authorities, nongovernmental water systems, and registered water withdrawers.
  - (b) A regional water supply planning organization may do any of the following:
    - (1) Identify sources of raw water supply for regional systems.
    - (2) Identify areas suitable for the development of new regional water sources.
    - (3) Identify opportunities for purchase and sale of water between water systems to meet regional water supply needs.
    - (4) Prepare joint water supply plans.
    - (5) Enter into agreements with the Department for technical assistance in identifying practical alternatives to meet regional water supply needs pursuant to G.S. 143-355.7 or to provide studies in support of a proposed regional water supply project.
    - (6) Support cooperative arrangements between water systems for purchase and sale of water by providing technical assistance and voluntary mediation of disputes concerning water supply.
- (c) Nothing in this section shall be construed to alter the requirements for obtaining a certificate for an interbasin transfer. (2011-374, s. 1.2.)
