8 Whereas, Section 5 of Article XIV of the North Carolina Constitution states that it

10 recreational, and scenic areas and, in every other appropriate way, to preserve as a part of the
11 common heritage of this State its open lands and places of beauty; and

12 Whereas, the General Assembly enacted the State Parks Act in 1987, declaring that
13 the State of North Carolina offers unique archaeological, geological, biological, scenic, and
14 recreational resources, and that such resources are part of the heritage of the people of the State
15 to be preserved and managed by those people for their use and for the use of their visitors and
16 descendants; and

17 Whereas, the Bob's Creek area in McDowell County is significant for its scenic
18 beauty, high-quality natural communities, rare and unusual natural features, and opportunities
19 for natural resource preservation, outdoor recreation, and regional trail connections; and

21 the State's largest inland heronries, providing habitat for herons, egrets, moorhens, anhingas,
22 ibises, wood storks, alligators, and many other species of wildlife and plants, and preservation
23 of Warwick Mill Bay would protect an important ecological and scientific resource for future
24 North Carolinians; and

25 Whereas, the Salmon Creek area in Bertie County is ecologically significant for its
26 high-quality natural communities and also contains important prehistoric and historic
27 archaeological sites offering opportunities for important archaeological discoveries, including

29 presence; Now, therefore,
